Location:	Mancheter, manchester, CT United States		
Report Status:	Released	Investigative Status:	
CAD Call Type:		CAD Number:	P202008767 Unit: Xtra1

**Narrative : ALEXANDER, MATTHEW (Source : Supplement - 6)**

On 4/2/20 I was dispatched to the town of Manchester for a CREST callout. The page stated that there was an armed barricaded subject at 181 Oak St. Upon arrival I was tasked with being part of the immediate action team, which consisted of the first officers on a scene. I saw Sgt. Desso of the Manchester Police Department at the staging area and spoke to him briefly about the situation. Sgt. Desso stated that Parole went to the home to take Jose Soto into DOC custody. Sgt. Desso stated that while in the house, DOC heard a male's voice state that he would start shooting if they did not leave. Parole backed out of the home and CREST was called in to assist. Sgt. Desso stated that Soto is believed to be the sole occupant of 181 Oak St at the time. I got dressed and entered the back of the bearcat to go to the suspect's house. My current assignment on the team is a breacher.

Upon arrival in the bearcat, it was nosed up close to the front door of 181 Oak St. I exited the bearcat and took up a security position on the driver side of the bearcat. I could see the front door of the home and what appeared to be a back door as well. On Crest the position of the bearcat was designated as the 1,2 corner. Commander Buonanducci came over the radio and gave a brief update, the only new information was that negotiators were currently on the phone with Soto and he stated several times he wanted the police to shoot him. Soto told negotiators that he would come out and draw on the police. A Manchester police officer that was in the back of the bearcat stated that Soto was on parole for Robbery with a firearm and is the primary suspect of other robberies throughout Connecticut.

At approximately 2113hrs, Commander Buonanducci stated over the radio that Soto was given instructions to come outside. Commander Buonanducci stated that Soto was saying sorry over and over again and was given instructions to keep his hands up. Soto apologizing made me believe that he was not going to surrender but to actually force a use of force situation. I activated the light on my rifle and pointed it at the front door. Due to the angle I could see into the home. There was a storm door that was closed. I saw Soto come to the door and stand there for a few seconds. I could see Soto's face which was grimacing and appeared angry/upset, his hands were down by his side. I yelled to other members of the team that Soto was at the front door. I did not hear anyone trying to make contact because I was speaking with Sgt. Krom who was to my immediate left. The storm door then flew open and Soto charged out. Soto's hands were at first down by the side and after taking approximately 2 steps out the door he raised his hands up and together as if he was bringing a handgun up on target while moving towards the team members. Due to Soto's threats, instructions on how to come out (hands up) and shootings stance when he came out I believed he was raising a handgun on the team of CREST Operators that were on the passenger side of the bearcat. I fired my rifle at Soto, who went down on the front steps. Sgt. Monge, who was the team leader of the bearcat team stated that a Manchester K9 would be brought up to pull Soto down from the porch area. CREST medics and operators brought Soto to the rear of the Bearcat while I made entry to the home with another group of CREST operators to conduct a protective sweep of the home. After the protective sweep was completed, I was directed by team leadership to stay in the bearcat and was transferred off site, ultimately to Manchester Police Headquarters where my rifle, uniform and armor were seized as evidence and turned over to the Connecticut State Police Major Crimes Unit.
