Mission

To protect the safety of Connecticut citizens and certain individuals by ordering appropriate treatment, confinement or conditional release of persons accused of crimes but found not guilty by reason of mental disease or mental defect.

Statutory Responsibility

The Psychiatric Security Review Board (the “Board”), determines the level of confinement and treatment, for those individuals found not guilty of a crime by reason of mental disease or defect, necessary to protect society. Acquittees are committed to the Board by the Superior Court. The Board orders confinement to the Department of Mental Health and Addiction Services or to the Department of Developmental Services and orders the appropriate level of supervision and treatment. The Board also determines the conditions under which an acquittee may be released into the community. The Board orders confinement in a maximum-security facility, approves temporary leave from a hospital setting, grants conditional release into the community and provides recommendations to the Superior Court in the matters of discharge from the Board and continued commitment to the Board’s jurisdiction.

Public Service

The general public is the beneficiary of the agency's work. During fiscal year 2021-2022, there were 5 superior court dispositions that resulted in commitments to the Board; the commitment term for 1 individual expired, 1 individual was discharged by the court prior to the end of their commitment, and 1 individual died, while under the Board’s jurisdiction.

As of July 12, 2022, 146 individuals remained under the Board’s jurisdiction. Of the 146 individuals, 19 were ordered confined in maximum-security at the Whiting Forensic Hospital; 86 individuals were ordered confined in a non-maximum-security setting at the Whiting Forensic Hospital; 26 of the individuals in non-maximum security have temporary leave privileges; and 38 individuals held Conditional Release status. In addition, 1 acquittee remained in federal

custody serving a concurrent sentence with his Board commitment, 1 acquittee was confined to the Connecticut Department of Correction on sentenced status and 1 acquittee remained on AWOL status since June 1991.

During this fiscal year, the Board held 121 hearings and 32 Board Conferences, resulting in 153 Memoranda of Decision and 17 Reports to Court regarding the matters of Continued Commitment or Discharge from the jurisdiction of the Board.

There were no arrests of acquittees on Conditional Release status while under the Board's jurisdiction during this fiscal year.

Strategic Planning/Business Planning

The Board's strategic plan includes:

- Collaboration with the Office of Attorney General, relevant state agencies and the Board's Legislative Liaison to implement modifications and additions to the Board's statutes, as needed.
- Continued partnership with other state agencies to ensure collaboration and communication among the various stakeholders
- Cross-training of agency employees to effectively manage continuity of operations
- Collaborative planning with the Department of Mental Health & Addiction Services and the Department of Developmental Services to address service systems issues and best practice protocols
- Maintain outreach to community agencies and the public regarding the Board's mission of public safety

- Collaborative planning with State Judicial Branch to address system issues and improve processes
- Condense paper files and/or send them to storage to create room for new documentation
- Examine PSRB Mission Statement and Values to ensure that it considers the well-being of acquittees
- Explore the utility of an alternative data management platform, other than ACCESS with the support of IT
- Continue benchmarking with like Agencies to ensure best practices as compared to national standards
- Fill vacant seat on Board, exploring opportunities to diversify the Board
