

CT CITIES & TOWNS: GET BETTER CONNECTED

Help residents in your community get access to high-speed internet through the ConneCTed Communities Grant Program!

CT Department of Energy and Environmental Protection (DEEP) is expanding broadband access throughout the state.

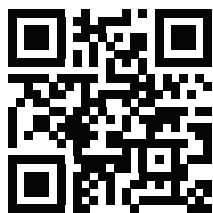

We have two opportunities for municipalities to get involved through the ConneCTed Communities Grant Program:

Get money for broadband in your community!

Apply for grant funding to facilitate low-income and multi-family curb-to-home and business broadband buildouts in underserved areas. Municipalities can access funding for the construction and deployment of broadband infrastructure.

Learn more

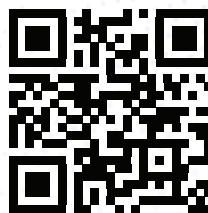

Learn more about the ConneCTed Communities Grant Program on DEEP's website.

Take this survey to identify buildings in need!

DEEP has approximately \$10M in ConneCTed Communities grant funds available to support broadband upgrades in Multi-Dwelling Units (MDUs) in communities that need it most.

Take a brief survey

By taking this brief survey you can help DEEP assess MDU eligibility and gather information to improve connectivity in your community.
