

# Capitol Clean Cities of Connecticut, Inc.

## Dealer EV Training

Provided by Capitol Clean Cities of CT, Inc.

We've been offering EV training to local dealers to assist dealers with getting registered for the CHEAPR and the Federal IRS incentives. We work with the sales and business managers along with their teams to encourage them to become more knowledgeable about the electric vehicles and incentives they offer. By having accurate and up to date information on incentives for their consumers, they'll build trust and increase sales.

## Sustainable Event Participation

We were invited to and participated in two sustainable events: CAPFEST in Frog Hollow and the Town of Coventry's Energy Fair. We distributed information on alternative fuels, infrastructure, the Clean Cities program, the CHEAPR program and Federal incentives. Both events were well attended.

## Propane Workshop

We held a propane workshop for the CT Association for Community Transportation and transit agencies. The event was headlined by the NE Sales Manager from Roush, Clean Tech, Cusson Automotive and Hocon Gas to answer questions and provide information. The event included a vehicle display including two of CT DOT's trucks.
