# IP Coding Project

FY2020 and FY2024 Data

## HISTORY OF THE IP

- The planning process has been around since the department began.
- IP was updated in 2018.
- DDS decided to look for some outcomes in the word version of the IP.
- In 2020 a process was established to review IPs and data was assessed for 400 IPs.
- In 2024 the process was updated adding new data points of interest and assessed 681 IPs.

# CHANGES TO THE IP CODING PROCESS

## 2020 Process

Evaluated following data points:

- Voice heard

- To what extent was the voice heard

- Social Support

- Goals

These data points were developed with Case Manager Supervisors and the Director of Family Support Strategies and Advocacy

Inter-Rater Reliability was established to hold qualitative research standards.

## 2024 Process

New data points were added:

- Steps to a good life

- Satisfaction with Res, Day/Emp, Heath

Qualitative coding was established, and Inter-Rater Reliability was tested for new coders.

Updated sampling methodology.
