Re: Connecticut Siting Council Review of the Ten-Year Forecast of Connecticut Electric Loads and Resources - FuelCell Energy, Inc.'s 2026 Annual Report

Dear Ms. Bachman:

On March 2, 2026, FuelCell Energy, Inc ("FCE") filed its 2026 Annual Report of FCE's ten-year forecast on loads and resources with the Connecticut Siting Council ("Council"). Since the filing, FCE has identified an error in its filing. Specifically, the list of existing generating facilities in service incorrectly included the TRS Fuel Cell, LLC 3.7 megawatt combined heat and power fuel cell facility at 64 Triangle Street in Danbury. That project was approved by the Council in Petition No. 1248. That facility is no longer generating electricity and should not have been included in the list of "in service" facilities. A revised list is attached. FCE apologizes for this oversight.

An original and fifteen (15) copies of this filing will be mailed to the Council.

Should the Council have any questions regarding this filing, please do not hesitate to contact me.

Very truly yours,

Bruce L. McDermott

3. **A list of existing generating facilities in service (as of May 28, 2026).**

FuelCell Energy, Inc. operates an upgraded/modified fuel cell test facility located at 539 Technology Park Drive. However, the test facility might not generate 1 MW or more of electric power on an annual basis. (Petition Nos. 923/923A)

Dominion Bridgeport Fuel Cell, LLC operates a 14 MW fuel cell electric facility located on State Street, Bridgeport, Connecticut. (Petition No. 957)

New Britain Renewable Energy, LLC operates a 1.4 MW fuel cell combined heat and power generating facility located at near the existing Central Connecticut State University Energy Center between East Street, Wells Street and Paul Manafort Drive, New Britain, Connecticut. (Petition No. 1005)

UB Fuel Cell, LLC operates a 1.4 MW fuel cell combined heat and power facility located on the campus of the University of Bridgeport at 446 University Avenue, Bridgeport, Connecticut. (Petition No. 1109)

FuelCell Energy, Inc. operates a 1.4 MW fuel cell combined heat and power electric generating facility located at Pepperidge Farm, Inc. at 1414 Blue Hills Avenue, Bloomfield, Connecticut. (Petition No. 1202)

Groton Fuel Cell 1, LLC operates a 5.6 megawatt fuel cell combined heat and power electric generating facility located at the Pfizer Groton campus at 445 Eastern Point Road, Groton, Connecticut. (Petition No. 1214)

Broad Street Fuel Cell, LLC operates a 1.4 MW customer-side combined heat and power fuel cell facility located adjacent to and south of the Ferris Athletic Center at Trinity College at 300 Summit Street, Hartford, Connecticut. (Petition No. 1317)

Derby Fuel Cell, LLC operates a 14.0 MW fuel cell facility and associated equipment located at 200 Roosevelt Drive, Derby, Connecticut. (Petition No. 1372)

SCEF1 Fuel Cell, LLC operates a 2.8 MW fuel cell facility and associated electrical interconnection located at 49 Coon Hollow Road, Derby, Connecticut. (Petition No. 1506)
