Title
BEAD Application Part 2 - Priority Projects

Description
In an effort to streamline the application process, please complete Part 1 of the BEAD application, Administration and Compliance. Part 2 of the BEAD application collects project details for each Town Grant Area or proposed project area, based on technology type. This application is for projects proposing priority technologies.

Project Description

Priority Project

Project Details

Before you begin:

- **Make sure to have all required materials prepared before you begin. For a complete list of required information, refer to the Application Guide below.**
- **The upload prompts provided on each page have been abbreviated are not intended to replace, modify, or otherwise alter the application requirements described in the application guidance. In the case of any discrepancies, defer to the guidance.**
- **Items marked with an asterisk are required.**
- **GIS files such as shapefiles, KMLs, and KMZs must be uploaded as a .zip file.**
- **You must click 'Save' or 'Save and Continue' before moving to a new page or the information will be lost.**
- **You must mark each section as complete before submitting.**
- **For technical assistance, please email DEEP.Broadband@ct.gov.**

Program and Application Guide

CT BEAD Program and Application Guide.pdf

Section 1: Project Summary

B1.1 Which Town Grant Area is this proposal for?

Select an item... ▾

For the following two questions, provide the summary information about your proposed project for 100 Percent Coverage Proposal of the Town Grant Area.

B1.2 Please enter the estimated number of employment opportunities (full-time equivalent) to be created by the proposed project

0

B1.3 Provide the estimated number of aerial fiber miles for the new project build

0

B1.4 Provide the estimate number of buried fiber miles for the new project build

0

B1.5 In 200 words or less, provide a brief description of the applicant's project that could be used for public announcements. Include a description of the area, number of locations served, and expected outcomes. The applicant may also include type of facilities and service offerings.

Section 2: Budget

For the questions below, provide the summary information about your proposed project for 100 percent coverage of the Town Grant Area.

B2.1 Project Costs Template

CT BEAD App_Project Costs_Template.xlsx

B2.1 Upload a project cost estimate using the Project Costs Template. This cost estimate should demonstrate an understanding of the proposed project and its associated estimated costs.

B2.2 The applicant certifies that its submitted project cost estimate is accurate and encompasses all costs to be incurred by the applicant as part of the proposed project.

Applicant certifies the above

B2.3 What is the total proposed cost for the Town Grant Area covering 100 percent of eligible BEAD locations?

\$0.00

B2.4 What is the proposed BEAD Outlay – the amount of grant funding the applicant is requesting? This must be exclusive of the applicant's proposed match. (Please note that this response will be considered in application scoring.)

\$0.00

B2.5 Provide the applicant's proposed Total Match amount in dollars. The minimum match requirement is 25 percent of the total project. If the applicant also plans to propose a cost estimate for an alternative percentage coverage amount, this question only applies to the 100 percent coverage proposal. (Please note that this response will be considered in application scoring.)

\$0.00

B2.6 Provide the total amount of cash and in-kind matching funds for the project to be provided by the applicant itself.

\$0.00

B2.7 Provide the total amount of cash and in-kind matching funds for the project to be provided by match-eligible federal sources.

\$0.00

B2.8 If the project includes funds from match-eligible federal sources, provide a breakdown of the funding amount per federal source.

B2.9 Provide the total amount of cash and in-kind matching funds for the project to be provided by the State.

\$0.00

B2.10 Provide the total amount of cash and in-kind matching funds for the project to be provided by other sources such as non-profit organizations.

\$0.00

For the questions below, provide the summary information about your proposed project for an Alternative Percentage Proposal of the Town Grant Area, if applicable.

B2.11 If providing an alternative percentage coverage proposal, what is the total proposed cost for the Town Grant Area covering the alternative percentage of BEAD locations?
\$0.00

B2.12 What is the proposed BEAD Outlay for the alternative percentage of BEAD locations?
\$0.00

B2.13 Alternative Percentage Locations Listing Template

CT BEAD App_Alternative Percentage Proposal_Removed Locations List_Template.xlsx

B2.13 If providing an Alternative Percentage Proposal, please use the Alternative Percentage Proposal: Removed Locations List Template to provide a list of locations the applicant proposes to remove from its 100% Coverage Proposal.

Section 3: Service Offering

B3.1 Does the applicant commit to offering 1/1 Gbps service to the customers in the Town Grant Area at the same price as any other location in Connecticut or surrounding states in which the applicant offers service? (Please note that this response will be considered in application scoring.)

- Yes
 No

B3.2 If the applicant does not currently offer 1/1 Gbps service in its existing markets, does the applicant make a forward-looking commitment to offer the same price for 1/1 Gbps plans across all locations? (Please note that this response will be considered in application scoring.)

- Yes
 No
 N/A

B3.3 Will the service offering:

- Be for the entire lifetime of the asset (or at least 10 years)?
- Be inclusive of all fees?
- Have price increases no greater than CPI?
- Be available with no restrictions?

B3.3 Will the service offering meet the above criteria? (Please note that this response will be considered in application scoring.)

- Yes
 No

B3.2a What is the monthly price to which the applicant is willing to commit? The applicant should list a "no greater than" cost for the BEAD locations.

\$0.00

B3.4 Upload a PDF of a narrative that details how the applicant intends to notify relevant populations of the new or newly upgraded offerings available in the project area. The explanation should include information that reflects any unique needs of the specific demographics of the area. That may include information in different languages or through particular mechanisms (e.g., radio ads).

B3.5 The applicant certifies that at the time of project closeout, all proposed BSLs shall be capable of receiving Reliable Broadband Service with speeds of not less than 100 Mbps for downloads and 20 Mbps for uploads with 95 percent of latency measurements during testing windows falling at or below 100 milliseconds round-trip time. (See NOFO, pp. 64-65.)

Applicant certifies the above

Section 4: Timeline

B4.1 Project Timeline Template

CT BEAD App_Project Timeline_Template.xlsx

B4.1 Using the Project Timeline Template, upload a detailed project timeline that demonstrates the applicant's ability to complete the project within the four-year timeframe and identifies the project milestones.

B4.2 Certify that the applicant understands the BEAD NOFO requirement to complete the network and begin service no more than 48 months after subgrant award.

- Yes
 No

B4.3 Does the applicant commit to deploy the network in three years or less? (Please note that this response will be considered in application scoring.)

- Yes
 No

B4.3a Upload a PDF of a narrative explaining how the applicant will be able to deploy within three years. The explanation should incorporate supply chain management, workforce availability, technical design and approach, permitting, and other relevant factors.

B4.4 The applicant certifies that its submitted project timeline is accurate and that it will be capable of providing broadband service to each proposed BSL that desires service within the committed timeframe.

Applicant certifies the above

Section 5: Project Area

B5.1 Please provide the anticipated upload speed for locations in the Project Area in Megabits per second.

B5.2 Please provide the anticipated download speed for locations in the Project Area in Megabits per second.

B5.3 Please provide the anticipated low latency for locations in the Project Area in milliseconds.

B5.4 Is the applicant proposing to serve Economic Development Locations (BEAD-eligible locations) in the Town Grant Area, at no additional cost to the State of Connecticut? (Please note that this response will be considered in application scoring.)

- Yes
 No

B5.5 Upload a spreadsheet with the FCC IDs of the Economic Development Locations the applicant plans to serve.

B5.6 Served Locations Listing Template

CT BEAD App_Served Locations_Template.xlsx

B5.6 If project proposal includes any 'served' locations (as allowed under the 80%/20% rule - see Application Guidance), please list Location IDs using Served Locations Listing Template.

B5.7 Optional: Upload a zipped file folder containing a spreadsheet with any BEAD-eligible locations in the Town Grant Area the applicant is proposing to exclude from the project because the applicant is already serving them or the locations are non-serviceable. The zipped file folder should also contain evidentiary materials to support the claims for why these locations should be excluded.

Section 6: Network Deployment Details

B6.1 Upload a PDF of a technical narrative detailing how the proposed infrastructure will deliver service that reliably meets or exceeds the program required speeds and latency for all proposed BSLs in the project area as outlined in the BEAD NOFO (pp. 64-65).

B6.2 The applicant certifies that the proposed project will rely entirely on fiber-optic technology to each end-user premises and will ensure that the network built by the project can easily scale speeds over time to meet the evolving connectivity needs of households and businesses and support the deployment of 5G, successor wireless technologies, and other advanced services. See Infrastructure Act § 60102(a)(2)(l).

Applicant certifies the above

B6.3 Upload a zipped file folder containing shapefiles illustrating the applicant's proposed network design. The shapefiles shall include all BSLs to be served by the project, all proposed fiber infrastructure routes to be constructed via the project, and project area boundary polygons encompassing all infrastructure routes and BSLs.

B6.4 Upload a PDF of a logical network design drawing (Network Diagram) that illustrates the logical connectivity for the network and conveys the network's capacity to provide each proposed BSL with the required broadband speeds and latency. Ensure that all information is clearly legible.

B6.5 Professional Engineer Certification Template

CT BEAD App_Professional Engineer Certification.pdf

B6.5 Using the Professional Engineer Certification Template, upload a PDF document signed by a Professional Engineer that certifies the accuracy and completeness of the materials uploaded in this section and attests that the proposed network can deliver broadband service that meets the requisite performance requirements to all locations served by the project within the required four-year deployment timeline.

B6.6 Upload documentation of the Professional Engineer's licenses as well as any written reports, letters, or analysis provided by the Professional Engineer regarding the proposed project.

B6.7 The applicant certifies that it will obtain all necessary federal, state, and local governmental permits and required approvals necessary for the proposed work to be completed.

Applicant certifies the above
