

2022 Forecasted Unhealthy Ozone Days

The table below is the current list of forecasted days to have ozone Air Quality Index (AQI) levels of Unhealthy for Sensitive Groups (USG), or worse, anywhere in Connecticut.

Month	Day	Day of the Week
April	-	None Forecasted
May	21	Saturday
June	25	Saturday
June	26	Sunday
July	1	Friday
July	20	Wednesday
July	21	Thursday
July	22	Friday
July	23	Saturday
July	24	Sunday
July	27	Wednesday
August	2	Tuesday
August	4	Thursday
August	5	Friday
August	9	Tuesday
August	20	Saturday
August	23	Tuesday
September	-	None Forecasted

*On a day marked with an *, the initial prediction of ozone conditions of "Moderate to Unhealthy for Sensitive Groups", or greater was revised to either "Good", or "Good to Moderate" or "Moderate" by 3 P.M. Therefore, on these days the regulated community is allowed to operate emergency engines, or other regulated equipment, after **3 P.M.** on that given day.

**On these days, the initial prediction of ozone conditions of "Moderate", was revised to "Moderate to USG, or greater" the following morning by 10 AM. Therefore, on these days the regulated community would still be allowed to operate emergency engines (or other regulated equipment) on that given day. However, CT DEEP requests voluntary restrictions on regulated engines to assist in reducing ozone formation during the afternoon hours that same day.
