MEMORANDUM

Issued: 9-27-13
To: DCF Therapeutic Group Home/Pass Group Home/Safe Homes/STARs/Maternity Home Providers
From: Linda Dixon
Subject: CT Medical Assistance Program Provider Enrollment Requirement

Dear Congregate Care Providers,

The Medicaid program change we described in a previous memo was implemented by the Department of Social Services on 10/1/13.

As you know, all physicians or other providers who prescribe medications, order tests, or refer to additional providers must be enrolled in the Connecticut Medicaid system. If these providers do not enroll, Medicaid will not pay for the prescriptions or services provided.

At this time, we are writing to inform you that the Department of Social Services (DSS) will now pay for a 30 day supply of medication instead of the 14 day supply indicated in our first letter. DSS made this change to better meet the immediate medical needs of Medicaid clients and to allow providers more time to enroll in the Medicaid program.

What will happen if you have a problem filling a child's medication?

- If you experience any difficulty getting prescriptions, you will be given a 14-day supply of the medication.
If the medication was only partially filled with a 14 day supply, immediately contact the child's DCF Social Worker.
\* Cost of the medication (from the pharmacist)
\* Name of the medication and pharmacy
\* Pharmacy name/phone #
\* Prescribing doctor's name
At the end of the 14 days, go back to the pharmacy to receive the remaining supply of medication:

Joette Katz  
Commissioner

## DEPARTMENT of CHILDREN and FAMILIES

If you encounter any other problems, contact your DCF Social Worker. If you can not reach the Social Worker, call the Health Advocate covering the child's DCF office (See contact list).
