

Commercial Contractor Consortium (CCC) Input for CTAC Meeting

July 22, 2026

2026 YTD Input

- Insulation/Weatherization promotion is encouraging customers to move forward on previously stalled projects.
- Eversource and UI Main Street programs are generating additional project activity.
- Vacuum insulated glass retrofit projects are moving into design and construction and should provide valuable performance data.

Heat Pump Suggestions to Encourage Further Adoption of Heat Pumps

Develop a Heat Pump Rate Rider to soften demand charges using the EV Rate Rider as a model.

Evaluate whether additional incentives for heat pumps paired with solar and battery storage would increase adoption and reduce demand on grid

Empowering you to make
smart energy choices

Thank You!
