

DCF COVID-19 Daily Update Supporting Children, Families and Staff

April 1, 2020

THANK YOU TO OUR DCF TEAM

To enable Department staff to telework and support CT's effort to contain the spread of COVID-19, the Academy for Workforce Development partnered with IT and CT- Kind to provide over 460 tablets this past week alone to staff from disciplines across the agency -- part of an overall deployment of 1,800 tablets agency wide. The final push to deploy the tablets ensures that over half our workforce is fully mobile during this challenging time.

The endeavor is a demonstration of pure dedication, commitment, drive and partnership between the two divisions.

Thanks to our exceptional leaders:

- Chief Information Officer Valter Borges
- Academy for Workforce Development Director Tracy Davis
- Academy for Workforce Development Assistant Director Tim Monahan
