

Please join us in taking this opportunity to celebrate National Nurse's Day---

DCF has an amazing group of nurses!

Each year at this time, people often search for inspirational quotes that celebrate the profession and they always seem to come back to *Florence Nightingale*, often referred to as the founder of modern-day nursing:

"The craving for 'the return of the day', which the sick so constantly evince, is generally nothing but the desire for light. —

Let us never consider ourselves finished nurses.... we must be learning all our lives.

Every nurse ought to be careful to wash her hands very frequently during the day. If her face, too, so much the better."
Florence Nightingale

This last few months has shown us that some quotes stand the test of time and can be applied even today - including those above. We too are craving the "return of the day" for ourselves as well as our families when we can see the light and resume normal activities. We are learning new things every day and the simple suggestion of "washing our hands" that is so clear to us, has become **vital** to the health of our family, friends and community!

- ✚ Whether you are working as an LPN, RN, APRN....
- ✚ Whether you work in a hospital, facility or office....
- ✚ Whether you teach, consult, manage or *work from home*...

YOU are all worthy of a celebration not just on May 6th, 2020 but **every day!**

You come to work each day (*or to your kitchen table or living room*) and make your role overseeing the health and medical care of the children involved with DCF your **highest** priority.

We want to **Thank You** for your commitment, flexibility, sense of humor and unbelievable expertise!

We could not ask for a better group of professionals to weather this storm!

Often your work is in the background ---- Your front and center Pandemic response has been **superb**. Spotlighting that DCF Nurses deserve our sincere appreciation so... **THANK YOU THANK YOU THANK YOU!!!**
