Changes to the Proposal

Emission Requirements

Elimination of the requirement to use AP-42 emission factors with a rating of D or better. RCSA section 22a-174-33b(d)(4)(E)(i).

(E) If the data in subparagraphs (A), (B), (C) and (D) of this subdivision are unavailable:

(i) The rate of emissions shall be calculated using the data or emissions estimation technique from the following EPA publications that results in the highest rate of emissions:

- (I) Compilation of Air Pollutant Emission Factors (AP-42),
- (II) AIRS Facility Subsystem Emission Factors, or
- (III) The Emission Inventory Improvement Program (EIIP), or

Changes to the Proposal

Monitoring Requirements

- Replacement of the option to use a “dedicated billing meter” to monitor fuel consumption with the option to use a “common billing meter.” RCSA section 22a-174-33b(e)(3).

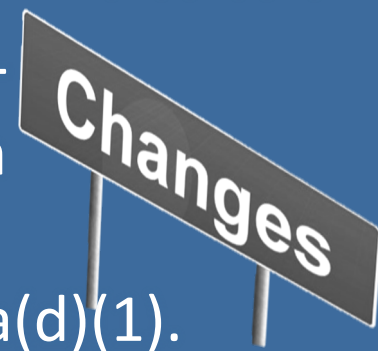

- Addition of a definition of the term “common billing meter.” RCSA section 22a-174-33b(a)(4).

Changes to the Proposal

Other Requirements

- **Notification Requirements** - Addition of language clarifying that operation under the proposed regulations shall be no earlier than November 9, 2020.
RCSA sections 22a-174-33a(g)(1)(E) and 22a-174-33b(h)(1)(E).
- **Emission and Record Keeping Requirements** -
 - Replacement of annual calendar year emission limitations with consecutive 12-month period emission limitations. RCSA section 22a-174-33a(d)(1).
 - And addition of the requirement to keep consecutive 12-month period emission records.
RCSA section 22a-174-33a(e)(2).

Next Steps

The proposal will be submitted to the Secretary of the State (SOTS) for publication on the Connecticut eRegulations Portal.

Next Steps

Sections 22a-174-33a and 22a-174-33b of the Regulations of Connecticut State Agencies become effective.
