Jewel Mullen, MD, MPH, MPA
Commissioner

ESTIMATED POPULATIONS IN CONNECTICUT AS OF JULY 1, 2011

Population estimates of Connecticut’s eight counties and 169 towns for 2011 were prepared for distribution by the Connecticut Department of Public Health (DPH), Health Care Quality, Statistics, Analysis, and Reporting Unit, within the Division of Health Information Systems Reporting. These estimates constitute the basis of birth, death, and other population-based rates for 2011 and forward.

Method of Estimation

County and Town Estimates

County and town population estimates for July 1, 2011 were released by the U.S. Census Bureau’s (USCB) Population Estimates Program on June 28, 2012.^(1,2) These USCB figures were adopted for the state’s town-level estimates. The method used by the USCB to calculate sub-county population estimates is described in detail at <http://www.census.gov/popest/methodology/2011-su-meth.pdf>.

2011 Population Estimates

The July 1, 2011 population estimate for the state of Connecticut is 3,580,709. The 2011 estimate was 2,864 higher than the July 1, 2010 population estimate of 3,577,845.^(3,4) Population estimates for Connecticut’s counties and towns are given in the attached table.

ESTIMATED POPULATION OF CONNECTICUT AS OF JULY 1, 2011

Estimated Population	Change in Population, 2010-2011	
	Number	Percent
3,580,709	+2,864	+0.08%

Notes:

- (1) Table 4. Annual Estimates of the Resident Population for Minor Civil Divisions in Connecticut, by County: April 1, 2010 to July 1, 2011 (SUB-EST2011-04-09), Population Division, U.S. Census Bureau, Release Date: June 28, 2012.
- (2) The April 1, 2010 Population Estimates base reflects changes to the 2010 Census population from the Boundary and Annexation Survey (BAS) and other geographic program revisions. It does not reflect changes from the Count Question Resolution program. All geographic boundaries for the 2011 population estimates series are defined as of January 1, 2011. Additional information on these localities can be found in the Geographic Change Notes (see <http://www.census.gov/popest/about/geo/changes.html>).

- (4) July 1, 2010 population estimates were estimated by CT DPH in 2011 (as described below) and may be slightly higher or lower than the USCB's estimate for July 1, 2010 published on June 28, 2012. The April 1, 2010 Census count was used as the base population figure for each town. The change in population for the three months between April 1, 2010 and July 1, 2010 was estimated by calculating the "natural increase" in population (i.e. births minus deaths) and the estimated net migration during this period. Three-month birth and death counts were based on tabulations of provisional 2010 birth and death files. Net migration was estimated for each town based on the population change and the natural increase in population over the last decade (2000-2010). The estimated three-month population change was added to the base April 1, 2010 population figure for each town to calculate the July 1, 2010 population estimate.
