## IPV – FAIR

### Program Overview

IPV-FAIR Model is a comprehensive response to families impacted by intimate partner violence (IPV). The model is a combination of home based and clinic-based services. It is strength and ecologically focused with safety being the highest priority while assessing and addressing the needs of each family member. IPV-FAIR will engage all members of the family. The model will offer/refer individual, group, family, and/or support interventions for the family based on assessed needs and will provide services/linkages for the children affected by IPV to adequately address trauma.

### Target Population

Families involved with DCF Child Protective Services who are impacted by IPV and have caretaking responsibilities for a child or children. It addresses families where the children remain in the home or are placed out of the home with a goal of reunification.

### Length of Service

FAIR is a 4 – 6 month intervention engaging all family members.

### Program Coverage and Providers

IPV FAIR is available to families statewide through geographically dispersed teams at different agencies. Each team covers a region of surrounding towns. Choose the team closest to your location.
