Re: Request for extension of public comment period on proposed GHG accounting updates

To Whom It May Concern,

The Partnership for Policy Integrity (PFPI) is a non-profit organization with expertise in carbon accounting methodologies for woody biomass energy.

We first became aware of the proposed changes to DEEP's greenhouse gas emissions accounting for the electric sector after being contacted by colleagues who attended the public meeting on October 26th. Given that carbon accounting is a highly technical discipline, PFPI respectfully requests that the comment period be extended from 30 days to 45 days (from November 9th, 2021 to November 24th, 2021).

This extension would ensure that PFPI has reasonable time to properly review the proposed changes, submit data, and present any arguments on the proposed updates. Thank you for your consideration.

Sincerely,

Laura Haight
U.S. Policy Director
