

## 2023 Forecasted Unhealthy Ozone Days

The table below is the current list of forecasted days to have ozone Air Quality Index (AQI) levels of Unhealthy for Sensitive Groups (USG), or worse, anywhere in Connecticut.

Month	Day	Day of the Week
April	14	Friday
May	-	None Forecasted
June	1	Thursday
June	2	Friday
July	1	Saturday
July	5	Wednesday
July	12	Wednesday
July	26	Wednesday
July	27	Thursday
July	28	Friday
August	-	None Forecasted
September	6	Wednesday
September	7	Thursday

\*On a day marked with an \*, the initial prediction of ozone conditions of "Moderate to Unhealthy for Sensitive Groups", or greater was revised to either "Good", or "Good to Moderate" or "Moderate" by 3 P.M. Therefore, on these days the regulated community is allowed to operate emergency engines, or other regulated equipment, after **3 P.M.** on that given day.

\*\*On these days, the initial prediction of ozone conditions of "Moderate", was revised to "Moderate to USG, or greater" the following morning by 10 AM. Therefore, on these days the regulated community would still be allowed to operate emergency engines (or other regulated equipment) on that given day. However, CT DEEP requests voluntary restrictions on regulated engines to assist in reducing ozone formation during the afternoon hours that same day.
