## FOOD ASSISTANCE FOR OUR FAMILIES

Some families face increasing challenges accessing food during this pandemic. When you come across families in this situation, you can connect them to information they need to reach out to organizations in their community that can help. United Way 211 offers this link to help families: <https://uwc.211ct.org/categorysearch/food/>

Another great resource to help families are CT Food Pantries, which are available to provide food to citizens in need. Please refer to <https://www.foodpantries.org/st/connecticut> for the location nearest the family.
