Ira Leighton, Acting Regional Administrator U.S. Environmental Protection Agency EPA New England Regional Office One Congress Street, Suite 1100 (Mail Code CAQ) Boston, MA 02114–2023

Re: Adequacy Determination of the Connecticut State Implementation Plan with Regard to Clean Air Act Section 110(a)(1) and (2) for the 2006 Fine Particulate Matter National Ambient Air Quality Standard

Dear Administrator Leighton:

Pursuant to Clean Air Act (CAA) Section 110(a)(1) and (2), all states are required to submit plans to implement, maintain and enforce the 2006 fine particulate matter (PM<sub>2.5</sub>) national ambient air quality standard (NAAQS), including such basic requirements as emissions inventories, monitoring and modeling to assure attainment and maintenance of the standards. On October 2, 2007, the U.S Environmental Protection Agency (EPA) issued guidance on compliance with the non-transport-related or infrastructure requirements of CAA Section 110(a)(2) with regard to the 1997 PM<sub>2.5</sub> and ozone NAAQS.<sup>1</sup>

As set out in Table 1 below, Connecticut's State Implementation Plan, as identified in 40 CFR 52, subpart H and as supplemented by the 1997  $PM_{2.5}NAAQS$  attainment demonstration<sup>2</sup> submitted to EPA on November 18, 2008, satisfies the fourteen required CAA Section 110(a)(1) and (2) infrastructure requirements for the 2006  $PM_{2.5}NAAQS$ .

We look forward to working with EPA as a critical partner in our continuing mission to conserve, improve and protect the environment and public health for the citizens of Connecticut. If you require additional information or have any questions about this submission, please contact Anne R. Gobin, Chief, Bureau of Air Management at 860-424-3026.

Yours truly,

men Marella

Amey W. Marrella Commissioner

cc: Anne Arnold, EPA Region 1 David Conroy, EPA Region 1 Anne R. Gobin, CTDEP

The document is available at:

<sup>&</sup>lt;sup>1</sup> The fourteen required infrastructure elements of CAA Section 110(a)(2) are described in an October 2, 2007 guidance memo from William Harnett, Director of EPA's Air Quality Policy Division.
