

January 7, 2026

Melanie Bachman,
Acting Executive Director
Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

RE: Docket No. 110A – An amended Certificate of Environmental Compatibility and Public Need Issued to Wheelabrator Lisbon Inc. et al, for the Lisbon Resource Recovery Facility.

Operation Report for 2025, as per the Council's Decision and Order, Section 4(b) and amended by a letter from the Council dated April 26, 2005.

Dear Ms. Bachman

All construction of the facility is complete, and the facility has been commercially operational since December 19, 1995.

The construction of the well piping system was completed, and the well began to successfully operate on April 1, 1997.

As for specific items listed in *Section 4(b)*:

"(1) Participating municipalities, sources of MSW, and quantities of MSW burned"

Please refer to "Attachment A" for a complete listing of the information.

"(2)" Instances in which standards established as part of the D&M Plan were exceeded, and actions taken in response"

There were no instances where the standards in the D&M Plan were exceeded when the Plan was applicable.

"(3)" Tests for all ash disposed or from the facility"

Ash residues from the facility are currently being transported to the Putnam Ash Landfill in Putnam, CT, the Wheelabrator Shrewsbury Landfill in Shrewsbury, MA., or Wheelabrator Saugus Landfill in Saugus, MA.

Wheelabrator Lisbon Inc. is in compliance with all CT DEEP ash testing requirements. Annual ash testing was completed on August 26, 2025 and has shown that the ash continues to be RCRA non-hazardous waste.

"(4) Number of days MSW and ash have been stored on site"

There is a constant flow of MSW into, and ash residues out of, the facility. However, we can only move such material during "business hours" (5:00AM to 7:00 PM, Monday through Friday, and 5:00AM to 2:00PM on Saturday in accordance with our CT DEEP Solid Waste Permit to Operate). Therefore, we need to store sufficient MSW to continue "to operate the facility during nighttime hours and weekends". We also need to store the ash residue on the site until the next business day due to the facility's twenty-four hour operation. The ash residues will be stored on site due to storage necessary for the weekend and/or holidays as a result of landfill operating hours.

"(5) the cost and effectiveness of the on-site recycling center"

A recycling drop-off center has not been constructed at the facility. (Please refer to the *Settlement Agreement*, dated May 23, 1995, and the related page from the *Host Community Agreement*, dated August 25, 1989, in "Attachment C" of the *Final Quarterly Construction Report and inaugural Quarterly Operation Report for the 4th Quarter, 1995*, submitted to you on January 10, 1996). Facility Management is currently working cooperatively with representatives from the Town of Lisbon regarding this matter.

If you have any questions or concerns with this report, please contact John Horgan at 860-885-3512 x212.

Sincerely,

John Horgan
Plant Manager
