Washington Depot, CT 06794

RE: Approval of Ordinance Restricting the Use of Wake-Enhancing Devices on Lake Waramaug

Dear First Selectman Brinton:

Thank you for submitting the attached boating ordinance on August 7, 2025, to the Department of Energy and Environmental Protection (DEEP) for review pursuant to Connecticut General Statutes (CGS) Section 15-136(a). DEEP received identical ordinances from the towns of Kent, Warren, and Washington restricting the use of wake-enhancing devices on vessels being operated on Lake Waramaug.

After receiving the ordinance, the agency conducted a thorough review pursuant to its authority to disapprove any ordinance or part thereof that the Commissioner finds to be arbitrary, unreasonable, unnecessarily restrictive, inimical to uniformity, duplicative of any state law or regulation or inconsistent with the policy of Part II of Chapter 268, CGS. After applying each factor to the ordinance at issue here and considering a range of facts, such as those that follow, the agency did not find grounds for disapproval.

The ordinance is not arbitrary because, for example, the preamble to the ordinance indicates that the ordinance responds to concerns about increased use, safety risks, and environmental harms. The approach taken by the town is consistent with restrictions placed on a similar activity — waterskiing — on water bodies throughout Connecticut, some of which were enacted by municipal ordinances that the Department has found to be reasonable. Lake Waramaug lacks robust statewide public access, and so the ordinance is not as restrictive to statewide recreational users as it would be if employed at a water body with statewide motorized/trailer public access and use. All three towns submitted uniform ordinances to DEEP, thus the ordinance is not inimical to uniformity. Because Connecticut has not adopted any statutes or regulations specific to wakesurfing or wake enhancing devices in public waterbodies, the ordinance does not conflict with or duplicate state policy, nor does it create any inconsistency with the part of the CGS that addresses boating safety in particular.

DEEP will publish a summary of the new ordinance in its 2026 Boater's Guide pursuant to CGS Section 15-138, and upon such publication the ordinance will become effective. Alternatively, if you require that the ordinance becomes effective prior to the publication of the 2026 Boater's Guide – expected in February 2026 – your town must follow the posting requirements set forth in CGS Section 15-138 and in Section 15-121-A16 of the Regulations of the Connecticut State Agencies.

DEEP's Environmental Conservation Police do not have the authority to enforce municipal boating ordinances. As the DEEP Boating Division previously advised, this ordinance does not prohibit the activity of wakesurfing but rather only the employment of devices to artificially enhance or increase a wake, and therefore should be enforced accordingly.

Thank you for submitting this ordinance for review and approval. If you have any questions, please contact Peter Francis, Director, Boating Division, by telephone at 860-424-3651 or by email at Peter.Francis@ct.gov.

Sincerely,

Katherine S. Dykes
Commissioner

To: Kelly Williams kellywilliams77@icloud.com

Hi Kelly,

Thanks for chatting yesterday to follow up on your voicemail to Deputy Commissioner Trumble on Monday. You asked about Scott Stewart's submission to the public comments on the planned scope of DEEP's [Wake Boat and Wakesurf Study](#), confirming with a screenshot in a subsequent text message that you were referring to page 19. Specifically you asked what meeting Mr. Stuart referenced in the third sentence.

At his (or his colleagues') request, he and colleagues met with the Commissioner and members of her staff on July 15, and I assume that was his intended reference. DEEP did not meet with advocates regarding the three towns' wakesurfing ordinance on Lake Waramaug during its regulatory review of that ordinance, i.e. the period from when the towns transmitted their ordinances to DEEP to when DEEP transmitted its review to the towns.

Feel free to reach out if I can be of further assistance.

Sincerely,

Christopher
