### Agenda Low Income Energy Advisory Board

### Wednesday, December 7, 2011 1:30p.m.-3:00 p.m.

### CRT Hartford, CT

I.	Welcome	1:30 p.m.
II.	Approve Minutes of the November 2, 2011 Meeting	1:40 p.m.
III.	Discounted Rate Program Update- DEEP	1:45 p.m.
IV.	Weatherization Program Update a) Weatherization Transfer to DEEP b) Weatherization Plan 2012- 2013 c) ARRA Weatherization Program	2:00 p.m.
V.	FFY 2012 LIHEAP Update a) CEAP Update b) Communication: Community Action Agencies/ Volunteer In-Take Sites	2:15 p.m.
VI.	Utility Matching Payment Program Updates a) United Illuminating b) CL&P/Yankee Gas c) Connecticut Natural Gas/Southern Connecticut Gas	2:30 p.m.
V.	Operation Fuel Update	2:45 p.m.
VI.	Next Steps	2:50 p.m.

### Low-Income Energy Advisory Board Meeting

### Wednesday, November 2, 2011 1:30 p.m. Community Renewal Team

**Members:** Anne Foley-Chair, Laura Gonzalez, Shirley Bergert, Deb Polun, John Dobos, Joanne Balaschak for Jim Gatling, Kate Quigley, Taren O'Connor, and Pam Giannini.

Others: Tom O'Brien (DSS), Rhonda Evans (CAFCA), Brenda Watson (Operation Fuel), Michael Coyle (DEEP) and Pam Trotman (OPM).

Agenda Item	Action
Welcome	The meeting was convened at 1:35 p.m.
Approval of Minutes of the November 2, 2011 Meeting	Laura Gonzalez moved approval of the November 2, 2011 meeting minutes and the motion was seconded by Pam Giannini. The motion was approved on a voice vote with one abstention by John Dobos.
FFY 2012 LIHEAP Update	The Chair gave an update on CT's first quarter LIHEAP allocation under the continuing resolution (CR). Health and Human (HHS) used the President's Budget request of \$1.98 billion to calculate the CR funding requests. If CT's LIHEAP plan is approved, the state will receive \$36.8 million, which is about 90% of the President's budget level request. According to DSS, states have yet to receive funds for the first quarter. It is the understanding of DSS that the LIHEAP spending bill may be included with the defense spending bill.  DSS reported that the price of oil has increased by 30% from a year ago. On November 1, 2010 the cost was \$2.602/gallon as compared to \$3.398/gallon on November 1, 2011.
	The utility company reported that the cost of

natural gas was \$1.86 for November 2011.

DSS reported on the administration of the CEAP through October 31:

- 30,504 applications taken
- 19,185 eligible applicants
- 7,017 denied applications
- 4,302 applications pending certification

DSS reviewed the Caseload/Eligible
Caseload Comparison charts thru October
31. The caseload comparison chart showed
a -33.7% change in the caseload from FFY
2010 to FFY 2011. Eligible Caseload
Comparison chart showed a -37.8% change
from FFY 2010 to FFY 2011. This year's
program started one month later than last
year, which attributes to the percent change
in caseloads.

Following a brief discussion on the Eligible caseload data, members asked DSS to provide statewide estimates on the number of cases denied due to assets exceeding the eligibility limit. If possible, DSS will further breakdown the data to show the asset dollar value of these cases. DSS will report at the December meeting.

The chair informed members that the Board's recommendations for allocating additional LIHEAP funds were forwarded to Secretary Barnes. The chair gave members the opportunity to provide additional comments. Shirley Bergert presented an issue regarding communication issues between the volunteer in-take sites and the community action agencies. Some volunteer in-take sites indicated that they were told to take applications for deliverable fuel households and not utility heated households. It was recommended that the community action

agencies research information communicated to the volunteer in-take sites regarding this issue and report back to the board. Members suggested inviting volunteer in-take sites to discuss this issue. Shirley also indicated that several volunteer in-take sites may not continue to participate due to the lack of financial support from the community action agencies.

### **Utility Matching Payment Program Updates**

Utility Matching Payment Program Updates, as of October 31:

### **United Illuminating**

- 375 auto enrolled customers
- 738 new enrolled customers
- 278 customers in the below budget payment plan.

A total of 3,200 outbound calls were conducted to inform customers of the availability of energy services with 70% customers reached and 100 responded.

CL&P- Yankee Gas Report will be forwarded at a later date.

### SCG

- 11,568 auto enrolled customers
- 7,567 new enrolled customers
- 527 customers in the below budget payment plan
- 426 customers enrolled in Phase 2 with 554 in the below budget payment plan.

### CNG

- 10,472 auto enrolled customers
- 10,132 new enrolled customers
- 518 customers in the below budget payment plan
- 716 customers enrolled in Phase 2

	with 518 in the below budget payment plan
	SCG and CNG are conducting outreach activities similar to UI.
Operation Fuel	Operation Fuel received \$1.1 million from the state to administer a Winter energy program, which will begin on November 14. Grant awards are expected to be up to \$500 to eligible applicants regardless of the type of heating source. Clients eligible to participate in the program include those that exhausted CEAP benefits or do not have a CEAP appointment for a minimum of 30 days and households at 200% of the federal poverty level. CEAP in-take sites should not submit Operation Fuel applications unless the client has exhausted their CEAP benefits. There will be no asset tests as part of the eligibility process.
	Operation Fuel reminded members to invite DEEP representatives to attend the next meeting to present on the PA 11-80, requiring DEEP to conduct a proceeding to develop discounted rates for services provided to low-income residents by the electric and gas companies. Michael Coyle will follow up on the presenters for the next meeting.
Next Steps	The next meeting is scheduled for Wednesday, December 7 at CRT.

Sec. 112. (NEW) (Effective July 1, 2011) (a) On or before June 30, 2012, the Department of Energy and Environmental Protection shall conduct a proceeding regarding development of low-income discounted rates for service provided by electric distribution and gas companies, as defined in section 16-1 of the general statutes, to low-income customers with an annual income that does not exceed sixty per cent of median income. Such proceeding shall include, but not be limited to, a review, for individuals who receive means-tested assistance administered by the state or federal governments, of the current and future availability of rate discounts through the department's electricity purchasing pool operated pursuant to section 16a-14e of the general statutes, energy assistance benefits available through any plan adopted pursuant to section 16a-41a of the general statutes, state funded or administered programs, conservation assistance available pursuant to section 16-245m of the general statutes, as amended by this act, assistance funded or administered by said department or the Department of Social Services, or matching payment program benefits available pursuant to subsection (b) of section 16-262c of the general statutes, as amended by this act. The department shall (1) coordinate resources and programs, to the extent practicable; (2) develop rates that take into account the indigency of persons of poverty status and allow such persons' households to meet the costs of essential energy needs; (3) require the households to have a home energy audit paid from the Energy Efficiency Fund as a prerequisite to qualification; (4) prepare an analysis of the benefits and anticipated costs of such low-income discounted rates; and (5) review utility rate discount policies or programs in other states.

- (b) The department shall determine which, if any, of its programs shall be modified, terminated or have their funding reduced because such program beneficiaries would benefit more by the establishment of a low-income or discount rate. The department shall establish a rate reduction that is equal to the anticipated funds transferred from the programs modified, terminated or reduced by the department pursuant to this section and the reduced cost of providing service to those eligible for such discounted or low-income rates, any available energy assistance and other sources of coverage for such rates, including, but not limited to, generation available through the electricity purchasing pool operated by the department. The department may issue recommendations regarding programs administered by the Department of Social Services.
- (c) The department shall order (1) filing by each electric distribution company of proposed rates consistent with the department's decision pursuant to subsection

- (a) of this section not later than sixty days after its issuance; and (2) appropriate modification of existing low-income programs.
- (d) The cost of low-income and discounted rates and related outreach activities pursuant to this section shall be paid (1) through the normal rate-making procedures of the department, (2) on a semiannual basis through the systems benefits charge for an electric distribution company, and (3) solely from the funds of the programs modified, terminated or reduced by the department pursuant to this section and the reduced cost of providing service to those eligible for such discounted or low-income rates, any available energy assistance and other sources of coverage for such rates, including, but not limited to, generation available through the electricity purchasing pool operated by the department.
- (e) On or before February 1, 2012, the department shall report, in accordance with section 11-4a of the general statutes, to the joint standing committee of the General Assembly having cognizance of matters relating to energy regarding the benefits and costs of the low-income or discounted rates established pursuant to subsection (a) of this section, including, but not limited to, possible impacts on existing customers who qualify for state assistance, and any recommended modifications. If the low-income rate is not less than ninety per cent of the standard service rate, the department shall include in its report steps to achieve that goal.

### Footnotes\_

- \* Set Asides are established for identified program obligations. They include funding for program administration, Assurance 16 and LIHEAP SNAP.
  - In addition, set asides have been established to cover the costs Crisis Assistance and Safety Net Assistance. All set asides are in accordance with the amounts identified in the approved LIHEAP Allocation Plan.
- \*\* Estimated Approvals are established for two categories of applications pending and incomplete. Many applications in these categories will become eligible once the requested documentation is received and processed. These set asides are based on applying last year's final performance numbers to this year's caseload data.
