

2020 Forecasted Unhealthy Ozone Days

The table below is the current list of forecasted days to have ozone Air Quality Index (AQI) levels of Unhealthy for Sensitive Groups (USG), or worse, anywhere in Connecticut.

Month	Day	Day of the Week
April		None Forecast
May		None Forecast
June	9	Tuesday
June	22	Monday (upgraded)
July	19	Sunday
July	20	Monday (upgraded)
July	26	Sunday
July	27	Monday
July	29	Wednesday
August	5	Wednesday
August	10	Monday
August	11	Tuesday
August	12	Wednesday
August	21	Friday
August	24	Monday

*On a day marked with an *, the initial prediction of ozone conditions of "Moderate to Unhealthy for Sensitive Groups", or greater was revised to either "Good", or "Good to Moderate" or "Moderate" by 3 P.M. Therefore, on these days the regulated community is allowed to operate emergency engines, or other regulated equipment, after **3 P.M.** on that given day.

**On these days, the initial prediction of ozone conditions of "Moderate", was revised to "Moderate to USG, or greater" the following morning by 10 AM. Therefore, on these days the regulated community would still be allowed to operate emergency engines (or other regulated equipment) on that given day. However, CT DEEP requests voluntary restrictions on regulated engines to assist in reducing ozone formation during the afternoon hours that same day.
