Re: Verogy Holdings, LLC Annual Report for the Connecticut Siting Council Review of Ten-Year Forecast of Connecticut Electric Loads and Resources

Dear Attorney Bachman:

Pursuant to the provisions of Section 16-50r of the Connecticut General Statues, Verogy Holdings, LLC submits the following report of its ten-year forecast of loads and resources. Verogy Holdings, LLC, through its subsidiaries, is the owner and operator of the following solar assets:

- North Haven Solar One (Petition No. 1541)
- Enfield Solar One (Petition No. 1508)
- FedEx – Middletown (Petition No. 1550)

If you have any questions concerning this letter or require any additional information, please contact me (Brian Smith) via email at bsmith@verogy.com, and if you could CC: O&M@verogy.com as well, that would be appreciated.

Sincerely,

Brian Smith
Manager

Verogy Holdings, LLC 2026 Annual Report for the Connecticut Siting Council
Review of Ten-Year Forecast of Connecticut Electric Loads and Resources

Pursuant to the provisions of Section 16-50r of the Connecticut General Statues, Verogy Holdings, LLC submits the following report of its ten-year forecast of loads and resources.

(1) A tabulation of estimated peak loads, resources, and margins for each year.

Enfield Solar One sells electricity to Eversource Energy under a Shared Clean Energy Facility (SCEF) tariff agreement and does not estimate peak loads, resources, and margins.

North Haven Solar One is a wholesale power producer and sells electricity under the SG2 tariff in United Illuminating territory and does not estimate peak loads, resources, and margins.

FedEx – Middletown is a behind-the-meter generator servicing the load of the site facility and does not estimate peak loads, resources, and margins.

(2) Data on energy use and peak loads for the five preceding calendar years.

Enfield Solar One received permission to operate on May 15, 2024. Electricity production since receiving permission to operate is in the table below.

North Haven Solar One received permission to operate on March 8, 2024. Electricity production since receiving permission to operate is in the table below.

Solar Facility	Commercial Operation Date	2024 Energy Production (kWh)	2025 Energy Production (kWh)	2026 Energy Production (kWh)
Enfield Solar One	May 15, 2024	5,483,410 (from COD)	8,253,787	6,860,378 (through Sept. 2026)
North Haven Solar One	March 8, 2024	2,513,843 (from COD)	2,842,829	2,223,970 (through Sept. 2026)
FedEx - Middletown	October 31, 2024	151,388 (from COD)	1,945,974	1,891,513 (through Sept. 2026)

(3) A list of existing generating facilities in service.

Solar Facility	Nameplate Capacity (MWac)
Enfield Solar One	4.00
North Haven Solar One	1.625
FedEx - Middletown	1.500

(4) A list of scheduled generating facilities for which property has been acquired, for which certificates have been issued and for which certificate applications have been filed.

Windsor Locks Solar One – Petition No. 1708
North Haven Solar Two – Petition No. 1710

(5) A list of planned generating units at plant locations for which property has been acquired, or at plant locations not yet acquired, that will be needed to provide estimated additional electrical requirements, and the location of such facilities.

Not Applicable.

(6) A list of planned transmission lines on which proposed route reviews are being undertaken or for which certificate applications have already been filed.

Not Applicable.

(7) A description of the steps taken to upgrade existing facilities and to eliminate overhead transmission and distribution lines in accordance with the regulations and standards described in section 16-50t.

None.

(8) For each private power producer having a facility generating more than one megawatt and from whom the person furnishing the report has purchased electricity during the preceding calendar year, a statement including the name, location, size and type of generating facility, the fuel consumed by the facility and the by-product of the consumption.

Facility Name	Location	Size	Type of Facility	Fuel Consumed	By-Product of Consumption
Enfield Solar One	110 North Street, Enfield, CT	4.00 MWac	Solar PV	None	None
North Haven Solar One	122 Mill Road, North Haven, CT	1.625 MWac	Solar PV	None	None
FedEx - Middletown	1000 Middle Street, Middletown, CT	1.500 MWac	Solar PV	None	None
