

**JULY 2024** 

## 20BY26 PROGRESS REPORT: GOALS 1-10

July 23, 2024 | Gina McCarthy Auditorium and Zoom

## **TODAY'S PRESENTATION**

### I. Introduction

20BY26 Initiative recap

### II. 20BY26

- Progress on Goals 1-10
- Celebration of Achievements
- Four New Goals

### **III. Next steps**

- All Hands September: Goals 11-20
- Quarterly progress report

IV. Q&A

### HOUSEKEEPIING

- 1. This meeting is being recorded. A link to the recording and a copy of this presentation will be posted on the Intranet.
- 2. Please mute/disable your microphones and webcams.
- 3. You can submit questions to the moderator via the Q&A button at the bottom of your screen.

### **Visit the 20BY26 WEBPAGE**

- Read DEEP's kickoff report: <u>20BY26, Setting the Target: CT DEEP 2026 Goals</u> (Feb. 2024)
- Read DEEP's first progress report coming soon! (July 2024)
- Questions & Comments? Email: <u>DEEP.20by26@ct.gov</u>
- Sign up for email updates <u>HERE</u>

### ADOPT RELEASE-BASED CLEANUP PROGRAM REGULATIONS TO MODERNIZE CONNECTICUT'S ENVIRONMENTAL CLEANUP FRAMEWORK

### WHY

Match framework of 48 other states, safeguard environmental protection, reduce regulatory burden for lower-risk releases, expedite cleanup

### STRATEGY

In partnership with DECD, cochair working group and collaborate with stakeholders to finalize new regulations and secure formal adoption

### **METRICS**

- About the Release-Based Approach to Cleanup
- Interactive Graphic displaying "First Year Roadmap"

## ADOPT RELEASE-BASED CLEANUP PROGRAM REGULATIONS TO MODERNIZE CONNECTICUT'S ENVIRONMENTAL CLEANUP FRAMEWORK

## WINTER/SPRING 2024 PROGRESS DETAILS

- December 2023 -> Draft regulations shared with Working Group
- Throughout Winter 2024 -> Broad public outreach on draft regulations
- February 2024 -> DEEP Question & Answer session for Working Group members
- March 2024 -> Working Group provides written comments on draft regulations to DEEP
- Spring 2024 -> DEEP incorporated changes to draft regulations, based on Working Group comments and discussions with other stakeholders
- DEEP will share revised draft regulations with the Working Group prior to initiating the <u>formal regulation adoption process</u>, pursuant to <u>CGS section 22a-134tt</u>.

## ADOPT RELEASE-BASED CLEANUP PROGRAM REGULATIONS TO MODERNIZE CONNECTICUT'S ENVIRONMENTAL CLEANUP FRAMEWORK

### **CURRENTLY-ANTICIPATED TIMELINE**

# ACHIEVE 90% ON-TIME COMPLETION RATE FOR CRITICAL PERMIT APPLICATIONS

#### WHY

Continued tracking of permit processing time will provide more predictability for applicants and provide insight on staff resources

### **STRATEGY**

Provide additional permit application assistance, continued reporting through Permitting Timeframes

Dashboard, identify challenges, develop solutions

### **METRICS**

Achieve 90% on-time completion for applications in the 3-month category (55 permits covered); regain 80% for others

**PROGRESS** 

- Reviewed <u>permit processing timeframes</u> and recategorized to better accommodate external factors
- Identification of Successes, Challenges, and Solutions
- New <u>Contacts webpage</u>

# ACHIEVE 90% ON-TIME COMPLETION RATE FOR CRITICAL PERMIT APPLICATIONS

## WINTER/SPRING 2024 PROGRESS DETAILS

## **Successes**

- 3/7 divisions processing ≥ applications received
- Q12024 2/7 divisions hit 90% goal for 3-mo category
- New <u>Contacts webpage</u>

## Challenges

- 6-mo and 12-mo need improvement
- Of the 5 divisions with permits in 6-mo category, 1 reached 80%

## **Solutions**

- Renewal and modification of Water Resources Construction GP NTD
- Technical Workshops on the proposed Small Municipal Separate Storm Sewer Systems (MS4) GP

Timeframe (months)	3	6	12
AIR (Air Engineering)	89%	38%	None due
ERSP (Emergency Response & Spill Prevention)	None due	NA	NA
LWRD (Land & Water Resources)	78%	22%	NA
REMED (Remediation)	0	NA	0
WEED (Waste Engineering & Enforcement)	99%	None due	15%
WPED (Water Permitting & Enforcement)	78%	88%	25%
WPMD (Water Planning & Management)	43%	75%	None due

### 20BY26 GOAL 3

## REDUCE THE "LEGACY" PERMIT APPLICATION BACKLOG

WHY

Further enhancement of regulatory certainty

### **STRATEGY**

Continue to reduce backlog of permits older than 5 yrs, to track reduction through the <a href="Legacy Permit Dashboard">Legacy Permit Dashboard</a>, to assess and manage staff

resources

**METRICS** 

65% reduction in backlog by 2026

- Added legacy permit applications from 2017 and 2018 to the existing universe
- Identification of Successes, Challenges, and Solutions

**PROGRESS** 

# REDUCE THE "LEGACY" PERMIT APPLICATION BACKLOG

## WINTER/SPRING 2024 PROGRESS DETAILS

## **Successes**

- Starting Point: 331 legacy permit apps, 223 processed (67%)
- By end Q1 2024: 507 legacy permit apps, 348 processed (69%)
- 159 legacy permit apps remaining for 2024

	pre- 2017	2017	2018	Legacy Percent Reduction for pre-2019 as of 3/31/24
# Legacy permits	331	60	116	507
# Processed as of 3/31/24	223	41	84	348
% Processed as of 3/31/24	67%	68%	72%	69%

 Balancing legacy permit application processing with processing of incoming permits, enforcement, and compliance actions

Improvement in Goal 2 processing of incoming permits, also improves metrics for Goal 3.

## STRENGTHEN ENFORCEMENT RESOURCES

### WHY

Increase transparency on noncompliant facilities, especially in communities overburdened with environmental stressors

### **STRATEGY**

Ensure consistency across enforcement programs, inclusion of equity and environmental justice in decision-making

### **ACTIONS**

- Key policy updates
- Enforcement mapping and screening
- Increase enforcement staffing

- Created Enforcement Data viewer for formal actions
- GMAP deployment in Hartford/ East Hartford
- WPED's Noncompliance Reporting Platform

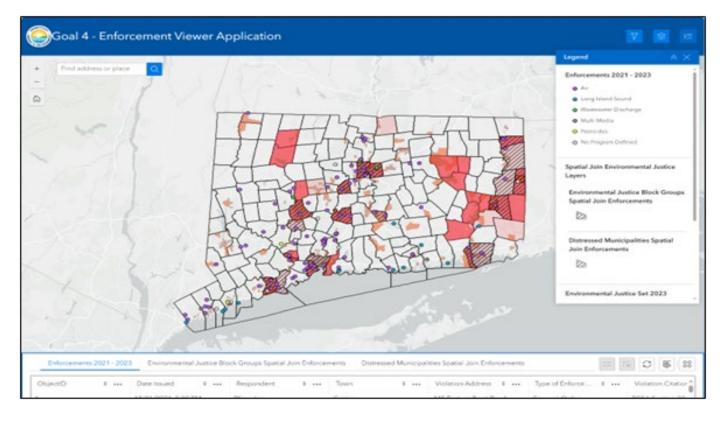

### **PROGRESS**

## STRENGTHEN ENFORCEMENT RESOURCES

## WINTER/SPRING 2024 PROGRESS DETAILS

DEEP's new **Enforcement Viewer Application** of formal enforcement actions from 2021 onward

- Users can:
  - toggle layers off and on, including an <u>Environmental Justice Communities</u> <u>layer</u>
  - filter enforcement actions by program
  - export entire or filtered subsets
- Future state will include municipallyaggregated public complaints that have resulted in inspections (no specific addresses)

## STRENGTHEN ENFORCEMENT RESOURCES

## WINTER/SPRING 2024 PROGRESS DETAILS

### WPED's new <u>online</u> noncompliance reporting <u>platform:</u>

- Single point of entry for self-reporting
- 266 reports received since launch
- Staff can review, triage, and respond in real time
- Identification of sectors that could use additional compliance assistance

### <u>Geospatial Measurement of</u> <u>Air Pollution (GMAP):</u>

- Toured Hartford and East Hartford in Spring 2024
- Mobile monitor used to pinpoint elevated ambient air pollution

## **EXPAND COMPLIANCE ASSISTANCE**

### WHY

Provide greater compliance assistance in sectors with higher noncompliance

### **STRATEGY**

Assess sectors of noncompliance, create additional tools to assist in complying

### **ACTIONS**

- Central hub for compliance assistance info
- FAQs for common violations and solutions
- Updated guidance on stormwater and waste organics
- Online complaint intake system to make it easier to report potential concerns

- Compliance Engagement meetings with stakeholders
- Agency-wide Complaint Intake Systems development

## **EXPAND COMPLIANCE ASSISTANCE**

## WINTER/SPRING 2024 PROGRESS DETAILS

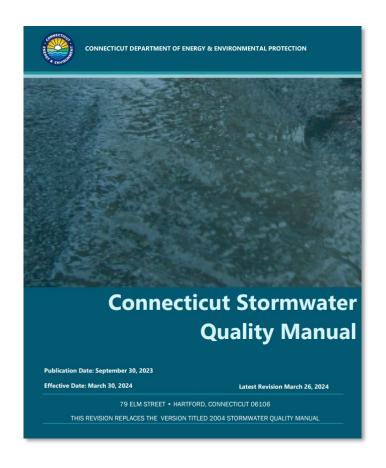

### **Compliance Assistance:**

LWRD hosted a public Q&A on their recently updated <u>Beach Association</u>
 <u>Guide to Coastal Activities and Permitting and Coastal Property Owner's</u>
 <u>Guide (ct.gov)</u>

Several divisions updated their **public complaint intake systems**:

- LWRD pilots Survey 1-2-3 for EQ
- Air Bureau complaint system

DEEP completed the <u>Stormwater Quality Manual</u> and the <u>Guidelines on</u> <u>Soil Erosion and Sediment Control</u>, both effective March 30, 2024.

### 20BY26 GOAL 6

## ENHANCED FINANCIAL ASSURANCE TRACKING & MANAGEMENT

### WHY

Provide predictability and consistency in financial assurance mechanisms used across various DEEP programs

### **STRATEGY**

Standardize the menu of instruments available and provide centralized information for users

### **ACTIONS**

- Standardize the menu of financial assurance tools
- Develop a new financial assurance webpage hub
- Provide regulatory clarity on which tools are appropriate for each program

Internal SOP on FA

**PROGRESS** 

## COLLABORATIVELY DEVELOP REGULATIONS THAT IMPLEMENT RECENT ENVIRONMENTAL JUSTICE REFORMS

#### WHY

Successful implementation of landmark environmental justice reforms requires a predictable timetable and transparent process

### **STRATEGY**

Work with communities
and regulated entities
to design and adopt
regulations that assess the
cumulative environmental and
health impacts of affecting
facilities in EJ communities

### **ACTIONS**

- Public listening sessions and stakeholder workshops
- Request for Proposals in early 2024 to develop the "cumulative impacts tool"
- Dedicated website for rulemaking process
- Draft rules for public comment in late 2025

- Informational Sessions
- Development of Regulatory Concepts
- **PROGRESS**
- Establishing a Community Advocates Task Force

## COLLABORATIVELY DEVELOP REGULATIONS THAT IMPLEMENT RECENT ENVIRONMENTAL JUSTICE REFORMS

### **Information Sessions**

## **Regulatory Concepts**

Identification/Measurement of Stressors

Geographic Points o Comparison

Public Health and Environmental Stressors Tool

Standards for Denying/Placing Conditions on Permits

Public Participation Plan, Report

### **Advocates Task Force with**

20BY26 GOAL 7

## COLLABORATIVELY DEVELOP REGULATIONS THAT IMPLEMENT RECENT ENVIRONMENTAL JUSTICE REFORMS

September 2024

Introductory Meeting Upcoming
Stakeholder Engagement

**Five Workshops** 

deep.ejrulemaking@ct.gov

2025

Wrap-Up Meeting

## **EFFECTIVE PARTICIPATION FOR EQUITY AND ENVIRONMENTAL JUSTICE**

Expanded public participation and access to permitting processes keeps communities informed and facilitates more equitable outcomes

### STRATEGY

Provide guidance for public participation requirements and make EJ plans and community benefit agreements easily available to the public Our Commitment to **Environmental Justice** 

**PROGRESS** 

- Public Participation Guidance document
- Permitting Flow Chart
- **Public Participation Checklist**

### **ACTIONS**

- Publish <u>new webpage</u> with guidance on participation in permitting process
- Make EJ documents available on CT Open Data Portal for easy access
- Create tools to facilitate engagement and highlight opportunities for public participation in DEEP's programs

### **20BY26 GOAL 8**

## EFFECTIVE PARTICIPATION FOR EQUITY AND ENVIRONMENTAL JUSTICE

CT.gov Home / Department of Energy & Environmental Protection / Environmental Justice / Participate in the Permitting/Policy Process

DEEP is eager to engage the community in its permitting and policymaking process. Whether you're seeking a permit, want to share your opinions about potential permits that could affect your area, or want to help shape environmental policy, we are here to listen and to assist you in any way possible.

#### **About the Permitting Process**

We encourage all potential participants, or stakeholders, to understand how the permitting process works so they can better engage in this process. Here are a few resources you may find helpful:

- · Overview of the Permitting Process
- Permit Process Flowchart \( \frac{\pi}{2} \)
- Permitting Checklist for Applicants \( \frac{\pi}{2} \)
- Environmental Equity Checklist for Permit Applicants \( \frac{\pi}{2} \)

#### How to Engage the Surrounding Community

Keep in mind that before any permit applications can be filed that involve applicable facilities in Environmental Justice Communities, an Environmental Justice Plan must be submitted for review by email to Edith Pestana of the Environmental Justice Program at edith.pestana@ct.gov.

Here are some additional resources that may be helpful in putting together your Environmental Justice Plan:

- Overview of Environmental Justice Communities
- Environmental Justice Affecting Facilities Web Map
- Demographics and Affecting Facilities Web Map
- Environmental Justice Public Participation Plan Forms (Word Version

#### Connecticut Environmental Justice Public Participation Guidance Document 2024

#### 

#### INTRODUCTION

ecticut adopted in 2009 one of the country's first statutes that places ommental justice ["Ef"] requirements on DEEP permitting activities and Sitting cil certificates. Ser Connecticut General Statutes ["CGS"] § 22a-20a. The law has greatly successful and continues to evolve with the times.

 $Effective\ October\ 1,2023, \underline{Public\ Act\ 23-202}\ updated\ \S\ 22a-20a.\ This\ guidance$  document lays out the EJ law's requirements, and highlights what is new in 2023.

Environmental Justice Public Participation Guidance Document 2024

### **Guidance Document**

### 20BY26 GOAL 9

## **ENHANCED PUBLIC RECORDS TRANSPARENCY**

#### WHY

To prioritize the IT needs of the agency for records management and increase public records transparency

### **STRATEGY**

Complete document digitization and integrate records management with efiling and data management functions

### **ACTIONS**

- Digitize other large records sets (Remediation, USTs, PCBs) for the <u>Document Online Search Portal</u>
- Create additional map viewers for data transparency
- Create seamless Freedom of Information Act (FOIA) and Digital Records Center that directs FOIA requests through <u>GovQA</u> and the <u>CT Open Data Portal</u>

- Remediation Digitization Complete
- FOIA and Records Center Integration
- Publication of numerous map viewers

## **ENHANCED PUBLIC RECORDS TRANSPARENCY**

## WINTER/SPRING 2024 PROGRESS DETAILS

### **IMPROVED FOIA AND RECORD REQUEST PROCESS:**

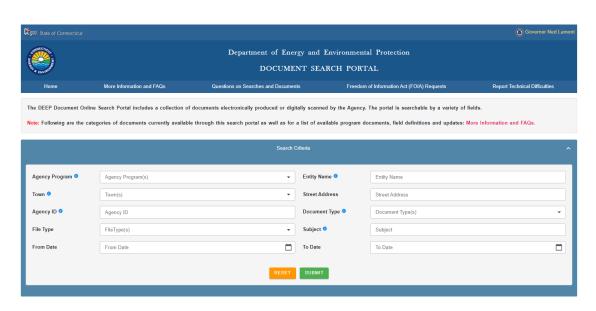

- Records Center online requests are entered into GovQA
- Internal training on GovQA with Lunch and Learn

### **RECORDS DIGITIZATION:**

- Remediation Division scanning complete!
- LUST and PCB scanning projects in progress
- Developing plan for future scanning lineup

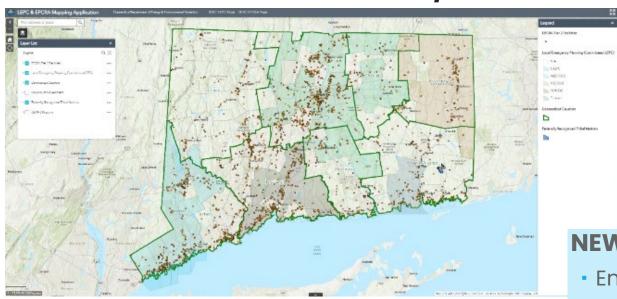

#### **ONLINE RECORDS CENTER:**

- Enhanced Document Search Portal
- 5-Minute Getting Started with the Document Search Portal <u>Video Tutorial</u>

## **ENHANCED PUBLIC RECORDS TRANSPARENCY**

## WINTER/SPRING 2024 PROGRESS DETAILS

### **NEW MAP VIEWERS**

- Environmental Justice Mapping Tool 3.0
- Procedures for continuously updating the DEEP GIS property layer
- Brownfield sites GIS mapping application
- Emergency Planning and Community Right-to-Know Act (EPCRA) Map Viewer

## **EXPAND TOOLS FOR ONLINE SERVICES**

### WHY

To prioritize the IT needs of the agency for e-filing and data management, and to realize big customer benefits through modern systems

### **STRATEGY**

Integrate e-filing and data management systems with records management

### **ACTIONS**

- Adopt an industry-leading platform on which to build solutions for cleanup-based data management and payment, permit, and document submittal
- Install a streamlined docket system for adjudications work

- Investment in Salesforce Platform
- Development of framework for pollution release reporting system

### **PROGRESS**

## IMPROVE EFFICIENCY AND EFFECTIVENESS OF NDDB REVIEW

Increase the efficiency and effectiveness of the Natural Diversity Database review process for all stakeholders

Build upon DEEP's new e-NDDB
Portal to strengthen the
efficiency and predictability of
NDDB response and review time

- Identify sub-optimal components of the submission and review process
- Identify priority program needs
- Gather stakeholder feedback
- Identify process and conservation outcome improvements with a schedule for implementation

## ENHANCING DAM SAFETY THROUGH IMPROVED PERMITTING FOR REPAIR AND REMOVAL

Importance of dam safety to public safety/property and environmental and ecological health

### **GOALS**

Maintain public safety and provide environmental benefit for private and state-owned dams; improve climate resiliency, ecological and human health, and water quality; reduce permitting timelines by expanding streamlined permitting; and increase protection of drinking water supplies

- Initiate a joint dam safety advisory group with interested stakeholders
- Expand general permit eligibility for broader range of dam related work.
- Continued focus on state owned dams (under DEEP's oversight) to comply with applicable requirements
- Develop sediment management guidelines (focus on lightly polluted sediment to align with updates to RSRs)

## **ESTABLISH EQUITY HUBS**

Address the need for community-based services and support related to DEEP's programs and initiatives in underserved communities.

Build DEEP's capacity to listen and engage with communities by focusing on key challenges, needs, and opportunities around health disparities, access to clean energy, community resilience, and equitable support

- Facilitate educational events and funding workshops
- Share environmental data and energy-efficiency solutions
- Assist with state and federal grants

## **DEVELOP A METRICS DASHBOARD**

Add transparency and awareness to DEEP's efforts to reduce greenhouse gases and reach CT's carbon reduction goals by 2040

Create a metrics dashboard to support energy, waste, and climate mitigation sectors; share opportunities for stakeholder engagement; empower residents to join in DEEP actions

- Display Quantity of EVs and charging stations; battery storage and solar capacities; tonnage of food scraps diverted; acres of urban tree cover; and more...
- Update <u>CT's 2015 Waste</u>
   <u>Characterization Study</u>
