Dear Relative Guardian and Adoptive Parent,

The Medicaid program change we informed you about last month has been implemented.

In our first letter, we informed you that all physicians or other providers who prescribe medications, order tests, or refer to additional providers must be enrolled in the Connecticut Medicaid system (CMAP). If these providers do not enroll, Medicaid will not fully pay for prescriptions or services provided.

At this time, we are writing to inform you that the Department of Social Services (DSS) will now pay for a 30 day supply of medication instead of just the 14 day supply indicated in our first letter. DSS made this change to better meet the need of Medicaid clients and allow providers more time to enroll in the Medicaid program.

Clients will receive the same initial 14 day supply of their medication and will need to return to the pharmacy to get: a) the remaining 16 day supply of medication if the prescription was written for a 30 day supply or b) an additional 30 day supply of medication if the prescription was written for a 60 or 90 day supply.

Reminder:

If you experience any difficulty getting prescriptions or receiving services after October 1, 2013, please contact one of the resources below:

- Community Health Network (CHN) - 800-859-9889: For services related to medical care
