

BEAD Program Challenge Process

With \$144 million available to provide broadband access to Connecticut, it's critical to have accurate maps and data.

Participate in the challenge process to help DEEP build a complete understanding of broadband access throughout the state.

THE ROLE OF RESIDENTS

While NTIA requirements don't allow individuals to submit challenges directly, residents of Connecticut play an important role in the challenge process by identifying inaccuracies and working with nonprofits or local governments to challenge the maps.

CONTACT US

WHO CAN CHALLENGE

- Local governments
- Tribal governments
- Nonprofit organizations
- Broadband service providers

HOW TO PARTICIPATE

1. Register for the challenge process portal
2. Select location(s) and challenge type(s)
