

RE: Financial Assistance Annual Report

In accordance with Section 32-47a of the General Statutes of the State of Connecticut, I am pleased to submit the fiscal year 2023 annual financial assistance report for Connecticut Innovations, Incorporated (CI). This report covers information for all new and outstanding financial assistance provided by CI to recipients between July 1, 1990 and June 30, 2024.

CI's job creation or retention requirements call for each recipient of financial assistance to use their best efforts to create jobs and employ Connecticut residents. It is required that each recipient of financial assistance maintain a Connecticut presence.

Job numbers reported at 6/30/2024 are derived from filings with the Department of Revenue Services (i.e.: UC-5a, UC-2, or other filings). For companies with 5 jobs or less company reported data is used. For Companies that have reported more than 5 jobs that did not submit a DOL filing, CI will continue to pursue said DOL filings to validate jobs reported. To this end, CI and DOL are in the process of finalizing a Data Sharing Agreement. In addition, CI will also review financial statements, conduct site visits, and use historical data to validate job numbers. Companies that have no jobs are early-stage companies where only contractors are used rather than FTE's. Job numbers reported for companies using a direct filing with DRS are validated by an Independent Certified Public Accountant.

The economic benefit criteria used in determining which applications are approved are as follows:

- Formation and development of emerging technology companies with high potential to grow and create employment and vendor opportunities in Connecticut.
- Expansion of the level of economic activity and related employment and vendor activity by emerging technology companies in Connecticut.
- Retention of existing jobs in Connecticut.
- Attraction of new high technology businesses and workers to Connecticut.
- Stimulation of university/industry collaborations to foster the development and transfer of new technology to create and expand, as well as to increase, enhance and update the capacity of businesses in Connecticut.
- Leveraging of non-state investment in high tech enterprises in Connecticut.
- Review of the credit risk and compare it to the economic benefit received.
- Review of the financial strength of the recipient.

The audited financial statements for CI may be found on our website [www.ctinnovations.com](http://www.ctinnovations.com).

Please feel free to contact me at (860) 258-7822 should you have any questions.

Sincerely,

*Philip Siuta*

Philip B. Siuta  
Senior VP and Chief Financial Officer

**CONNECTICUT INNOVATIONS**  
**2024 ANNUAL REPORT**  
**CGS 32-47a**

**Connecticut Innovations  
Year End June 30, 2024  
Legislative Report CGS - 32-47a**

**Section 1** – Name, Address, Location, Business Activity, Standard Industrial Classification Manual Code, minority or woman owned status, type and amount of financial assistance, amount leveraged by assistance, job creation or retention requirements, and high performance organization status of any new or outstanding financial assistance.

**Section 2** – Total number of employees at application, number of jobs at application to be created and total current jobs. A comparison of the total number of jobs retained and the total number of jobs at application and total number of jobs created as compared to the number of jobs to be created for any new or outstanding financial assistance.

**Section 3** – Gross Revenue Information

**Section 4** – Average Wage rates at application for retained jobs and average anticipated wage rate at application for jobs to be created, as compared to current average wage rates for retained jobs, and current average wage rates for created jobs.
