

Geothermal Test Drill at Ulbrich Heights

What: Certified drillers will **drill a test hole 450-500 ft deep at Ulbrich Heights**. The hole will be just 6 inches across. There will be noise during drilling.

Where: Southeast corner of the lawn between Wharton Brook Drive and Louis Circle Lane

When: Monday 2/12 - Tuesday 2/13 (expect some noise from the drilling)

Why: To explore the possibility of clean, reliable, safe geothermal heating and cooling for Ulbrich Heights
