# Exploring Climate Solutions Webinar Series

## ***“No Net Loss of Forest”* Policy – Advice from Maryland and New Jersey**

December 17, 2020, Noon to 1PM

Gary G. Allen, President of the Maryland Forestry Foundation

Carrie Sargeant, Urban & Community Forestry Coordinator for the New Jersey Forest Service

Eric Sprague, Vice President for Forest Restoration at American Forests in Washington, DC

Eric Hammerling, Executive Director, Connecticut Forest & Park Association

Christopher Martin, Connecticut State Forester, DEEP Staff assistance to GC3 Forests Subgroup.

Connecticut Department of Energy and Environmental Protection

# Forests Sub-Group Members

- **Tim Abbott**, Housatonic Valley Association
- **Mark Ashton**, Yale School of Forestry & Environmental Studies
- **Patrick Comins**, Connecticut Audubon Society
- **Thomas Easley**, Yale School of Forestry & Environmental Studies
- **Robert Fahey**, UConn, Natural Resources and the Environment
- **Edward Faison**, Highstead
- **David Gumbart**, The Nature Conservancy – CT Chapter
- **Eric Hammerling**, Connecticut Forest & Park Association, Chair
- **Lisa Hayden**, New England Forestry Foundation
- **Charles Leigus**, Supreme Forest Products, Inc.
- **Amy Paterson**, Connecticut Land Conservation Council
- **Herb Virgo**, Keney Park Sustainability Project

\*\*With outstanding (!) support from **Rick Jacobson, Cary Lynch, Chris Martin, and Jaimeson Sinclair** at DEEP.

2020

## Forests Sub-Group Final Report

# Resilient Forests provide many benefits

Improve air quality

Reduce heat stress/shade

Climate adaptation & mitigation

Lower cooling & heating bills

Mental & physical health

Reduce stormwater/flooding

More livable communities

Wood products

Jobs/economic benefits

Wildlife habitat

Aesthetic beauty

More foot traffic for businesses

# Overarching Recommendation:

Establish a “No Net Loss of  
Forest (NNLF) Policy” for  
Connecticut

# “No Net Loss of Forest” Policy

- 1. Increase forest cover/tree canopy where needed**
- 2. Avoid losses/conversion of forest**
- 3. Protect and Steward resilient forests**
- 4. Mitigate “permitted” losses of forest/trees**
- 5. Monitor for forest/tree resiliency and carbon**

# No – Net Loss Policy Maryland

---

GARY G ALLEN

MARYLAND FORESTRY FOUNDATION

**60's to 90s Widely  
acknowledged concern**

**Forest loss over 1000  
acres a month**

**Legislative actions  
taken**

**By three different  
governors**

- ❖ 1992- Forest Conservation Act to REQUIRE forest mitigation of loss in All development (state work included)
- ❖ 2008 Sustainable Forestry Act - Policy -forests are preferred strategy to reduce pollution for the Chesapeake Bay (create SFC for ongoing input to Governor)
- ❖ 2013 No Net Loss policy goal adopted - state at estimated 40% forest cover

# Our process on No Net Loss

- Build on history - SFC
- Focus on continuing problem
- development new problem statement
- “white paper”
- Secure agency support and then Broad stakeholder consensus
- Agency bill in legislature leadership support for passage

# Policy elements and outcomes

- Clear statement BUT
- Not a mandate
- Baseline consensus
- Touchstone for future action
- Monitor and Report
- Local implementation

**Thank you for the opportunity  
to share our work in Maryland  
Stay safe !**

# NJ No Net Loss Reforestation Act

DEEP GC3 Climate Solutions Webinar - “No Net Loss of Forest” Policy  
Advice from Maryland and New Jersey

NJ URBAN & COMMUNITY FORESTRY

# Legal Framework

New Jersey No Net Loss (NNL) Compensatory Reforestation Act N.J.S.A. 13:1L-14.1 et. seq.

- Requires state entity submission of compensatory reforestation plans to New Jersey Forest Service (NJFS)
- Deforestation of one-half acre (0.5 ac/21,780 square feet) or more
- Land owned or maintained by the state entity

## **Intent**

- No net loss of “existing forested area”

## **Compensation**

- On-site planting
- Alternate site planting
  - Within affected municipality on state, municipal, or county lands
  - Within 5 miles on state/county/municipal lands
  - Within state on state lands
- Monetary compensation in-lieu of reforestation

## **Public Forum**

# Relevance

## NJ State Forest Action Plan

- “All-Trees” Mission
- Carbon Strategy

## Local Governments

- Home-rule
- Local NNL Ordinances

## Carbon 80 x 50 Strategy

# **Benefits of NNL of Forest Policies**

**Eric Sprague**

**American Forests  
Maryland Forestry Foundation**

AMERICAN FORESTS  
- SINCE 1875 -

## Inspires action

- City of Annapolis, Frederick County
- Statewide Forest Conservation Advocacy

## Informs State Planning

- State Forest and Wildlife Action Plans

**Guides Future Actions and Planning**

## Private landowner incentives

- Tax incentives, cost-share, mitigation banking, etc.

Forest products industry policies and incentives

**Supports Forest Conservation Goals**

# Tree Equity Score State of Rhode Island

## All State Urbanized Areas

**Tree Equity Score** is a way to measure how well a neighborhood, municipality or region is ensuring the benefits of urban tree canopy are reaching low income communities, populations of color and other populations that are particularly susceptible to extreme heat and other climate-related conditions.

Increasing your score means you're getting closer to creating Tree Equity in your neighborhood and Municipality.

**This map** highlights Tree Equity Scores by neighborhood, defined as Census Block Groups.

### Tree Equity Score

Range: 0 - 100

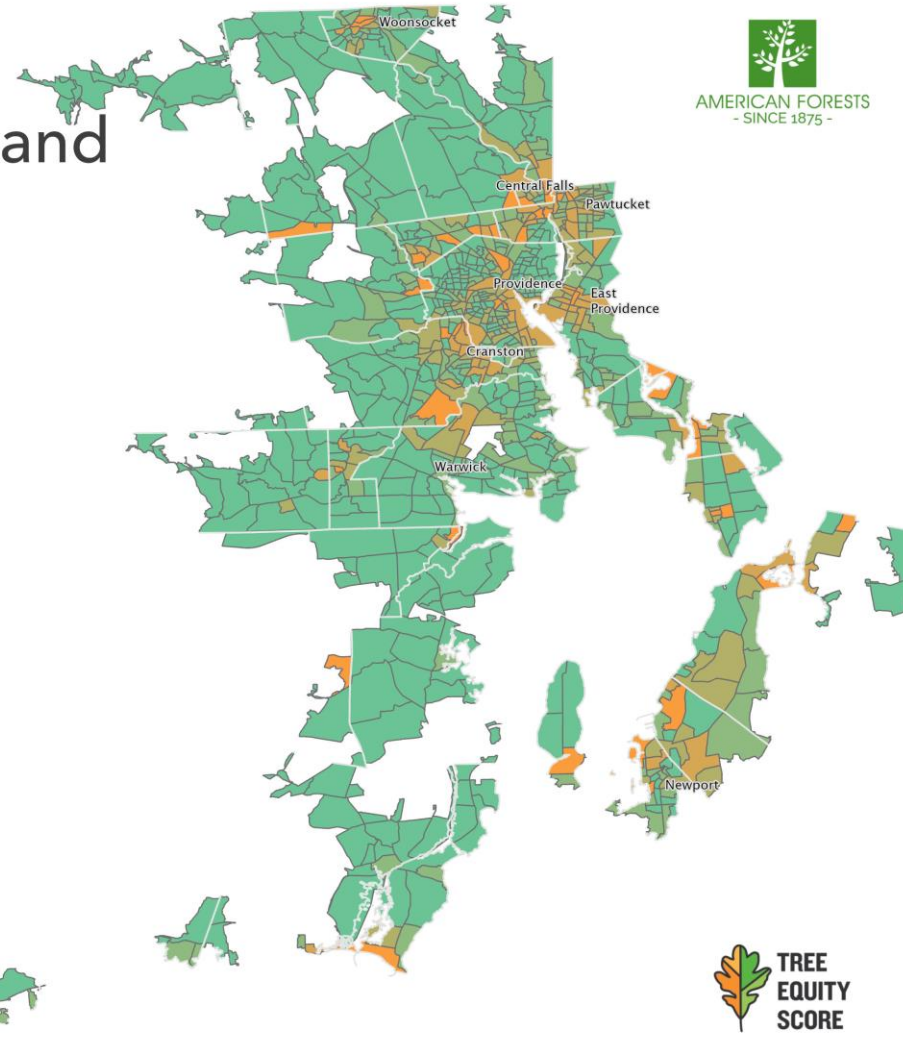

**Lower Score**  
*Needs more  
tree investment*

**Higher Score**  
*Less investment  
in trees needed*

Municipal Boundary

0 3 6 12  
Miles

© American Forests. For more information, visit [www.TreeEquityScore.org](http://www.TreeEquityScore.org). November, 6, 2020

# Design to Support Tree Equity

- Water quality/quantity
- Protecting and Enhancing the Carbon Sink

## Other Environmental Goals
