## **Content Note**

The original volume #18 of the New London County, Superior Court divorce judgments, which would cover primarily the years 1946-1947, was not transferred to the Connecticut State Archives along with the other divorce judgment volumes.

This reconstructed index to divorces was created by Connecticut State Library staff from the original New London County, Superior Court civil case files that are stored in the Connecticut State Archives. Twelve boxes were searched (S-87 through S-99) with an approximate date range of 1942 to 1947 to create this index of divorces. All court divorce case files found being recorded in volume #18 were identified and placed in this index.

Please note that this index may not be complete, as legal proceedings sometimes took many years to reach a conclusion or final judgement.

## Arrangement

This reconstructed divorce index is divided into two parts as follows:

Part I, Husband Index: Arranged first alphabetically by the surname and then by given name and middle initial/name of the husband.

Part II, Wife Index: Arranged first alphabetically by the maiden name/former name and then by given name and middle initial/name of the wife. The former name of the wife is not necessarily the maiden name as oftentimes the name provided on the record is known to be a surname from a previous marriage. Those entries without the wife's former name were excluded from this section of the divorce index.

Other information provided in this index also includes:

- Marriage date if provided
- Divorce year and other action (dismissed or annulled) if indicated
- Box number where file found
- Case number of divorce action
