### Important Notice Of Changes

#### DAS Selection And Bidding Manual July 07, 2007

The DAS "Selection and Bidding Manual" dated July 07, 2007 has been recently posted on the CT DAS/DCS Website and replaces the DAS "Selection and Bidding Manual" dated December 22, 2005. The Selection and Bidding Manual has been revised and expanded and now includes:

1. **Revisions to Section 2, "Qualifications Based Selection (QBS) For Major Project Consultant Contract (Formal), (For Architectural/Engineering & Professional Consultant Services)".**
2. **A New "Section 3, Qualifications Based Selection (QBS) For Design/Build Screening, (For Design/Build Screening For Competitive Sealed Proposal Selection)".**
3. **A New "Section 6, Competitive Sealed Proposal Selection (For Design/Build (D/B) Best Value Based Selection).**
4. There have been several noteworthy changes. The significant changes are:
  - 4.1 The Manual has been expanded to include new QBS Design/Build Procedures for Shortlisting Design/Builder Teams of Contractors and Design Professionals. It also includes a brief description of the Competitive Sealed Proposal Selection Procedures For Design/Build (D/B) Best Value Based Selection that follows the QBS Design/Build Screening.
  - 4.2 The Manual now uses new terminology;
    - 4.2.1 **"Formal Qualification Based Selection"** has been renamed **"Qualifications Based Selection (QBS) For Major Project Consultant Contract, (For Architectural/Engineering & Professional Consultant Services)".** This new terminology has been used throughout Section 2 of the Manual.
    - 4.2.2 **"On-Call Qualification Based Selection"** has been renamed **"Qualifications Based Selection (QBS) For Task Order Contracts, (For Architectural/Engineering & Professional Consultant Services)".**
    - 4.2.3 **"Informal Qualification Based Selection"** has been renamed **"Qualifications Based Selection (QBS) For Special Contracts, (For Architectural/Engineering & Professional Consulting Services)".**
  - 4.3 The revised **Section 2, "Qualifications Based Selection (QBS) For Major Project Consultant Contract** includes a revised procedure for rating a Consultant's past performance. A Consultant's past performance evaluations on DAS Contracts still remains the primary rating factor. However, other considerations are also used to evaluate and rate a Consultant's past performance.
  - 4.4 The Consultants **"Qualifications Based Selection (QBS) For Major Project Consultant Contract (Formal) QBS Submittal Booklet Requirements"** has not been revised or edited. Consulting Firms must still follow these requirements.

The manual has been fully edited with minor changes made through out. Therefore, it is strongly recommended that any prior copies of this manual and the submittal requirements be discarded. **All new submittals should be based solely on the current edition of this manual.**

## **General Requirements**

## 1.0 General Requirements

### 1.1 Overview

The State of Connecticut Department of Administrative Services (DAS), Construction Services (CS) has developed the selection and bidding procedures in this Manual to aid DAS and the public in understanding how contracts are awarded on an impartial, equitable, and rational basis. The procedures are intended to insure the integrity of all selection and bidding procedures and to define the duties and responsibilities of the various participants. In some instances, the procedures may be stricter than the legislation requires. **Deliberate manipulation of contracts to avoid compliance or deviation from these procedures is not allowed.**

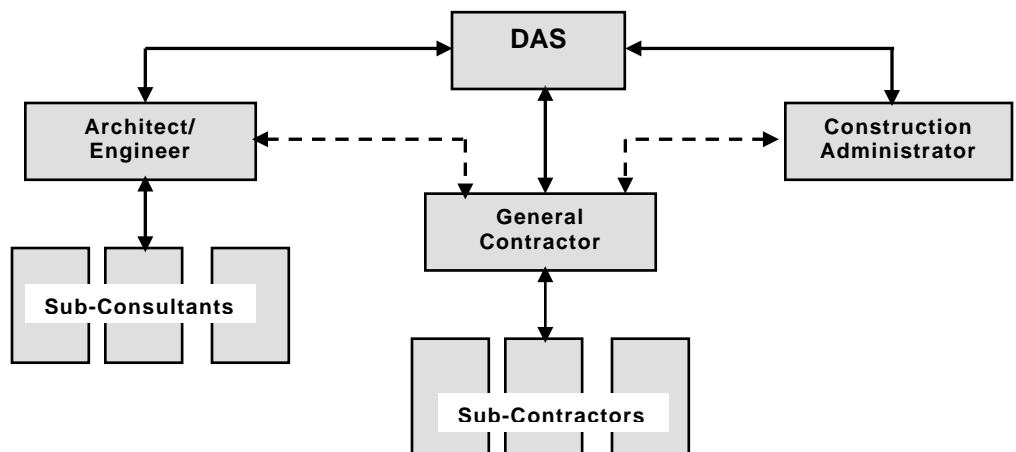

### 1.2 Project Delivery System Options

At the Project Development Stage, DAS and the User Agency jointly develop the scope and budget, and determine the appropriate project delivery system for a specific project. The choice of the appropriate project delivery system is of prime importance because it enables DAS to achieve project goals such as innovation, quality, schedule performance, cost conformance, and sustainability. The following are the DAS project delivery systems options available for the construction of all infrastructure projects:

#### 1.2.1 Design/Bid/Build:

This is the traditional option that is utilized to deliver approximately 90% of all DAS projects. Architects/engineers and professional consulting contract services are selected through the applicable **Qualification Based Selection (QBS) Procedures For Major Project Consultant Contracts** (Formal), **Task Order Consultant Contracts** (On-Call) or **Small Project Consultant Contracts** (Informal) and a contract is awarded a consultant to develop design and construction documents that meet the goals, scope, and budget of DAS. A Construction Administrator can be selected through the same procedures to represent the DAS during Construction.

- Based on the completed construction documents, a general contractor is selected through the applicable **Competitive Sealed Proposal Procedures For Major Construction Contracts** (Formal) or **Small Construction Contracts** (Informal) where the responsible general contractor with the lowest qualified bid (cost) is awarded the contract to build the project.

**1.2.2 Design/Build (D/B):**

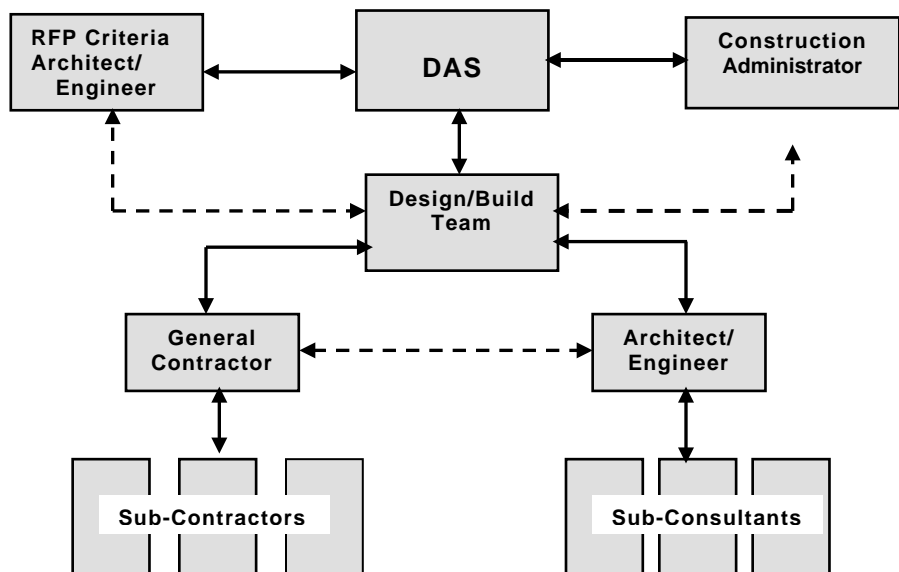

1.2.2.1 This option is used to deliver less than approximately 5% of DAS projects. It can only be utilized when it meets the following feasibility criteria and the DAS Commissioner designates it a **Total Cost Basis Project**. The following are the six (6) types of feasibility criteria for a D/B Project:

D/B Project Best Value Based Selection Feasibility Criteria	
1.0	The project has a clearly defined scope, design basis, and performance requirements;
2.0	The project is free from complicated issues such as utility conflicts, right-of-way acquisition, hazardous materials, wetland and environmental concerns, or other such issues;
3.0	The project has room for innovation in the design and construction;
4.0	The project is not an emergency project or a project that has overly tight time constraints;
5.0	The project involves a significant design effort and the potential to save cost and time in the design.
6.0	The project's "Qualitative Criteria" and "Total Cost Criteria" rating scores are published in the Request For Proposal RFP.

1.2.2.2 When the DAS Commissioner designates a **Total Cost Basis Project** it must utilize the following Screening and Selection Procedures.

**Qualification Based Selected (QBS) Screening And Competitive Sealed Proposal Selection:**

- Design/Build Teams (General Contractor and Professional Service Consultant Architects/Engineers) compete in a **QBS Design/Build Screening** and a **Competitive Sealed Proposal Selection** based on DAS's RFP.
- The final design/build team is selected through the **Competitive Sealed Proposal Selection** procedure. Based upon the selection procedure utilized a Design/Builder will be selected on their "**Best Value**" Proposal and contracted to design and build the Facility.

### 1.3 Selection And Bidding Procedures

Within the various project delivery systems are several different types of selection and bidding procedures that can be utilized for soliciting and evaluating Qualifications, Proposals, and Bids for procurement of services and construction of the projects.

The following are the Selection and Bidding Procedures available for use for the award of all DAS professional service and construction contracts:

#### 1.3.1 QBS For Major Project Consultant Contracts (Formal) - CGS §4b-55 through 4b-61:

##### For Architectural/Engineering & Professional Consultant Services

- The construction costs in connection with such program are estimated to exceed five hundred thousand dollars; or, in the case of a constituent unit of the state system of higher education, other than The University of Connecticut, the construction costs in connection with such program are estimated to exceed two million dollars.

#### 1.3.2 Competitive Sealed Proposal Selection For Design/Build - CGS § 4b-24(4):

##### For Competitive Sealed Proposal Selection

- Utilized for projects designated by the Commissioner to be accomplished on a “**Total Cost Basis**” with a single contract with a private developer which may include such project elements as site acquisition, architectural design, and construction.

#### 1.3.3 QBS For Task Order Consultant Contracts (On-Call):

##### For Architectural/Engineering & Professional Consultant Services

- **Constituent Unit of the State System of Higher Education:** Anticipated Consultant services fee is \$300,000 or less

##### For Lowest Responsible And Qualified Bidder Determination

- Anticipated construction is estimated to cost more than \$500,000.

#### 1.3.5 Competitive Sealed Bidding for Small Project Construction Contracts (Informal) - CGS §4b-91 through 4b-95:

##### For Lowest Responsible And Qualified Bidder Determination

- Anticipated construction is estimated to cost \$500,000 or less.

### 1.3.7 Emergency Condition - CGS §4b-52(c):

#### For Specific, Designated Projects
