Clean Cities

Our Mission

Clean Cities Coalitions, are designated by the U.S. Department of Energy's Vehicle Technologies Office. Seventy-five coalitions around the country foster the economic, environmental, and energy security of the United States by working locally to advance affordable, domestic transportation fuels, energy efficient mobility systems, and other fuel-saving technologies and practices.

First Responders NFPA Hybrid & Electric Vehicle Training

Sponsored by Greater New Haven Clean Cities and Capitol Clean Cities of CT, Inc.

Our 3rd and final First Responder Training will be held on January 13, 2023 at the New Haven Fire Academy. DATTCO will provide an electric school bus. These courses are very expensive and we'll have to seek other funding sources for future training in 2024 because Capitol Clean Cities and New Haven Clean Cities can no longer absorb the cost of each training which is \$4000.00 each.

CT Conference of Municipalities

The Clean Cities Collaborative attended the CCM Conference on 11/28/23 with a booth offering information on clean alternative fuels, infrastructure and the benefits of the Clean Cities program.

Capitol Clean Cities of Connecticut's Newsletter has a New Look

Our newsletter has a new look, with great stories, and was distributed in November.

New Partner Alert

We are working with new partner, RLE, to assist in helping underserved communities with new EV chargers at little or no cost.
