CONSENT ORDER

A. With the agreement of Trend Offset Printing Services, Inc. ("Respondent"), the Commissioner of Energy & Environmental Protection ("Commissioner") finds the following:

1. The Respondent is a commercial printing facility located at 60 Security Drive in Avon, CT ("Facility").
2. The Respondent uses four lithographic heatset printing presses which emit Volatile Organic Compounds ("VOC") and operate under NSR Permit 004-0019. The four presses have their emissions routed to one Regenerative Thermal Oxidizer ("RTO") for VOC destruction.
3. On December 7, 2018, the Respondent notified the Department of Energy and Environmental Protection ("Department") that the RTO failed and that the Facility would continue operations without the control equipment. On December 10, 2018, the Department instructed the Respondent to cease operations immediately until the RTO was repaired and functioning again.
4. In response to the Respondent's notification, a representative of the Department inspected the facility on January 17, 2019 and determined that the Facility emitted 6,051 lbs of VOC during December 2018.
5. A record review of the Facility revealed that the Respondent failed to maintain daily records of use of cleaning solvents, fountain solution and solvent based ink, pursuant to Section 22a-174-20(gg)(7)(B) of the Regulations of Connecticut State Agencies ("Regulations").
6. During the compliance inspection referenced in paragraph A.4 of this Consent Order, the Department determined that the Respondent failed to cease operations as soon as it was safely possible after the RTO failure and subsequently exceeded the permitted monthly VOC emission limit of 788.3 lb. Whereas the Respondent failed to cease operations and exceeded the VOC emission limit, the Department determined that the Respondent violated Part VI.D and VIII.A. of NSR Permit 004-0019 and issued Notice of Violation ("NOV") 17966 to the Respondent on April 16, 2019.
7. During the record review referenced in paragraph A.5 of this Consent Order, the Department determined that the Respondent failed to maintain daily records of cleaning solvents, fountain solution and solvent based ink. Whereas the Respondent failed to maintain the required daily records, the Department determined that the Respondent violated Section 22a-174-20(gg)(7)(B) of the Regulations and issued NOV 17965 to the Respondent on April 16, 2019.
8. By virtue of the above, the Respondent has violated Parts VI.D. and VIII.A. of NSR Permit 004-0019 and Section 22a-174-20(gg) of the Regulations.

Issued Date: 9/3/2019

- B. With the agreement of the Respondent, the Commissioner, acting under §§22a-6, 22a-171, 22a-174, 22a-177, and 22a-178 of the Connecticut General Statutes orders the Respondent as follows:
1. The Respondent shall comply with the requirements of NSR Permit 004-0019 and Section 22a-174-20(gg) of the Regulations.
 2. The Respondent shall submit a minor permit modification application for NSR Permit No. 004-0019 to reflect the requirements of Section 22a-174-20(gg)(7)(B) of the Regulations and require periodic performance testing for the RTO.
 3. The Respondent shall revise their Malfunction Plan to mandate the shutdown of all lithographic heatset printing operations in the event of control equipment failure.
 4. Civil Penalty. On or before thirty (30) days after issuance of this Consent Order, the Respondent shall pay a penalty of thirteen thousand and eight hundred dollars (\$13,800) as the total civil penalty to be sought by the Commissioner for the violations identified in Paragraph A.6. of this Consent Order.

The check shall state on its face, "Bureau of Air Management Civil Penalty, Consent Order No. 2521."
 6. Full compliance. Respondent shall not be considered in full compliance with this Consent Order until all actions required by this Consent Order have been completed as approved and to the Commissioner's satisfaction.
 7. Approvals. Respondent shall use best efforts to submit to the Commissioner documents, if any, required by this Consent Order in a complete and approvable form. If the Commissioner notifies Respondent that any document or other action is deficient, and does not approve it with conditions or modifications, it is deemed disapproved, and Respondent shall correct the deficiencies and resubmit it within the time specified by the Commissioner or, if no time is specified by the Commissioner, within 30 days of the Commissioner's notice of deficiencies.
