1. Check the [list](#) to see if your organization was challenged.
2. If your organization is on the list, evidence has been submitted that you have access to a gigabit symmetric (1000 Mbps/1000 Mbps) service plan. If you are unsure if you have access, contact your internet service provider. If you agree the location does have access, no action is required.
3. If you disagree, a representative of your organization may submit counter evidence by registering in the BEAD Challenge Process [portal](#).
4. Submit a rebuttal. Read the Challenge Process Guide available on DEEP's website or contact DEEP for more information on how to collect and submit counter evidence.
