Family Care Plans address the health and substance use disorder treatment needs of the infant and affected family or caregiver. Consistent with good casework practice, the plan should be developed alongside of the mom/birthing person with input from the other parent or other caregivers, as well as any collaborating professional partners involved in supporting the infant and family. ***A Family Care Plan and subsequent CAPTA Notification is for birthing persons who are prescribed medications or using non-prescribed substances during their pregnancy that may result in withdrawal symptoms in the newborn.***

Check all substances used by mom/birthing person prenatally:

Methadone	<input type="checkbox"/>	Benzodiazepines	<input type="checkbox"/>
