Re: In the Matter of Allco Renewable Energy Limited and Windham Solar LLC Petition for  
Declaratory Ruling

Decision Granting Party Status

On January 29, 2021 NRG filed a request for party status in response to Allco's Petition for a Declaratory Ruling in accordance with R.C.S.A. § 22a-3a-4(c)(1) of the Department of Energy and Environmental Protection's (DEEP) Rules of Practice.

Pursuant to R.C.S.A. § 22a-3a-6(k)(1)(B), a person shall be granted status as a party if such person has filed a written request stating facts which demonstrate that (i) his legal rights, duties or privileges will or may reasonably be expected to be affected by the decision in the proceeding, (ii) he will or may reasonably be expected to be significantly affected by the decision in the proceeding, or (iii) his participation is necessary to the proper disposition of the proceeding.

DEEP determines that NRG has met the requirements of DEEP's Rules of Practice and hereby designates NRG as a party to the Allco Petition for Declaratory Ruling.

All Parties are required to serve each other with a copy of all documents submitted to the Department.
