

2016

Annual Report

Department of Economic and
Community Development

DECD IN ACTION

DECD measures success in terms of influence and impact. Here are a few key examples of the agency's impact under Governor Dannel P. Malloy through fiscal year 2016.

2,036 companies are being assisted,
with 18,246 jobs to be created and
85,229 jobs retained

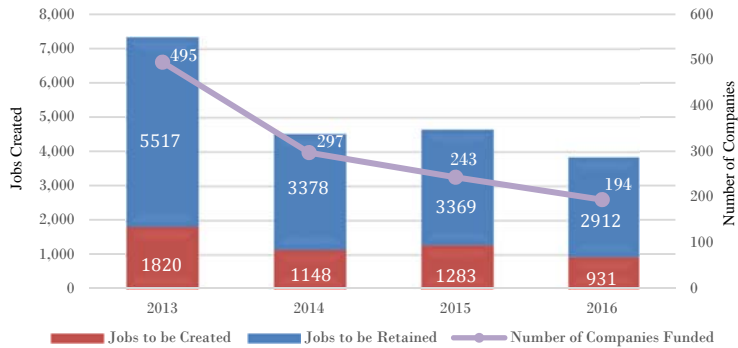

\$3.1 billion has been leveraged from the
private- sector to grow jobs and expand the
economy through these programs

107% of expected jobs created and
retained

DECD

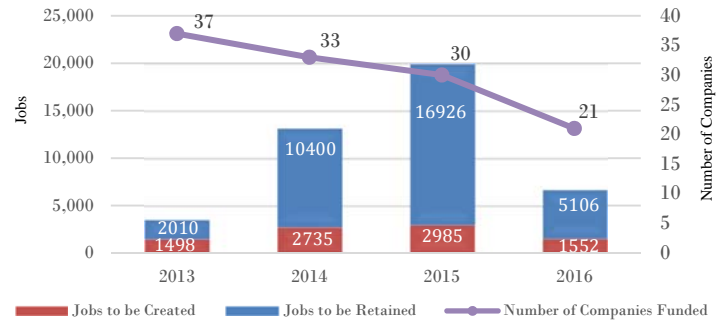

By the Numbers

Small Business Express (EXP) Program Jobs

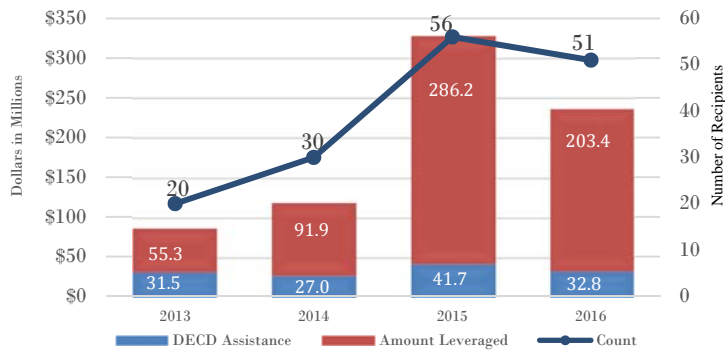

Demand for EXP funding is declining as capital becomes more available in the marketplace.

Manufacturing Assistance Act (MAA) and Urban and Industrial Sites Reinvestment Tax Credit Program Jobs

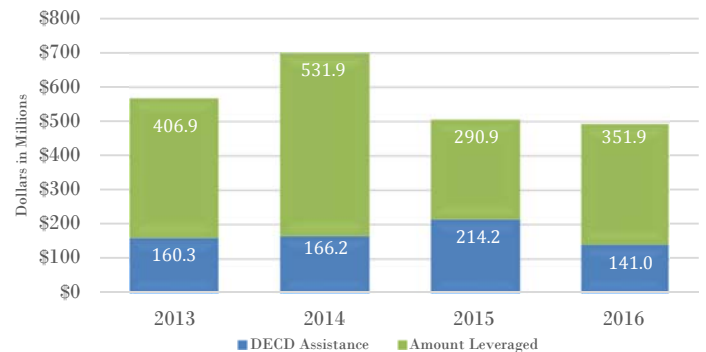

Thousands of jobs have been retained and created by larger businesses in targeted segments including manufacturing, bioscience, finance and technology.

Brownfields Funding / Leverage

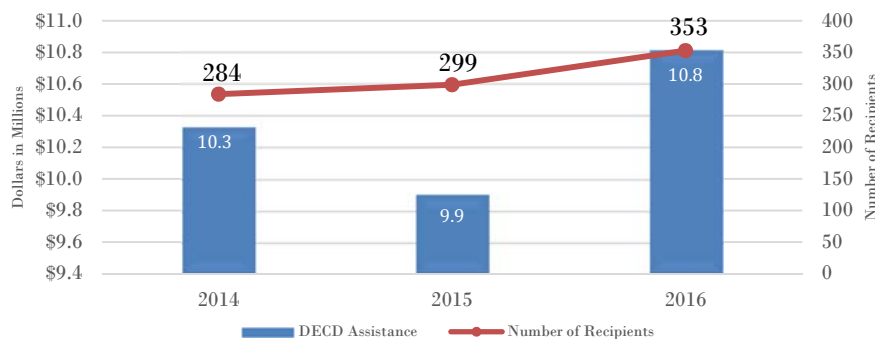

\$154 million in brownfield funding has helped put over 200 sites back into useful economic activity

EXP and MAA / Private Sector Leverage

For every dollar of DECD business assistance funding, \$3.21 dollars are leveraged from private sources

Arts Funding

Every year, small grants support hundreds of artists, public art installation and operations for cultural organizations throughout the state

Above, DECD Commissioner Smith speaks before the building dedication and ribbon-cutting, left, of Alexion's new global headquarters at 100 College Street in New Haven. With \$51 million in state assistance through the First Five program, Alexion moved 350 employees from Cheshire to New Haven and plans to add as many as 200-300 new jobs.

Last year in Connecticut was a year of new business opportunities. And many of these opportunities were facilitated by the Department of Economic and Community Development (DECD), where new business programs were taking root and existing programs were becoming more established

and reaping bigger rewards. It was a year of high profile business expansions, both large and small. Investments were creating new opportunities in brownfield remediation and redevelopment. And DECD's sustained support ensured tourism, along with arts, culture and historic preservation, continued to be a significant contributor to the state's economy.

The good news started when in July Synchrony Financial, a premier consumer financial services company headquartered in Stamford, became the 13th company in Governor Malloy's signature economic development tool, the First Five Plus program. Synchrony announced it planned to expand its Connecticut operations with the creation of 200 to 400 new, full-time jobs in the state while retaining 310 jobs.

Shortly thereafter, MC Credit Partners, an institutional manager of middle market direct lending funds, announced that it planned to relocate from New York City to Stamford. Connecticut already benefits from the presence of many financial services organizations, including private equity firms, hedge funds, venture capital firms, and several national and international banks, but efforts to recruit businesses like MC Credit Partners and others is why some project the finance industry to grow as much as 30% by 2024 in the state.

Governor Malloy toured Flanagan Industries over the summer to see the company's new manufacturing operations in Glastonbury. To support the company's \$8.5 million expansion project, DECD provided a \$2.5 million loan, a project that retained 88 jobs and will create 20.

Connecticut remains a robust manufacturing center, ranking 5th in the country for business R&D invested per capita and 3rd for workforce productivity. With demand for commercial airplanes skyrocketing, a host of global industry giants that call the state home, and a tightly linked group of supply chain companies, Connecticut should be in position to

grow this important segment of its economy even more.

In the last year, agreements with Serta Simmons Bedding, LLC, the largest mattress manufacturing company in the country, Pietro Rosa TBM, a leading manufacturer of compressor airfoils for gas turbines and complex structural components, and Davis-Standard, LLC, the leading manufacturer of extrusion machinery in the country, will continue to move the needle in Connecticut's favor.

While there are certain industries that the state is targeting for growth, the projects that DECD supports reflect the diversity of the state's economy. In March, the household name Bob's Discount Furniture announced it would expand its Manchester headquarters, retain 326 people, and create 125 jobs within five years — ensuring a home-grown Connecticut company will continue growing right here, creating jobs and making capital investment in our state.

New opportunities aren't limited to Connecticut, or even the United States. In October, Governor Malloy, DECD and the Connecticut

Gov. Dannel Malloy speaks during a news conference announcing new Aer Lingus service between Bradley International Airport and Dublin, Ireland.

Airport Authority jointly announced new, nonstop and daily Aer Lingus service between Bradley International Airport and Dublin, Ireland. The re-establishment of transatlantic service in Connecticut will support the economy, boost tourism, and improve travel to and from our state.

Businesses are choosing to expand in Connecticut, and in large part it's a credit to such a proactive approach to economic

development and the economic toolkit that is being created and cultivated under the Malloy administration.

Governor Malloy and Commissioner Smith in March visited Square 9 Softworks in New Haven to mark the business software company becoming the 1,500th recipient of business assistance through the Small Business Express (EXP) program.

Last March DECD celebrated the 1,500th company to take part in the governor's keystone small business development program, the Small Business Express program, or EXP. Square 9 Softworks, a rapidly growing and leading developer of innovative business software based in New Haven, received a \$300,000 loan and \$100,000 matching grant through EXP to make renovations and purchase equipment. The company committed to retaining 33 current positions and creating 12 jobs.

All told EXP has assisted 1,687 companies — ranging from “mom and pop” stores to advanced manufacturing firms — with \$267 million in loans and grants to retain 18,671 and create 6,795 jobs.

“Connecticut needs to support its businesses, and Small Business Express was one of the first programs we launched to do just that. ... This program has no doubt been an effective tool in supporting those companies that call Connecticut home.”

— Governor Malloy

EXP Activity FY 2016

Businesses assisted	194
Loans	\$23,877,106
Grants	\$11,531,322
Total funding	\$35,408,428
Jobs to be created	931
Jobs to be retained	2,912

Through the Manufacturing Innovation Fund, the state launched a new workforce development initiative in 2015 that supports a combination of on-the-job training and classroom instruction for apprentices in the manufacturing industry. The Manufacturing Innovation Fund Apprenticeship Program provides wage subsidies and tuition reimbursements to eligible companies in order to increase the number of apprentices in Connecticut and ensure a talented, skilled workforce for the future.

So far through the apprenticeship program, DECD has invested nearly \$7.8 million and worked with 48 apprentices, 10 schools, and 18 companies.

Increasing the state opportunities in the innovative hydrogen and fuel cell industries is why DECD attends Hannover Messe each year. The fair is the world's largest trade fair for industrial technology and takes place annually in Hannover, Germany. It features more than 400 American companies and organizations. This year fourteen companies joined DECD and CCAT in the Connecticut booth. Pictured are Commissioner Smith and the team.

When Electric Boat announced an expansion and plans to hire 520 new and replacement workers annually over the next several years as it grows its staff to develop nuclear submarines, the state reacted by creating the Eastern Connecticut Manufacturing Pipeline Initiative. It's a program designed to create a pipeline for customized training programs in manufacturing in the eastern portion of the state, and provide similar assistance to the aerospace industry throughout the state. It's an innovation strategy that earned a \$6 million grant through the U.S. Department of Labor to help develop the program.

In fact, what's happening in Connecticut is drawing even greater interest from Washington D.C.

Connecticut was awarded the Investing in Manufacturing Communities Partnership (IMCP) designation from the Economic Development Administration. This designation will provide the state preference and access to approximately \$1 billion of grant opportunities to support the aerospace and shipbuilding industries.

Also, a partnership between DECD, the University of Connecticut (UConn), and the United Technologies Research Center (UTRC) will take part in a new Flexible Hybrid Electronics Manufacturing Innovation Institute. It's a virtual institute consisting of more than 160 companies, universities, and non-profits that helps manufacturers in the state build up their capabilities in new flexible, hybrid electronic technologies. The Department of Defense awarded \$75 million over five years to help establish and manage the institute.

"These latest investments reaffirm the fact that Connecticut is a leader in brownfield redevelopment, not only in terms of dollars invested but also in the creative new ways we are collaborating with municipalities and other organizations to overcome obstacles to redevelopment."

— Commissioner Catherine Smith

Building off of the state's strong reputation for manufacturing, the Hartford region was designated in 2015 an Investing in Manufacturing Communities Partnership (IMCP) community. On June 3, Assistant Secretary Jay Williams, of the Economic Development Administration, and Jason Miller, White House Deputy Director of the National Economic Council, visited the Connecticut Advanced Manufacturing Communities (AMC) Region to see the region's progress first-hand. The visit included a stop at Pratt & Whitney, an aerospace manufacturer that is part of the AMC IMCP community. At left, Commissioner Smith welcomes everyone to Pratt's East Hartford facility.

Opportunities come in all sorts. Remediating and redeveloping brownfield sites doesn't immediately spring to mind as an economic endeavor. However, DECD's

brownfield activities are surely having an impact on jobs and the resurgence of once thriving business districts.

DECD launched a new initiative in 2016 to spur brownfield clean up and planning activities.

Modelled after a federal program, the Brownfield Area-Wide Revitalization (BAR) Planning Grant Program is a two-year pilot created to help communities develop implementation plans for remediating and redeveloping clusters of brownfield sites.

It encourages municipalities to consider neighborhoods, downtowns, waterfront areas, or other sections with multiple brownfields and develop strategies to assess, clean up, and reuse the sites

for business, housing, and public facilities, generating jobs and revenue, and revitalizing entire neighborhoods at a time.

Six communities that committed to strategically transform certain sections of their communities were awarded more than \$1 million. DECD is excited to partner with

DECD and the Department of Energy and Environmental Protection hosted the first-ever Connecticut Brownfields Conference at the Convention Center in Hartford. The day-long event featured the Governor, Building & Land Technology CEO Carl Kuehner, EPA Region 1 Administrator Curt Spalding, a panel discussion featuring the mayors of Hartford, Shelton, Waterbury, and New Britain, project spotlights and breakout sessions. It was a great success with 400 people in attendance. In addition to engaging stakeholders, the conference was a great way to showcase how the state's brownfield investments are positively impacting communities.

these cities and towns over the next two years to develop specific, actionable plans that will clean up multiple brownfields, leverage private investment and bring jobs and new economic activity to long-dormant corridors throughout the state.

Last fiscal year, in total, DECD awarded more than \$32 million to 51 brownfield projects across the state.

Source: Tourism Tracker, December 2015

Tourism continues to be an important economic driver. A strong 2015 summer tourism season and with more people visiting tourism destinations and spending more dollars, new opportunities were opened in the hospitality and related industries.

Building on that success, DECD's Office of Tourism launched an all new tourism web site that contains information on more than 4,000 places to visit, stay and eat in Connecticut as well as hundreds of inspirational travel stories, vacation deals and event listings all in one place — www.CTvisit.com. The site makes it easier to learn more about the state's major attractions as well as its hidden gems and to plan a getaway in just a few clicks.

The arts can improve quality of life and positively impact the economy. That's why DECD collaborated with The Massachusetts Museum of Contemporary Art (MASS

MoCA) and several other arts organizations to increase opportunities for artist-entrepreneurs last year.

Through the Office of the Arts, DECD partnered with MASS MoCA in North Adams, MA, to expand the organization's Assets for Artists program. It's a two-year pilot

initiative that provides grants and professional development workshops to artists in Connecticut, primarily in under-served rural areas.

Matching grants of \$1,000 or \$2,000 awarded to artists can be used to invest in the expansion of their creative enterprise, along with professional development training, and individualized support with business planning to make the most effective business investments possible.

Arts and historic preservation are closely aligned, and with that in mind, DECD awarded nearly \$2 million in grants to 20 nonprofit organizations that sponsor cultural and historic sites in the state. The Good to Great Program was created to fund improvements that will significantly enhance cultural and historic sites and the way people enjoy them. Funding, which ranges from \$50,000 to \$125,000 grants, can be used for a variety of activities including construction, exhibit designing and installation, planning and marketing.

"Once this work is complete we will have a much better understanding of our historic assets along the coastline. What is particularly exciting is we are providing the public and communities with access to resources they never had before and engaging them in new ways." —

Kristina Newman-Scott, Director of Culture and Connecticut's State Historic Preservation Officer

Governor Malloy and DECD announced several historic preservation initiatives to strengthen the state's commitment to protect historic sites along Connecticut's shoreline. Some of the initiatives included surveys of historic neighborhoods, the development of a mobile app for owners of historic homes, among other steps designed to support the four coastal counties of Fairfield, New Haven, Middlesex, and New London.

These highlights underscore the department's ability to create opportunities for Connecticut's residents and businesses. It's these opportunities that are strengthening the state's economy and improving the quality of life for everyone.

Overall, DECD's strategic investments to support business growth are paying off. Here's a snapshot of fiscal 2016:

- 215 companies are being assisted, with 2,483 jobs to be created and 8,018 jobs retained;
- \$352 million has been leveraged to grow jobs and expand the economy through these programs.

DECD will continue to follow-through on its economic development strategy, monitoring progress and making adjustments along the way. And the department will work to strengthen the public-private partnerships that are putting Connecticut on a growth trajectory for years to come.

For a more detailed analysis of DECD's accomplishments during the year, the following sections take a closer look at DECD's projects, programs and portfolios. And of course, you can also visit www.decd.org for more information.

I. BUSINESS DEVELOPMENT

A. Economic Development Investment Analysis

Table 1 shows the various types of direct financial assistance DECD provides. Financial assistance may be in the form of a loan or grant.

Table 1: Value by Assistance Type				
	FY 2016		Portfolio	
Assistance Type	Assistance Amount	Percentage of Total	Assistance Amount	Percentage of Total
Loans	\$108,469,587	76.9%	\$737,023,175	77.5%
Grants	\$32,581,322	23.1%	\$213,952,619	22.5%
TOTAL	\$141,050,909	100.0%	\$950,975,794	100.0%

Source: DECD, OFR

The Manufacturing Assistance Act (MAA) program is DECD's primary funding source for providing direct financial assistance to businesses. MAA was created by the legislature in 1990 to strengthen the state's economy by providing financial assistance to manufacturers and other businesses for eligible economic development project.

Table 2 provides a breakdown of funding by funding source. The Small Business Express (EXP) program has funded the most companies, whereas the greatest amount of financial assistance has been awarded through the MAA program.

Table 2: Value by Funding Source						
	FY 2016			Portfolio		
Funding Source	No. of Companies	Assistance Amount	Percentage of Total	No. of Companies	Assistance Amount	Percentage of Total
MAA	21	\$105,642,48	74.9%	227	\$719,708,079	75.7%
EXP	194	\$35,408,428	25.1%	1,379	\$211,767,715	22.3%
Other	0	\$0	0%	7	\$19,500,000	2.1%
TOTAL	215	\$141,050,90	100.0%	1,613	\$950,975,794	100.0%
EXP- Lending Partners				261	\$33,340,770	n/a

Source: DECD, OFR

Note: Companies may have received funding under more than one program.

Note: Companies assisted by DECD's six lending partners are not listed in the Business Assistance Portfolio at the end of this report since compliance is managed by the lending partners.

Of the 1,613 companies in DECD's portfolio, 71 have gone out of business. These companies represent 4.4% of companies funded, and 2.8% of dollars invested. When a company goes out of business DECD attempts to collect its collateral and may work through the litigation process to recover its losses.

As a result of DECD's business assistance investments of approximately \$951 million, an additional \$3 billion in leveraged funds were invested in Connecticut's economy. In other words, for every dollar invested by DECD, \$3.21 dollars were invested by other sources into the same business projects.

Table 3: Direct Business Assistance Leverage Ratios			
	Leverage Ratio	Non- DECD Funds	DECD Investment
Active Portfolio	3.21	\$3,054,370,882	\$950,975,794

Source: DECD, OFR

Table 4 shows the industry mix of the DECD business assistance portfolio as a percentage of the total investment. The department's assistance is closely aligned with target business clusters, with forty four percent (45.1%) of DECD business assistance invested manufacturing and thirteen percent (13.4%) in the finance and insurance sector.

Table 4: Active Business Assistance Portfolio Industrial Composition			
NAICS	Industry	Direct Assistance	Percentage of Total
31-33	Manufacturing	\$429,039,945	45.1%

B. Tax Credit Programs

1. Urban and Industrial Sites Reinvestment Tax Credit- C.G.S. 32-9t, as amended

i) Program Description

The Urban and Industrial Sites Reinvestment Tax Credit Program was created under Public Act 00-170 and is designed to drive development and redevelopment activities in eligible communities and to encourage private investment in contaminated properties. Under the program, the state may provide up to \$100 million in tax credits over a ten-year period to support projects that create significant jobs and capital investment in these underserved areas. The program has a total tax credit allocation of \$650 million under the statute. The following is the schedule of tax credit disbursement.

Table 5: Tax Credit Disbursements	
Years	% of Credit
1-3	0%
4-7	10%
8-10	20%

<http://www.ct.gov/ecd/cwp/view.asp?a=3690&q=249842>

2. Film Television and Digital Media Tax Credits

i) Program Description

The Office of Film, Television & Digital Media assists film, television and digital media companies with direct financial assistance programs, including but not limited to loans, grants, and job expansion tax credits structured to incentivize relocation to Connecticut and the growth and development of current Connecticut-based companies.

ii) Program Activity

During FY 2016, an estimated \$349 million was spent in Connecticut by qualified productions. 69 tax credit applications were processed and \$93 million in tax credits were issued to 25 production companies.

Table 8: Film and Digital Media Tax Credit		
Production Company	Company's CT Expenditures	Amount of Tax Credit

3. Insurance Reinvestment Fund Program- C.G.S. 38a-88a(a), as amended

i) Program Description

The intent of this program was to capitalize on the base of local insurance expertise and help people laid off after the massive restructuring of the insurance industry. The program was also intended to encourage small insurance startup and specialty insurance businesses in Connecticut and to create new jobs by investing in Connecticut companies engaged in the insurance business or providing services to insurance companies. Credits can be applied to insurance company, hospital and medical services corporations taxes (Chapter 207 of the Connecticut General Statutes (C.G.S.)); corporate business tax (C.G.S. Chapter 208); income tax (C.G.S. Chapter 229); and surplus lines broker tax (C.G.S. Section 38a-743). The following is the schedule of tax credit disbursement.

Table 9: Tax Credit Disbursements	
Years	% of Credit
1-3	0%
4-7	10%
8-10	20%

Source: DECD, OFR

ii) Approved Fund Managers

There are six approved fund managers:

- Conning & Company;
- Dowling & Partners Securities, LLC;
- Northington Partners;
- Prospector Partners, LLC;
- Schupp & Grochmal, LLC; and
- Stamford Financial Group (was not active in the program)

iii) Program Activity

The following is a summary of the activities under this program, including financing provided to businesses and tax credits issued to the fund managers from inception of the program through June 30, 2016:

Table 10: Insurance Reinvestment Fund Program Activity				
Fund Manager	# of Actual Investments	Actual Investment Amounts	Tax Credits Issued 2015	Total Tax Credits Issued
Conning & Company	7	\$34,714,466	\$0	\$ 5,934,165
Dowling & Partners Securities, LLC	7	\$59,175,000	\$0	\$ 41,805,000
Northington Partners, Inc.	2	\$75,000,000	\$0	\$ 75,000,000
Prospector Partners	2	\$ 2,100,000	\$0	\$ 1,100,000
Schupp & Grochmal, LLC	39	\$90,379,656	\$9,038,496	\$ 40,870,518
TOTAL	57	\$259,269,122	\$9,038,496	\$164,709,683

Source: DECD, OFR

4. Connecticut Insurance Reinvestment Fund Program – C.G.S. 38a-88a(c), as amended

i) Program Description

The new provisions of the program provide a 100% insurance premiums tax credit to insurance companies that invest with approved fund managers who will provide financing to eligible Connecticut business, including 25% committed to green technology businesses and 3% to pre-seed investments. Beginning on or before July 1, 2010 any new or existing fund manager is required to submit an application, business plan, and funding commitments for review and approval by the DECD Commissioner to earn an allocation of tax credits. A total of \$200 million in tax credits has been set aside for this purpose. Insurance companies that make an investment of capital under this new provision shall earn a vested credit against the premium tax under Conn. Gen. Stat. Chapter 207 and sec. 38a-743, starting in the year of investment. The following is the schedule of tax credit disbursement.

Table 11: Tax Credit Disbursements	
Years	% of Credit
1-3	0%

iii) Program Activity

The following is a summary of the financing provided to businesses by the fund managers. This information is based on the December 31, 2015 Annual Report submitted by each fund manager that was approved at the time of the report:

Table 13: Financing Summary		
Fund Manager	Financing Provided	# of Businesses
Advantage Capital Connecticut Partners I, Limited Partnership	\$70,122,964	34
Connecticut Growth Fund, Limited Partnership	\$7,545,000	12
Connecticut Small Business Finance Fund, Limited Partnership	\$6,321,140	11
Enhanced Capital Connecticut Fund I, LLC	\$19,460,000	30
Enhanced Capital Connecticut Fund II, LLC	\$9,000,000	25
Enhanced Capital Connecticut Fund III, LLC	\$31,000,000	36
Enhanced Capital Connecticut Fund IV, LLC	\$5,940,000	10
Stonehenge Capital Fund Connecticut II, LLC	\$15,410,873	10
Stonehenge Capital Fund Connecticut III, LLC	\$6,164,390	10
TOTAL	\$170,964,367	178

Source: DECD, OFR

Note: Some funds have provided financing to the same business.

iv) Tax Credit Status

The following is a summary of the tax credits earned.

Table 14: Insurance Reinvestment Fund Program Activity		
Fund Manager	Tax Credits Issued 2015	Total Tax Credits Issued
Advantage Capital Connecticut Partners I, Limited Partnership	\$7,200,000	\$21,600,000
Connecticut Growth Fund, Limited Partnership	\$2,210,000	\$4,420,000
Connecticut Small Business Finance Fund, Limited Partnership	\$900,000	\$1,800,000
Enhanced Capital Connecticut Fund I, LLC	\$2,500,000	\$5,000,000
Enhanced Capital Connecticut Fund II, LLC	\$1,000,000	\$2,000,000
Enhanced Capital Connecticut Fund III, LLC	\$1,100,000	\$2,200,000
Enhanced Capital Connecticut Fund IV, LLC	\$3,100,000	\$6,200,000
Stonehenge Capital Fund Connecticut II, LLC	\$1,000,000	\$1,000,000
Stonehenge Capital Fund Connecticut III, LLC	\$990,000	\$990,000
TOTAL	\$20,000,000	\$45,210,000

5. Connecticut Aerospace Reinvestment Act

i) Program Description

Under the terms of this Act United Technologies Corporation (UTC) will:

- Construct a new Pratt & Whitney(P&W) corporate headquarters, which it will keep in Connecticut for a minimum of 15 years
- Construct a new P&W worldwide engineering center of excellence in Connecticut
- Keep Sikorsky corporate headquarters in Connecticut for a minimum of 5 years
- Create a customer training center at UTC Aerospace Systems (UTAS) in Windsor Locks
- Build new labs and infrastructure at United Technologies Research Center (UTRC)
- Invest in new research projects and capital investments at P&W, Sikorsky, UTAS and UTRC.

In return for these investments, UTC will be allowed to exchange approximately \$20 million per year of previously earned but unused tax credits to finance construction during the first five years. Thereafter, the earned but not yet used credits will be spread over the remaining 9 years. The exchanged credits will be offset with tax reductions over a 14 year period, with the final amount based on the company's level of jobs, wages and investments.

ii) **Program Activity**

Table 15: UTC Exchange Activity			
Fiscal Year	Amount Earned	Amount Awarded	Bankable Balance
2015	\$73,843,630	\$20,000,000	\$53,843,630
2016	\$49,725,625	\$20,000,000	\$29,725,652

Note: Qualified Capital Expenditures are for the time period 7/1/2015-6/30/2016

C. FY 2016 Job Audit Results

DECD's financial assistance agreements with businesses generally require the creation and/or retention of jobs as of a specific date as a condition of financial assistance. Companies with these requirements may have from two to five years within which to reach the agreed upon job goals. DECD or an independent public accountant conduct job audits required by contract that cover a specific period in which the companies are required to have these positions in place. In cases where companies fail to reach their targets, DECD assistance agreements require companies to repay all or a portion of their financial assistance; have their loan interest rates increase; and/or reduce the amount of incentive that may be available, such as in the case with tax credits that may be awarded.

The following information in Table 18 is a summary of job audits that have been conducted for companies in DECD's active portfolio (Direct Assistance and URA Tax Credits) that have contractual employment obligations.

Table 18: Business Assistance Portfolio Job Audit Results						
		Contract Requirements				% of Contract
	# of Companies	Jobs Retained	Jobs Created	Total	Actual Jobs Per Audit	Requirement Attained
Met Job Goal	340	45,217	9,247	54,464	61,144	112%
Did Not Meet Job Goal	166	4,226	2,875	7,101	4,454	63%
TOTAL	506	49,443	12,122	61,565	65,598	107%

Source: DECD, OFR

Table 19 shows that 78% of companies met 70% or more of their contractual jobs commitment and overall contractual employment targets have been exceeded by 4,033 jobs.

Table 19: Business Assistance Portfolio Job Goal Attainment as of June 30, 2015			
% of Target	# of Companies	Total Jobs Required by Contract	Total Jobs Based on Job Audit
>150%	36	1,386	3,028
141-150%	13	681	989
131-140%	23	6,716	9,192
121-130%	19	839	1,028
111-120%	64	6,424	7,377
101-110%	73	33,971	35,212
100%	99	2,547	2,549
99-90%	28	2,861	2,748
89-80%	25	1,074	902
79-70%	17	3,212	2,388
69-60%	8	107	70
59-50%	13	110	58
<50%	88	1,637	57
TOTAL	506	61,565	65,598

Source: DECD, OFR

DECD's financial assistance agreements are protected against non-performance by including claw-backs in the event that a company is unable to fulfill their contractual obligations. DECD actively enforces the provisions of the financial assistance agreement. Of the 166 companies that failed to reach their job goals 51 had interest rate increases, 37 paid a financial penalty, 4 repaid its loan early, 2 are being evaluated for possible restructuring and 3 had tax credit reductions.

DECD is responsible for balancing financial risk and return with the fulfillment of public policy and the agency has strategies and systems in place to safeguard the state's investments. DECD routinely conducts an economic impact analysis as a part of its underwriting process to determine a project's economic benefit to the state, including the incremental increase in tax revenues as a result of the investment. DECD's due diligence process includes several components: a project eligibility review, financial analysis, economic impact analysis, consistency with state land use policies, and technical and regulatory feasibility.

Table 20 provides the cost to the state per job created and retained.

Table 20: DECD Dollar Cost Per Job Based on Actual Job Audit Results as of June 30, 2016						
	Total Grant	Total Loan	Tax Credits Allocated	Total Assistance	Actual Jobs Created/Retained	DECD Dollar Cost Per Job
Met Job Goal	\$45,888,296	\$259,976,184	\$368,900,000	\$674,764,479	61,144	\$11,036
Did not Meet Job Goal	\$9,020,039	\$52,627,406	\$70,000,000	\$131,647,445	4,454	\$29,557
TOTAL	\$54,908,335	\$312,603,590	\$438,900,000	\$806,411,924	65,598	\$12,293

Source: DECD, OFR

It is important to note that each person employed as a result of DECD business assistance pays income tax to the state. Assuming each of the 65,598 jobs noted in Table 20 earned the average portfolio wage of \$57,089 and paid 3% of their wages in income taxes, the jobs created and retained by DECD business assistance represent approximately \$1.1 billion in annual tax revenue to the state.

D. Wage Analysis

Table 21 provides the results of a portfolio wage analysis. Based on survey results, companies in DECD's portfolio paid an average annual salary of \$57,089.

Table 21: Wage Analysis	
CT 2015 Average Annual Salary	\$56,280
DECD Portfolio Statistics	
Average	\$57,089
High	\$284,313
Low	\$12,000
Median	\$50,000

Source: DECD, OFR

Table 22 provides the portfolio wage data, stratified over the portfolio industry mix. The highest average wage paid by companies in DECD's business assistance portfolio was with those businesses in the Finance and Insurance industry. The lowest average wage was with those businesses in the Real Estate and Rental Leasing industries.

Table 22: Business Assistance Portfolio Wages by Industry				
NAICS Code	NAICS Category	# of Companies	Portfolio Average Wage	Municipalities

Source: DECD, OFR

E. Benefits Analysis

The majority of companies that responded to the survey provide some form of health benefits to their employees. Of the responding companies, 318 (70.5%) indicated that they provide healthcare benefits to their full-time employees while 52 (11.5%) provide benefits to part-time employees.

Table 23: Health Insurance Coverage Provided		
	Full-Time	Part-time
Yes	318	52
No	132	398
Total Number of Companies	450	450

Source: DECD, OFR

F. Business Assistance Economic Impact Analysis

Using the Regional Economic Models, Inc. (REMI) Policy Insight model for Connecticut, DECD estimates the impact of its business assistance investments from state fiscal years 1993 through 2015. Table 24 shows the impact DECD's business assistance investments (active investments) have had on Connecticut's economy. The portfolio aggregate is the sum of impacts in 2016 constant dollars from fiscal year 1993 through 2016. The economic and fiscal impacts represent cumulative changes from the baseline forecast of the Connecticut economy. That is, as a result of DECD business assistance investments, gross state product increased by more than \$5.3 billion dollars over the 24 fiscal-year periods. The impacts appearing in table below capture the construction and the machinery and equipment spending that occurred as a result of DECD's business assistance investments.

Table 24: Business Assistance Portfolio Economic Impact Change from Baseline in 2016 Constant Dollars		
	Portfolio Aggregate	Fiscal Year 2016
Gross State Product	\$5,336,029,300	\$424,835,200
Personal Income	\$3,547,685,667	\$303,527,800
State Net Revenue	\$629,579,500	\$43,064,100

Source: DECD, OFR

The reported impact does not capture the additional output and employment such investment afforded the firms receiving state assistance and is, therefore, a conservative estimate of the benefits of these investments.

The nominal value of the construction, machinery and equipment increased the non-residential capital stock in Connecticut, which is reflected in the towns' increased grand lists and their tax receipts (not reported here). In addition, this analysis captures the debt service the state incurred in funding the business assistance programs offsetting payments made to the state by firms receiving loans and grants. This accounts for the negative impacts in some years because the state's debt service is not always matched with offsetting outlays. DECD has not accounted for the ongoing increases in capacity afforded by the business assistance program; therefore, this analysis is conservative.

Estimated Increases in Property Value and Property Tax Revenue as a Result of DECD's Business Assistance Investments

Table 25 provides the estimated impact that DECD business assistance investments have had on property values in the municipalities in which the investments were made and provides the estimated property taxes generated by DECD's business assistance investments.

Table 25: Business Assistance Portfolio Property and Tax Value Impact	
FY 2016 Project Towns' Assessed Values	\$201,476,792
Project Towns' Assessed Value (Total Grand List Increase) from FY 1993-2016	\$1,919,751,993
FY 2016 Property Tax Revenue	\$6,117,617
Portfolio Cumulative Property Tax Revenue FY 1993 - FY 2016	\$342,175,128

Source: DECD, OFR

G. Credit Consortium

The Connecticut Credit Consortium provides qualified businesses (those employing less than 50 people) with direct loans and lines of credit. Principal and interest payments made on loans are to be dedicated to the "small business assistance account," which is to be expended by DECD for economic cluster-related programs; job training finance demonstration programs; job training or retraining meeting quality management standards; energy and environmental technologies deployment centers; pilot programs for matching grants for construction, renovation, or improvement of small manufacturing facilities; manufacturing competitiveness grants; and other targeted and general manufacturing initiatives and small business assistance. The amount of loans is capped at \$500,000 for each recipient and at \$15 million for all recipients.

Through FY 2016, 148 loans were approved for \$15,665,995 and \$6,090,600.39 has been repaid.

H. Clusters

1. Insurance and Financial Services

DECD collaborated with the IFS Cluster and various public and private partners and stakeholders to implement strategies that help the industry grow and prosper in the state. This collaboration included the seventh Actuarial Boot Camp for CT high school seniors and juniors and GET Hired a career fair focused on graduating college students. DECD and the Cluster also collaborated on the Insurance Market Summit which includes an up-to-date analysis of the industry in CT and trends for the future.

2. Aerospace and Advanced Manufacturing

DECD continues to support the efforts of the Aerospace Components Manufacturers (ACM) and other manufacturing associations by attending key meetings and promoting the importance of the industry and cluster. The agency encourages technology and business development opportunities through its investments in partner organizations such as CCAT and CONNSTEP as well as pursuing federal funding opportunities that will further the competitiveness of manufacturing in Connecticut.

Specifically in the area of international business development initiatives, DECD partners with CCAT's manufacturing and supply chain initiative to promote the state's aerospace and defense industry at key air shows by exhibiting at the world's largest international air shows, which alternate between Farnborough, U.K. and Paris, France.

The state of Connecticut is championing the competitiveness of its manufacturing industry in many ways from supporting transactional deals to the \$60 million Manufacturing Innovation Fund (MIF) which provides funding to strengthen the competitive position of Connecticut manufacturers. This fund is administered by DECD. As of June 30, 2016 the MIF has:

- Invested \$30,675,794 million alongside 425 manufacturers
- Trained 2,700 workers
- Created 426 and retained 1,485 jobs for a total of 1,911 jobs
- Leveraged \$73,448,084 million in private and federal funding

DECD has worked closely with DOL, technical schools, community colleges and private universities to ensure we have the programs in place to help train the workforce of the future that will help the aerospace industry be successful in the state.

As shown in DECD's Business Assistance Portfolio appearing at the end of this report, DECD's direct assistance programs have helped numerous manufacturing small and mid-sized companies grow their business in the state.

3. Bioscience

Connecticut has become a nucleus of bioscience advances – from groundbreaking research in personalized medicine to device manufacturing of the latest medical technology. Bioscience companies of all sizes are taking maximum advantage of the state's dynamic intersection of intellectual capital and practical expertise.

From groundbreaking researchers – and world-class manufacturers to data-savvy health insurers – first – tier health providers, pharmaceutical pioneers and global medical device leaders, all kinds of bioscience innovators find Connecticut a supportive environment for growth.

Connecticut Innovations manages the Connecticut Bioscience Innovation Fund (CBIF) that seeks to drive innovation and commercialize bioscience breakthroughs throughout Connecticut by providing focused financial assistance to startups and early stage businesses, as well as non-profits, accredited colleges, and universities. Since July 2015, CBIF has approved 13 deals totaling \$15.9M, of which \$8.7M has been funded.

*Please note that 12 of the deals were for approximately \$500,000 each for the advancement and commercialization of bioscience innovations. One deal was \$10M for a cross-state initiative called "PITCH: Program in Innovative Therapeutics for Connecticut's Health" <http://pitch.yale.edu> .

4. Green Technologies

Connecticut companies lead in the development and manufacture of hydrogen and fuel cell technologies for both stationary and transportation applications. Connecticut is also home to many supply chain companies that provide materials and services to the industry throughout the world. In addition, DECD supports the work CCAT and UConn do in the emerging green technology field

as well as partner with the CT Green Bank, which provides financial support to companies who want to reduce their carbon footprint.

5. Digital Media

The Digital Media cluster is managed by the Connecticut Office of Film, Television & Digital Media (OFTDM). The OFTDM continues to focus on growing the digital media and associated production by capitalizing on the state's strength as a major media center for television, digital animation and sports-related programming.

The OFTDM supports this initiative through a well-rounded offering of programs, services and education. With three tax incentive programs (Production, Infrastructure and Digital Animation Production Company), an emerging workforce encouraged by the launch of the new Digital Media CT summer training program, diverse locations and award-winning client services, the OFTDM positions Connecticut as a top contender in which to conduct production operations or to relocate digital media companies.

The OFTDM offers experience-based support to the networks, production companies, and individual practitioners that comprise this expanding sector and its significant associated economic productivity with an online Locations Gallery featuring thousands of locations as well as an online Production Resource Directory with over 1,200 listings representing Connecticut's depth of infrastructure, crew base and locally available vendors.

6. Tourism

Connecticut's Tourism Industry Cluster is administered by DECD's Office of Tourism (COT). Close working relationships with the Connecticut Tourism Advisory Council, comprised of business leaders representing the diverse segments of the industry including lodging, attractions, culture, gaming and destinations, help guide COT's direction and develop essential tools, programs and educational opportunities for continuing the growth of this cluster.

DECD Office of Tourism released a new study during FY 2016, *The Economic Impact of Travel in Connecticut*, prepared by Tourism Economics, an Oxford Economics Company. The results document Tourism's essential roles as an important economic engine in Connecticut, and all business sectors in the state benefit from tourism activity directly and/or indirectly.

- The Tourism sector of the state's economy generated \$14.7 billion in total sales in 2015 – a three-percent increase from the prior year.
- Tourism supports more than 121,500 jobs statewide – including 82,500 direct jobs – representing 5.3 percent of all employment in the state:
 - One out of every 18.8 jobs in Connecticut is now supported by Tourism;
 - Tourism employment is a significant part of several industries: lodging (98.9%), recreation (32.5%), food & beverage (23.6%) and retail (3.2%)
- In addition to the direct economic impact generated by attractions, hotels, restaurants and other destinations, visitor spending benefits the entire state with \$1.7 billion in tax revenue, including \$910 million in state taxes and local taxes.
- Tourism is expanding at a faster rate than the Connecticut state economy as a whole, and the importance of tourism can be favorably compared to many major industries and business in Connecticut.

During FY 2016:

- COT's *Connecticut still revolutionary* marketing efforts featured over 1,000 identifiable arts, history and tourism destinations from all areas of the state in its, digital, social and public relations campaigns.
- Record attendance at the 2016 Connecticut Governor's Conference on Tourism, thanks in large part to Platinum-level sponsors Mohegan Sun, Foxwoods Resort Casino, Connecticut Convention Center and the Waterford Hotel Group.
- Over 400 Stakeholders attended COT Outreach Meetings held across the state sharing the new CTvisit website, marketing opportunities and inviting input to the state's cluster initiatives.
- Increased communication with Connecticut Tourism business partners was a COT objective for FY 2016 with an eNewsletter, The Outlook, distributed monthly to over 20,000 offering marketing opportunities, and the periodic Connecticut Tourism Tracker reporting key results of the state's tourism marketing initiatives.
- COT furthered its social media community for the industry, growing to more than 250,000 fans:
 - www.facebook.com/VisitConnecticut
 - www.twitter.com/ctvisit
 - www.youtube.com/user/ConnecticutTourism
 - New - www.pinterest.com/visitct
 - New - www.instagram.com/ctvisit

- The new responsive designed website for CTvisit.com, the state’s official tourism website, was launched with industry partners and regional tourism districts participation.
 - The launch of the new CTvisit website in April 2016:
 - ◆ Doubled the number of free partner listings on CTvisit.com (to 4,000)
 - ◆ Featured partners in promoted website articles seen by 1.8 million visitors
 - ◆ Motivated 1,369,410 listing page views featuring specific tourism businesses
 - ◆ Sent 2.2 million leads directly to partners (links to their websites, booking engines, emails, phone numbers)
 - ◆ Ended 2016 with 4.1 million website visitors (up 48% over 2015)

I. International Trade and Foreign Direct Investment

The role of the International and Domestic Business Development Team is to facilitate commercial international and out-of-state activities in Connecticut. Responsibilities include the following:

- Recruitment of foreign direct investment (FDI) to Connecticut by providing assistance to foreign companies interested in expanding and/or relocating their operations to the state;
- Promote Connecticut abroad as an ideal business location
- Serve as the liaison to Connecticut’s foreign-owned companies;
- Coordinate and lead business development missions and international trade shows; and
- Support protocol duties for members of the international diplomatic corps and foreign delegations visiting Connecticut in conjunction with the state’s economic development objectives.

Accomplishments during FY 2016 include:

- DECD submitted a successful State Trade and Export Promotion (STEP) grant application to the U.S. SBA and was awarded \$244,000 in federal funds to increase the number of small businesses that export and increase the value of exports for current small business exporters. Said funds will assist Connecticut small businesses at a variety of international business opportunities, activities and events.
- Connecticut continued its work on the Steering Committee of the Organization for International Investment (OFII) Frontlines Coalition. OFII promotes policies that encourages foreign-based companies to establish U.S. operations.

- Connecticut’s leadership on FDI resulted in securing a position on the U.S. Department of Commerce’s International Advisory Committee; Commissioner Smith serves as the Committee’s Vice Chair.
- Supported the global presence of Connecticut companies by sponsoring booths at the following trade shows:
 - Medica 2015 in Dusseldorf, Germany- participation as part of the “Best of New England” booth at the world’s leading medical trade fair
 - Hannover Messe 2016 in Hannover, Germany- participation in the Energy Hall’s hydrogen, fuel cell and battery technology exhibit resulted in \$1,625,000 in anticipated export sales for Connecticut sub-exhibitors in the booth
 - Farnborough Air Show 2016 in Farnborough, U.K.- participation in one of the world’s largest aerospace and defense trade shows resulted in \$16.5 million in anticipated sales for the Connecticut booth’s sub-exhibitors
- Connecticut participated in lead generation opportunities at the SelectUSA Summit in Washington, DC.
- In FY 2016, DECD hosted and interfaced with several inbound delegations, including China, Taiwan, Israel and Brazil.

J. Enterprise Zones

The goal of the EZ Program includes, but is not limited to, increasing private investment, expanding the tax base and fostering job creation for residents of enterprise zones. The program also reduces property abandonment and housing blight in these zones. Measures of performance include:

- Number of companies certified;
- Number of jobs created by industry and by town; and
- Square footage leased, purchased, expanded or renovated.

1. Connecticut Enterprise Zone Performance in 2015 and 2016

The following Tables provide details on Connecticut’s Enterprise Zone (EZ) Program activity based on the most recent data available.

Table 26: Enterprise Zone Performance		
	2015	2016
Companies Certified	45	44
Gross Floor Space	1,758,154	1,643,081
Jobs Retained	2,838	1,528

As the following tables show, the most active municipalities, as defined as the distressed municipalities with the greater number of approved certifications during program year 2016, were the cities of Bridgeport (with 12 certifications), and then New Britain and Stamford (each with 4 approved certifications). These three municipalities these represent 201,706 square feet of space and 324 new jobs in these three distressed communities over the 2015-16 program years.

2. Airport Development Zones

During the period of October 1, 2015 – September 30, 2016, the Bradley Airport Development Zone and Waterbury-Oxford Development Zone continued to experience ongoing interest. Two applicant, Adam Equipment, Inc., and Metropolitan Interactive, LTD were approved by DECD for ADZ benefits at Waterbury-Oxford Development Zone. Adam Equipment constructed a 27,300 SF facility while Metropolitan Interactive leased a 3,359 SF facility, both in Oxford. The two companies had a combined capital investment of \$2,788,601.00 resulting in creation of 22 new jobs and retention of 5 jobs.

Table 31: Airport Development Zone Program Activity

3. Enterprise Zone Property Tax Abatement

The Distressed Municipalities Property Tax Reimbursement Program provides a five-year state reimbursement of a portion of the property tax loss towns sustain as a result of property tax exemptions granted to qualified manufacturing facilities in designated municipalities.

From November 1, 2014 to October 31, 2015 the state's portion of the total property taxes abated was \$4,884,677.77. This figure represents 40% of the total eligible property tax liability for companies within Connecticut's EZ and ECZ communities. The total eligible property tax can be estimated by reversing the abatement formulation equation. Based on this approach, the total eligible property tax liability for FY 2015 was approximately \$12,211,744.43. Through the program, 80% of this total was abated (\$9,769,395.54). Of the \$9,769,395.54, 50% came from the State and the other 50% came from the participating municipalities. Companies receiving the abatement paid 20% of their eligible property tax liability that amounted to \$2,442,348.89. Table 32 details the amount paid to each participating municipality during fiscal year 2014-15.

Table 32: Enterprise Zone Property Tax Abatements FY 2016			
Entity	Amount Awarded	Entity	Amount Awarded
Beacon Falls	\$34,805.21	Plainfield	\$6,836.62

K. Office of the Permit Ombudsman

The Office of the Permit Ombudsman was created within DECD to expedite regulatory state agency approvals for qualifying economic development projects that need environmental, public health, and transportation permits. The Permit Ombudsman acts as a facilitator between state regulatory agencies and businesses to fast track projects through regulatory approvals and to resolve permitting issues. Public Act 16-201 amended the duties of the DECD Office of the Permit Ombudsman to include assistance to bioscience businesses seeking to expedite the review and approval of permits required by local zoning authorities.

During FY 2016 the Office of the Permit Ombudsman has:

- Coordinated and facilitated regulatory pre-application permitting meetings for numerous companies that are either in the process of expanding or creating a new business in the state. Three of the pre-application permitting meetings were with companies considering a move to Connecticut from overseas.
- Continued leading the ongoing effort to find solutions for processing and beneficial use of dredged materials for: brownfield remediation and redevelopment; landfill closure; and infrastructure programs. Specifically, working with a startup company that wants to build a facility in Connecticut to assist clients in need of dredged material disposal alternatives.
- Extended the DAS contract for Environmental Assessment and Impact Evaluations until the year 2018.
- Completed outreach efforts by presenting information regarding the Permit Office to the Connecticut Council of Governments.
- Assisted the CDBG–DR program, administered through the Department of Housing (DOH), achieve compliance with the Federal requirements under National Environmental Policy Act.
- Assisted DOH coordinating the Flood Management Certification (FMC) application and approval process for state-funded housing projects.
- Participated in the quarterly meetings of the DEEP Solid Waste Advisory Committee.
- Oversaw ongoing efforts to remediate and pre-permit state-owned and formerly state-owned Brownfield sites according to the provisions of PA 11-1.
- Participated in the ongoing process for transformation of DEEP Brownfield Regulations through the DEEP Remediation Roundtable.
- Coordinated review of DECD funded brownfield projects with the State Historic Preservation Office (SHPO) and DEEP for Flood Management Certification.

Table 34: Office of the Permit Ombudsman FY 2016 Activity

L. Brownfields

A brownfield is any abandoned or underutilized site where redevelopment and reuse has not occurred due to the presence of pollution in the buildings, soil or groundwater that requires remediation before or in conjunction with the restoration, redevelopment or reuse of the property.

1. Investment Analysis

The Office of Brownfield Remediation and Development (OBRD) is a dedicated office within DECD with the primary mission to be a one stop resource for brownfield development in Connecticut. As such, OBRD coordinates the state's response for brownfield assistance to communities and businesses. Brownfield redevelopment projects are usually long term and have a variety of complicated environmental, legal, and financial obstacles to overcome. Hundreds of underutilized or abandoned properties exist in every town in Connecticut. Over the last ten years, DECD has funded 241 brownfield projects with approximately \$154 million in funding.

Table 35: Brownfield Activity						
	# of Projects	Total DECD Investment	Total Project Cost	Non- DECD Funds	Leverage Ratio	Acreage
FY 2016	51	\$32,830,537	\$236,315,091	\$203,484,554	6.19	374
Brownfields Portfolio	241	\$154,459,568	\$ 912,856,795	\$758,397,227	4.9	2,373

Source: DECD, OBRD

Note: Brownfield Activity includes Dry Cleaning Establishment Remediation Fund projects. It does not include projects funded through the SCPRIF program.

2. FY 2016 Funding Rounds

The Office of Brownfield Remediation and Development has worked diligently to continue to support the state's brownfield redevelopment programs as it continues to be a centerpiece of the state's economic agenda. The fiscal year began with a fast start with funding Round 7 that awarded \$7 million of municipal brownfield grants to 12 communities. Four projects received \$5.4 million in remediation funding representing 11 acres of contamination. The remainder of the round awarded \$1.5 million toward the environmental assessment of 462 acres. Round 8 followed later in the year with \$8.7 million awarded to 16 communities. \$7 million was invested toward the cleanup and redevelopment of five former industrial sites while \$1.7 million in grants for the assessment of 12 other sites. Funding continues to be provided through PA 11-57 and PA 15-01.

All of the brownfield grants continue to be awarded on a competitive basis through an inter-agency rating and ranking of each application submitted for the respective deadline. This scoring is followed by an in-

person interview. Rounds 8 & 9 demonstrated the state's commitment to cities and towns as they deal with the daunting responsibility of contaminated properties.

The first funding round of the Brownfield Area-Wide Revitalization (BAR) Planning Grant Program was announced in January 2016. Six municipalities in the state – East Hartford, Meriden, New Britain, Old Saybrook, Torrington and Waterbury were awarded a total of \$1,040,000 to develop plans for remediating and developing clusters of brownfield sites. The awardees have hired consultant teams to help with their planning projects and work is progressing well. All planning projects are expected to be completed by March 2018.

Legislatively, the brownfield programs were modified at the beginning of FY 2106 with some important changes. The Municipal Brownfield Grant Program was changed to allow DECD the flexibility to make additional grant funds available to applicants of ongoing projects, without having to re-apply and wait for the next funding rounds, when there are unexpected cost overruns. The Brownfield Loan Program was also modified to increase the funding cap from the maximum \$2 million per year for up to two years, to \$ 4 million per project. CT DECD's programs lead the nation in brownfield redevelopment.

3. Brownfield Remediation and Revitalization Program

OBRD administers the Brownfield Remediation and Revitalization Program (BRRP) that was enacted through Public Act No. 11-141. Acceptance into the program protects participants from liability to the state or any third party for the release of contamination that participants did not cause, exacerbate, or contribute to and that existed before they acquired the eligible property. Applicants must meet the definition of a Bona Fide Prospective Purchaser, Innocent Landowner or Contiguous Property Owner. The subject property must meet the definition of a brownfield and have been subject to a release of a regulated substance in an amount that is in excess of the remediation standards. This pioneering program was established as one of the first of its kind in the U.S. and is providing a catalyst for the redevelopment of brownfields in Connecticut.

The DECD Commissioner in consultation with the DEEP Commissioner will determine admission of eligible properties based on statewide portfolio factors for up to 32 projects per year. Applicants who are accepted into the BRRP shall remediate the release of any regulated substance within the property boundary but are not required to investigate or clean up any contamination beyond the property's boundary. Any applicant accepted into the BRRP shall pay DEEP a fee equal to 5% of the assessed value of the land, as stated on the last-completed grand list of the relevant town (subject to certain fee waiver provisions).

During the FY 2016 OBRD received 6 applications and issued 5 approvals. One application is pending. To date the program has collected \$625,649 in fees that are held at DEEP and deposited into the SCPRIF fund. The funds remain available for use by the Commissioner of the Department of Energy and Environmental Protection pursuant to CGS 22a-133u.

Table 36: Brownfield Remediation and Revitalization Program Activity FY 2016

4. Special Contaminated Property Remediation and Insurance Fund (SCPRIF)

The Office of Brownfield Remediation and Development administers the SCPRIF program in cooperation with the Department of Energy and Environmental Protection. The program provides financial assistance through low-interest, five-year loans for environmental investigation, remediation and demolition. Any person, corporation, municipality or business is eligible to apply for SCPRIF.

Loan funds may be repaid upon sale or lease of the property, or upon approval of a final remedial action report done on the property. In the event the assessment determines that redevelopment of the site is not feasible due to the cost of remediation, loans made under SCPRIF may be forgiven under certain conditions. In the past 10 years, the SCPRIF program has funded 17 loans with a contract value of approximately \$1.9 million. In FY 2016, two application were approved and none were denied.

Table 37: DECD SCPRIF Activity		
	# of Projects	Total DECD Investment
DECD SCPRIF Portfolio	17	\$1,856,600

Source: DECD, OBRD

5. Dry Cleaning Establishment Remediation Fund

Since January 1, 1995, all dry cleaning establishments have been required to pay a one-percent surcharge on the gross receipts at retail for any dry cleaning services performed. This money is deposited into the dry cleaning establishment remediation account which is a non-lapsing account within the General Fund. Eligible entities can apply to DECD for grants to facilitate the environmental remediation of property contaminated as a result of the chemicals used in the dry cleaning industry. Eligible entities consist of dry cleaning business owners and owners of real estate whereby a dry cleaner is currently or was formally located. The program is available statewide and requires a \$10,000 co-pay by the applicant.

OBRD is committed to administering the Fund efficiently and with a high degree of customer service within the available program funds. There are two final remaining applications that remain open from 2009. The 2014 application intake round yielded 33 applicants which requested \$7.5 million through a simple initial intake form. These applicants have secured a place in line to approach the Fund and will be contacted when the Fund is in the position to offer the grant funds. Applicants should still expect a significant waiting period as the annual dry cleaning surcharge receipts do not cover the industry demand.

OBRD continues to improve the operations of the Dry Cleaning Fund, including conducting semi-annual information sessions open to the public. FY 2016 included three public informational meeting held on July 15, 2015, January 5, 2016, June 21, 2016. Each was well attended by dry cleaning owners and members of the environmental community. Preceding the January public meeting, OBRD refreshed the application and guidance documents on the agency website. All information can easily be found under the dry cleaning tab of the www.ctbrownfields.gov web page.

Over the past 10 years, 69 sites have received \$9.5 million in aid, ranging from \$30,000 to the maximum grant amount of \$300,000. Three applications was approved for FY 2016 and two applications were removed from consideration due to unresolved issues.

Table 38: Dry Cleaning Establishment Remediation Fund FY 2016 Activity		
Company	Address	Award

M. Connecticut's Economy During FY 2016

The Connecticut economy experienced growth two years in a row in 2014 and 2015. The Real (adjusted-for-inflation) Gross State Product (RGSP) increased 0.6% from \$228.9 billion in 2014 to \$230.2 billion in 2015, while the U.S. economy grew 2.4%. RGSP is defined as the real dollar value of all final goods and services produced in a given year. It is the most common barometer used to measure the health of the economy.

Table 39: Gross State Product (millions of chained 2009 dollars)

1. Gross State Product by Industry

The Real Estate, Rental and Leasing industry accounted for 15.2% of the total state economy in 2015, followed by the Finance and Insurance industry with 13.1% and Manufacturing with 10.5%. The Government and Health Care and Social Assistance sectors rounded the top five with 10.3% and 8.0%, respectively. At the U.S. level, the Real Estate, Rental and Leasing, Government and Manufacturing sectors accounted for 37.8% of the national economy in 2015.

Table 40: 2015 Gross State Product by Industry (millions of current \$)				
Industry	CT	% of Total	U.S.	% of Total

2. Productivity

The per capita RGSP measures worker's productivity. In 2015, Connecticut per capita RGSP was estimated at \$62,800, ranked sixth highest in the nation. Statewide, workers' productivity was 25.5% higher than that of the nation.

Table 41: Per Capita Gross State Product (in chained 2009 dollars)				
	CT	CT % Change	US	US % Change
2010	64,909		47,287

2015	62,800	0.8%	50,054	1.7%

Source: Bureau of Economic Analysis

3. Industry Employment

Table 42 provides the Connecticut employment by industry at the two-digit North American Industry Classification System (NAICS) code level. Health Care and Social Assistance is the largest industry in terms of annual average employment which accounted for 15.8% of total employment in 2015, followed by Government sector at 14.1% and Retail Trade industry at 11.1%.

Table 42: Connecticut Employment by Industry					
NAICS Code	Industry	2014 Annual Average Employment	% of Total	2015 Annual Average Employment	% of Total

4. Unemployment Rates

Connecticut's annual average unemployment rate continued to improve from 7.7% in 2013 to 5.5% in 2016, despite the unemployment rate remaining high from a historic point of view. The state's unemployment rate was six tenths of a percent higher than the U.S.

5. Manufacturing Activity

The manufacturing sectors of an economy are tracked with particular interest due to two characteristics of these types of industries. First, manufacturing sector jobs traditionally have been associated with high value added, a measure of an economic region's standard of living. Second, manufacturing sectors incorporate more parts of the supply chain meaning that they have a high degree of interrelation with other sectors in the local economy. Both of these factors have become less substantial because of the globalization of markets and the stretching of the supply chain.

Manufacturing activities are presented in Table 44 below, such as employment and payroll for all manufacturing workers; and employment and wages of production workers; value added, cost of materials, and value of shipments for all manufacturing sectors across regions. Connecticut's manufacturing employment decreased .4% from 156,981 in 2014 to 156,392 in 2015, the latest data available. The nation experienced a slight manufacturing employment increase of 1.5% during the same period. The manufacturing value of shipments decreased 1.2% for Connecticut from 2014 to 2015 and 5.8% for the U.S.

Table 44: Manufacturing Statistics						
	Connecticut			U.S.		
	2014	2015	% change	2014	2015	% change

II. COMMUNITY DEVELOPMENT

A. Investment Analysis

DECD's Community Development Portfolio includes projects funded through a variety of programs including the Small Town Economic Assistance Program and Urban Action Grant Program. In FY 2016 DECD invested over \$57.3 million into 28 community development projects bringing DECD's total active investment to over \$533 million. Table 45 summarizes DECD's community development activity.

Table 45: DECD Community Development Activity					
	# of Projects	Leverage Ratio	Total Project Cost	Non-DECD Funds	DECD Investment
FY 2016	28	.98	\$113,504,132	\$56,201,757	\$57,302,375
CD Portfolio	516	.69	\$907,342,012	\$367,820,736	\$533,121,276

B. Community Development Impact

DECD's broad community development portfolio includes a wide variety of project types including arts and entertainment, economic development planning and technical program support. Community development activities create the environment necessary for sustainable economic growth, stable neighborhoods and healthy communities. Community development activities address the quality-of-life issues that create and reinforce the foundation that effective economic and housing development depend upon for success.

C. State Historic Preservation Office (SHPO)

1. State Historic Structures Rehabilitation Tax Credit (C.G.S. §10-416c)

The State Historic Rehabilitation Tax Credit is a 25% tax credit for qualified rehabilitation expenditures (QREs) associated with the rehabilitation of certified historic structures. Nonresidential uses include commercial, institutional, governmental or manufacturing. An additional 5% tax credit is available for projects that include affordable housing. If the project includes an affordable housing component, at least 20% of the rental units or 10% of for sale units must qualify under CGS Section 839a. Qualified rehabilitation expenditures are hard costs associated with rehabilitation of the certified historic structure; site improvements and non-construction costs are excluded. Buildings must be listed on the National or State Register of Historic Places, either individually or as part of an historic district. The program has an annual aggregate cap of \$31.7 million in tax credit reservation, and a cap of \$4.5 million in tax credits per building.

In FY 2016, SHPO received twenty (20) new applications to the program and reserved \$31,700,000.00 in tax credits. SHPO issued three (3) tax credit vouchers totaling \$2,853,095.31 under the State Historic Rehabilitation Tax Credit Program during FY 2016.

2. Federal Historic Preservation Tax Incentives Program

The Federal Historic Preservation Tax Incentives Program was established in 1977 by the National Park Service in response to the Tax Reform Act of 1976, which corrected a long-standing imbalance in the federal tax code that favored new construction. By offering a 20% tax credit for the rehabilitation of income-producing properties, the law helped historic buildings attract major private investment for the first time. Nationwide during Federal FY 2015, 1,283 new rehabilitation projects were approved; approximately 85,058 local jobs were created; 8,096 new low and moderate income housing units were created; and \$6.63 billion investment dollars were spent on new rehabilitation work. In Federal FY 2015, Connecticut

submitted a total of fifty-six (56) federal tax credit applications with an estimated private investment of over \$95,676,126.00.

3. The Historic Homes Rehabilitation Tax Credit

The Historic Homes Rehabilitation Tax Credit is a 30% tax credit for QREs associated with the rehabilitation of owner-occupied historic homes of 1-4 dwelling units. In the case of multiple dwelling units at least one unit must be owner-occupied. Buildings must be listed on the National or State Register of Historic Places, either individually or as part of a historic district. The annual aggregate cap is \$3 million in tax credit reservations, with a \$30,000 cap per dwelling unit.

As shown in Table 49, during FY 2016 SHPO issued \$1,373,861 in Historic Homes Rehabilitation Tax Credits.

4. Historic Preservation Enhancement Grant (HPEG)

HPEG are non-matching federal funds of up to \$20,000 available to municipalities that have been designated Certified Local Governments. Grants are to support activities sponsored by Municipal Historic District Commissions that enhance the commission's administrative capabilities, produce public education materials and activities and strengthen local preservation programs.

In FY 2016 SHPO awarded \$62,685 in grants to five municipalities.

Table 50: Historic Preservation Enhancement Grant				
Municipality	Contract Award Date	Contract Expiration Date	Total Project Cost	FY 2016 Grant Award
Cheshire	10/7/15	10/31/2016	\$3,035	\$3,035

5. Supplemental Certified Local Government Grant

Supplemental Certified Local Government Grants are up to \$30,000 and are available to municipalities that have been designated Certified Local Governments. The grant requires non-state matching funds except for survey work. The grants may be used to support activities sponsored by municipalities for a wide range of historic preservation planning activities including conditions assessments, feasibility studies and architectural plans and specs to support restoration projects.

In FY 2016 SHPO awarded \$30,000 to one municipality.

Table 51: Supplemental Certified Local Government Grants

6. Historic Preservation Survey & Planning (S&P) Grants

S&P grants may be used by Connecticut non-profit organizations and municipalities for a wide range of historic preservation planning activities, including surveys, nominations to the National or State registers of Historic Places, pre-development studies, heritage tourism and other planning documents. With state funds provided by the Community Investment Act, SHPO awards S&P grants of up to \$20,000 on a competitive basis. Applications are accepted on a continuing basis as long as grant funds are available. Non-profit organizations or municipalities may have only one active S&P grant at a time.

During FY 2016 SHPO awarded 8 projects a total of \$167,650 in S&P grants.

Table 52: FY 2016 Historic Preservation Survey & Planning Grants				
Entity	Contract Award Date	Contract Expiration Date	Total Project Cost	FY 2016 Grant Award
Amistad Committee	9/2/15	10/31/16	50,400	50,400

7. Threatened Properties Fund Grants (TPF)

TPF grants provide financial assistance for historic resources which have been damaged by unanticipated man-made or natural acts and circumstances beyond the owner's control, including: acts of nature, fire,

vandalism, etc. TPF grants are available to Connecticut municipalities and 501(c)3 and 501(c)13 nonprofits to be used for the restoration or stabilization of Connecticut's historic resources which are listed in the State or National Registers of Historic Places. TPF grant applications are matching grants; however, the match can be waived upon request and will be reviewed by SHPO on a case-by-case basis. Project work must be consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties. A preservation restriction of limited duration must be able to be recorded on the property.

No TPF grants were awarded during FY 2016

8. Historic Restoration Fund (HRF)

HRF grants provide financial assistance for the rehabilitation, restoration, stabilization, or acquisition of historic properties listed on the State or National Registers of Historic Places. The property must be owned by a municipality or a 501(c)(3) or 501(c)(13) nonprofit organization and the grant awards are paid as a onetime reimbursement. Applications are accepted once a year. The grant awards range from \$5,000-\$50,000. All work must meet the Secretary of the Interior's Standards for the Treatment of Historic Places. A preservation restriction or easement of limited duration must be placed on the property following completion of the project.

During FY 2016 SHPO funded awarded 1 HRF grant.

Table 53: FY 2016 Historic Restoration Fund Awards

D. Connecticut Office of the Arts (COA)

1. Arts & Community Impact (ACI) Grants

The ACI Program funds projects that create or sustain a meaningful relationship with non-arts stakeholders to effectively connect the intrinsic value of the arts to identifiable community needs, interests or opportunities. COA provided funding support to eight (8) organizations under this program in FY 2016. The total amount granted through the Arts & Community Impact program was \$155,001.

Table 54: FY 2016 ACI Grants		
Town	Grantee	Amount
Hartford	Community Partners in Action	\$14,865
Mystic	Emerson Theater Collaborative	\$14,865
Stamford	Intake Organization	\$31,609

5. Artist Fellowship

The Artist Fellowship Program encourages the continuing development of Connecticut artists. The program offers competitive grants to Connecticut artists and enables them to set aside time to pursue their work and achieve specific creative and career goals. For FY 2016, COA awarded a total of \$50,000 to fifteen (15) artists through the Artist Fellowship program.

Table 58: FY 2016 Artist Fellowship Grants

6. The Connecticut Arts Endowment Fund

The Arts Endowment Fund was established by the State of Connecticut to stimulate the development of private sector funding and help stabilize arts institutions. Interest earned on the Fund's principal is distributed annually to Connecticut non-profit arts organizations which have received a minimum of \$25,000 in contributions from non-governmental sources in each of the last two years. Grant awards are calculated based on a mathematical formula that rewards those organizations reporting a substantial increase in the amount of private sector contributions received during the prior year. Organizations may use funds for capital projects, general operations, programming, or to build their own endowments. For FY 2016, 130 organizations received funding support totaling \$385,297 through the Arts Endowment Fund program.

Table 59: FY 2016 Arts Endowment Program

7. Designated Regional Service Organizations (DRSO)

The Office of the Arts partners with **Designated Regional Service Organizations** that serve as local field offices to constituents and citizens. This statewide Network plays a key role that is mutually beneficial to the state's citizens and the creative economy, the regional arts and cultural infrastructure, and COA's goals, programs, and services. These service organizations support Connecticut's economy and provide arts and cultural leadership at both the regional and state level. In FY 2016 COA provided an aggregate total of \$237,882 to our regional partners.

Table 60: FY 2016 Designated Regional Service Organizations		
Town	Recipient	Amount Awarded

9. Good to Great Grant Program

The Good to Great Program is a pilot program funded through Public Act 14-98 and provides grants to not-for-profit organizations that sponsor cultural and historic sites in Connecticut. Priority for funding is for small-to-medium-sized organizations with a 3-year average annual income of \$500,000 or less. Funds can be used for capital improvements that link art, history and tourism in ways that enable cultural and historical sites to become more compelling to residents and visitors. For FY 2016, nineteen (19) organizations received funding support totaling \$1,802,386 through the Good to Great pilot program.

Table 62: Good to Great Grant Program FY 2016 Activity		
Grantee	Amount	Town
Fairfield Museum and History Center	\$125,000	Fairfield
Noah Webster House & West Hartford Historical Society	\$125,000	West Hartford
Wilton Historical Society	\$125,000	Wilton
I-Park	\$110,000	East Haddam
The Institute Library	\$125,000	New Haven
P.L.A.C.E.	\$60,000	Hamden
Hygienic Art	\$125,000	New London
Kidsplay Children's Museum	\$125,000	Torrington
