- A. With the agreement of Connecticut CVS Pharmacy, L.L.C. (“Respondent”), the Commissioner of Energy and Environmental Protection (“the Commissioner”) finds:
1. Respondent is a pharmaceutical, health care and consumer product retailer with its principal place of business located at One CVS Drive, Woonsocket, Rhode Island. Respondent operates CVS Store #1123 located at 22 Depot Hill Road in Southbury, Connecticut (“the Southbury site”).
 2. Respondent is or has been a generator of hazardous waste at the Southbury site.
 3. Based on an inspection conducted at the Southbury site by the Department of Environmental Protection (“DEP”), Bureau of Materials Management and Compliance Assurance, Waste Engineering and Enforcement Division (“WEED”), on June 8, 2005, Respondent:
 - a. Failed to retain copies of all manifests as required by section 22a-449(c)-102(c)(3) of the Regulations of Connecticut State Agencies (“RCSA”), incorporating Title 40 of the Code of Federal Regulations (“40 CFR”) 262.23(a)(3) and 40 CFR 262.40(a). At the time of the inspection, there were copies of only four manifests on-site and available for review. A review of DEP’s manifest database found that there were twenty manifested shipments of hazardous waste in 2003 alone.
 - b. Failed to send a one-time written notification to each treatment or storage facility receiving the waste and place a copy on file as required by 22a-449(c)-108(a)(1) of the RCSA, incorporating 40 CFR 268.7(a)(2). At the time of the inspection, the contact could not locate any copies of the required land disposal restrictions notifications.
 - c. Failed to inspect areas where containers of hazardous waste were being stored at least weekly as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(2) and 40 CFR 265.174. Specifically, the outside area where containers of hazardous waste were being stored was not being inspected.

- d. Failed to develop and follow an inspection schedule as required by section 22a-449(c)-102(c)(4) of the RCSA, incorporating section 22a-449(c)-102(b)(2) of the RCSA and 40 CFR 265.15(b). Specifically, there was no written inspection schedule on-site at the time of the inspection and inspections were not being conducted.
- e. Failed to record inspections in a log as required by section 22a-449(c)-102(c)(4) of the RCSA, incorporating section 22a-449(c)-102(b)(2) of the RCSA and 40 CFR 265.15(d). Specifically, there were no logs for inspections.
- f. Failed to provide hazardous waste training for all employees at the facility involved in hazardous waste management as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(5)(iii).
- g. Failed to designate an emergency coordinator as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(5)(i). The report for the June 8, 2005 inspection indicates that a store manager was either on the premises or on call at all times. However, Respondent did not indicate if this contact person had the authority to commit resources necessary in the event of an emergency, or to otherwise act as an emergency coordinator.
- h. Failed to maintain adequate aisle space to allow for the unobstructed movement of personnel, fire protection equipment, spill control equipment, and decontamination equipment in the event of an emergency, as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(4), which requires compliance with 40 CFR 265.35. Specifically, the company did not have adequate aisle space in the storeroom where the hazardous waste was normally stored.
- i. Failed to post emergency contact information near the phones as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(5)(ii)(A). Specifically, the name and telephone number of the emergency coordinator were not posted.
- j. Failed to post emergency equipment information near the phones as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(5)(ii)(B). Specifically, the locations of the fire extinguishers and spill control equipment were not posted.
- k. Failed to mark each container of hazardous waste with the date upon which the accumulation began as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(4), which requires compliance with 40 CFR 262.34(a)(2). Specifically, one hazardous waste container had not been dated at the time of the inspection.
- l. Failed to mark each container with the words "Hazardous Waste" and other words to identify contents such as the chemical name as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(4), which requires compliance with 40 CFR 262.34(a)(3), with changes as specified in section 22a-449(c)-102(a)(2)(J) of the RCSA. Specifically, one container of hazardous waste had not been marked.

- m. Failed to provide adequate secondary containment for storage of hazardous waste containers as required by section 22a-449(c)-102(c)(4) of the RCSA, incorporating 40 CFR 264.175. Specifically, at the time of the inspection, three 15-gallon containers of hazardous waste were being stored outside on uncoated asphalt, in an area with no secondary containment.
 - n. Failed to have all required emergency equipment as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(4), which requires compliance with 40 CFR 265.32(c). Although the facility sells products that could be used in case of a spill or release (e.g., paper towels), it was not specifically equipped with spill control equipment.
4. Based on an inspection conducted at the Southbury site by WEED, on January 26 and 28, 2009 and February 19, 2009, Respondent:
- a. Failed to perform hazardous waste determinations on all solid waste being generated at the facility as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.11. Specifically, hazardous waste determinations had not been performed on: (i) spent photographic film-developing and paper-processing machine filters disposed in the trash; (ii) expired, damaged, recalled, customer-returned and/or non-saleable consumer products disposed in the trash; (iii) spent mercury-containing lamps disposed in the trash; (iv) the contents of and unrinsed pharmaceutical containers disposed in the trash; (v) the contents of and unrinsed pharmaceutical containers disposed in blue bags for pick-up by a document management vendor; (vi) expired, damaged, recalled, customer-returned or non-saleable consumer products returned to a CVS distribution center; and (vii) non-saleable pharmaceuticals, and characteristic and/or "P" or "U" listed RCRA hazardous waste pharmaceuticals shipped to a reverse distributor.
 - b. Failed to prepare, utilize, and retain copies of manifests for all shipments of hazardous waste as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.20(a) and (b), 40 CFR 262.23(a) and (b), and 40 CFR 262.40(a). Specifically, manifests had not been completed for shipments of expired, damaged, recalled, customer-returned and/or non-saleable consumer products returned to a CVS distribution center or disposed in the trash and hauled by a municipal solid waste removal company. Manifests had not been completed for spent photographic film-developing and paper-processing machine filters, spent mercury-containing lamps, and the contents of and unrinsed pharmaceutical containers disposed in the trash and hauled by a municipal solid waste removal company. Manifests had also not been completed for the contents of and unrinsed pharmaceutical containers subject to the Health Insurance Portability and Accountability Act ("HIPAA") disposed in blue bags for pick-up by a document management vendor. Some of the wastes were hazardous. Lastly, manifests had not been completed for shipments of non-saleable pharmaceuticals, and characteristic and/or "P" or "U" listed RCRA hazardous waste pharmaceuticals shipped to a reverse distributor.
 - c. Failed to conduct weekly inspections of the hazardous waste container storage area as required by section 22a-449(c)-102(c)(3) of the RCSA, which requires compliance

with 40 CFR 262.34(d)(2) and 40 CFR 265.174. This applies to the area of the stockroom, along the rear wall of the store, where 15-gallon containers of spent photographic processing chemicals were being stored at the time of the 2009 DEP inspection.

- d. Failed to conduct inspections of safety and emergency equipment at least monthly as required by section 22a-449(c)-102(c)(4) of the RCSA, which requires compliance with section 22a-449(c)-102(b)(2) of the RCSA, incorporating 40 CFR 265.15(b)(4), with changes as specified in section 22a-449(c)-105(a)(2)(G) of the RCSA. Specifically, inspections of the absorbents, aprons, safety glasses, shovels and gloves being stored in the stockroom, the emergency eyewash located in the photo processing department, and the fire alarms were not being conducted. Inspections of fire extinguishers were being conducted annually, rather than monthly.
- e. Failed to develop and follow a written schedule for inspections of the hazardous waste container storage area and safety and emergency equipment as required by section 22a-449(c)-102(c)(4) of the RCSA, which requires compliance with section 22a-449(c)-102(b)(2) of the RCSA, incorporating 40 CFR 265.15(b). For the hazardous waste container storage area, this applies to the area of the stockroom, along the rear wall of the store, where 15-gallon containers of spent photographic processing chemicals were being stored. For safety and emergency equipment, this applies to the absorbents, aprons, safety glasses, shovels and gloves being stored in the stockroom, the emergency eyewash located in the photo processing department, and the fire alarms and fire extinguishers.
- f. Failed to record inspections in a log or summary as required by section 22a-449(c)-102(c)(4) of the RCSA, which requires compliance with section 22a-449(c)-102(b)(2) of the RCSA, incorporating 40 CFR 265.15(d). For the hazardous waste container storage area, this applies to the area of the stockroom, along the rear wall of the store, where 15-gallon containers of spent photographic processing chemicals were being stored. For safety and emergency equipment, this applies to the absorbents, shovels and gloves being stored in the stockroom, the emergency eyewash located in the photo processing department, and the fire alarms and fire extinguishers.
- g. Failed to ensure that all employees involved in hazardous waste management were thoroughly familiar with proper waste handling and emergency procedures that were relevant to their responsibilities during normal facility operations and emergencies as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(5)(iii). Specifically, Respondent had not provided the required hazardous waste training for its employees.
- h. Failed to designate an emergency coordinator as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(5)(i).
- i. Failed to post emergency response information next to the telephone as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(5)(ii).
- j. Failed to ensure that all satellite accumulation containers remained closed except when adding or removing hazardous waste as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(c)(1)(i) and 40 CFR

265.173(a). Specifically, at the time of the 2009 WEED inspection, the bung for the 15-gallon container, collecting spent photographic processing chemicals from the film-developing and paper-processing machines, was not screwed into place. Two hoses from the machines ran through the bung hole. As a result, the bung sat loosely and tilted atop the bung hole of the satellite accumulation container.

- k. Failed to mark all satellite accumulation containers with the words "Hazardous Waste" and other words that identify the contents of each container, such as the chemical name, as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(c)(1)(ii), with changes as specified in section 22a-449(c)-102(a)(2)(N) of the RCSA. Specifically, the 15-gallon container, collecting spent photographic processing chemicals from the film-developing and paper-processing machines, was not marked with the words "Hazardous Waste" or a description of the contents.
- l. Failed to provide an impervious base in the area used for the storage of hazardous waste containers as required by section 22a-449(c)-102(c)(4) of the RCSA, incorporating 40 CFR 264.175(b)(1). This applies to the area of the stockroom, along the rear wall of the store, where 15-gallon containers of spent photographic processing chemicals were being stored at the time of the 2009 WEED inspection. This area had an unsealed concrete floor.
- m. Failed to provide secondary containment in the area used for the storage of hazardous waste containers as required by section 22a-449(c)-102(c)(4) of the RCSA, incorporating 40 CFR 264.175(b)(3). This applies to the area of the stockroom, along the rear wall of the store, where 15-gallon containers of spent photographic processing chemicals were being stored at the time of the 2009 WEED inspection.
- n. Failed to clearly mark all containers of hazardous waste with the date upon which each period of accumulation began as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.34(d)(4), which requires compliance with 40 CFR 262.34(a)(2). Specifically, the accumulation start date was not marked on the 15-gallon container of spent photographic processing chemicals, which had been determined to be hazardous waste.
- o. Failed to close an area where containers of hazardous waste had been stored as required by section 22a-449(c)-102(c)(4) of the RCSA, incorporating 40 CFR 265.111, 40 CFR 265.113(a), (b) and (c), and 40 CFR 265.114. Specifically, during the WEED's June 8, 2005 hazardous waste inspection, containers of hazardous waste (spent photographic processing chemicals) were being stored outdoors along the rear wall of the building, in the fenced enclosure for the cardboard compactor. At the time of the 2009 inspection, containers of hazardous waste were no longer being stored in this area. However, the area had not been closed in accordance with the DEP's closure guidance.
- p. Offered hazardous waste to a transporter that did not have a current, valid transporter permit issued by the Commissioner pursuant to section 22a-449(c)-11 of the RCSA or section 22a-454 of the Connecticut General Statutes ("CGS"), as required by section 22a-449(c)-102(b)(1) of the RCSA. Specifically, expired, damaged, recalled, customer-returned and/or non-saleable consumer products were being shipped to a CVS distribution center or disposed in the trash and hauled by a municipal solid

waste removals company. Spent photographic film-developing and paper-processing machine filters, spent mercury-containing lamps, and the contents of and unrinsed pharmaceutical containers were also being disposed in the trash. The contents of and unrinsed pharmaceutical containers subject to HIPAA were being disposed in blue bags for pick-up by a document management vendor. Some of the wastes were hazardous. However, Respondent, the municipal solid waste removal company, and the document management vendor were not permitted hazardous waste transporters. In addition, expired, damaged, recalled and customer-returned pharmaceuticals; some of which were characteristic and/or "P" or "U" listed hazardous wastes were being shipped to a reverse distributor using a parcel delivery service, which was not a permitted hazardous waste transporter.

- q. Offered hazardous waste to a transporter that had not received an EPA identification number as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.12(c). Specifically, expired, damaged, recalled, customer-returned and/or non-saleable consumer products were being shipped to a CVS distribution center or disposed in the trash and hauled by a municipal solid waste removal company. Spent photographic film-developing and paper-processing machine filters, spent mercury-containing lamps, and the contents of and unrinsed pharmaceutical containers were also being disposed in the trash. The contents of and unrinsed pharmaceutical containers subject to HIPAA were being disposed in blue bags for pick-up by a document management vendor. Some of the wastes were hazardous. However, Respondent, the municipal solid waste removal company, and the document management vendor had not received an EPA identification number for transporting hazardous waste. In addition, expired, damaged, recalled and customer-returned pharmaceuticals, some of which were characteristic and/or "P" or "U" listed hazardous wastes were being shipped to a reverse distributor using a parcel delivery service, which had not received an EPA identification number for transporting hazardous waste.
- r. Failed to offer hazardous waste to a treatment, storage or disposal facility which had received an EPA identification number as required by section 22a-449(c)-102(c)(3) of the RCSA, incorporating 40 CFR 262.12(c). Specifically, expired, damaged, recalled, customer-returned and/or non-saleable consumer products were being shipped to a CVS distribution center in Rhode Island. The contents of and unrinsed pharmaceutical containers subject to HIPAA were being disposed in blue bags for pick-up by a document management vendor. Some of the wastes were hazardous. However, neither Respondent nor the document management vendor had received an EPA identification number to treat, store or dispose of hazardous waste. In addition, expired, damaged, recalled and customer-returned pharmaceuticals, some of which were characteristic and/or "P" or "U" listed hazardous wastes, were being shipped to a reverse distributor, which had only notified as a large quantity generator of hazardous waste.
- s. Failed to properly manage universal waste lamps as required by section 22a-449(c)-113(a)(2)(G) of the RCSA, incorporating 40 CFR 273.13(d)(1), with specified changes. Specifically, spent mercury-containing lamps (fluorescent light bulbs) were being discarded in the trash and not placed in containers or packages that were structurally sound, adequate to prevent breakage and compatible with the contents of the lamps, prior to disposal.

- t. Failed to properly label or mark each universal waste lamp or container or package of universal waste lamps as required by section 22a-449(c)-113(a)(1) of the RCSA, incorporating 40 CFR 273.14(e). Specifically, each lamp was not labeled or marked clearly with one of the following phrases: "Universal Waste-Lamp(s)", "Waste Lamp(s)" or "Used Lamp(s)".
 - u. Failed to properly dispose of universal waste lamps as required by section 22a-449(c)-113(a)(1) of the RCSA, incorporating 40 CFR 273.18(a). Specifically, spent fluorescent light bulbs were being disposed in the trash instead of being handled as a universal waste and recycled.
 - v. Failed to properly train employees who handle or have responsibility for managing universal waste lamps as required by section 22a-449(c)-113(a)(1) of the RCSA, incorporating 40 CFR 273.16. Specifically, Respondent had not provided the required universal waste-related training for its employees.
5. On August 18, 2005, WEED issued Notice of Violation no. WSWDH05076 to Respondent requiring correction of the violations listed in subparagraphs A.3.a. through A.3.n. of this consent order.
 6. On June 18, 2009, WEED issued Notice of Violation no. WSWDH09062 to Respondent requiring correction of the violations listed in subparagraphs A.4.a. through A.4.v. of this consent order.
 7. Based on observations made during the hazardous waste compliance inspection conducted on January 26 and 28, 2009 and February 19, 2009, Respondent has corrected the violations cited in subparagraphs A.3.b. and A.3.l. of this consent order as of the completion of the inspection. Based on documentation submitted to WEED by Troutman Sanders, Respondent's legal counsel, on behalf of Respondent, dated July 18, 2012, September 12, 2012 and November 7, 2012, Respondent has corrected the violations cited in subparagraphs A.3.a., A.3.h., A.3.k., A.3.m., A.4.a., A.4.b., A.4.j. through A.4.n., and A.4.p. through A.4.v. of this consent order.
 8. By virtue of the above, Respondent has violated Connecticut's hazardous waste management regulations, sections 22a-449(c)-100 through 119 of the RCSA, incorporating 40 CFR 260 through 279.
 9. Concurrent with the issuance of this consent order, a consent order is being issued to Connecticut CVS Pharmacy, L.L.C. (Consent Order No. COWSWDH _____). Pursuant to paragraph B.6. of said consent order, Connecticut CVS Pharmacy, L.L.C. shall submit for the review and written approval of the Commissioner a report and supporting documentation which describes in detail a statewide waste management and recycling program, within a corporate environmental management system ("EMS"), designed to ensure that all current and future Connecticut CVS stores maintain compliance with Connecticut's hazardous waste management regulations and recycling laws, the best management practices for non-dispensable pharmaceuticals and the requirements for the management of non-saleable consumer products.

In approving any document or other action under this consent order, the Commissioner may approve the document or other action as submitted or performed or with such conditions or modifications as the Commissioner deems necessary to carry out the purposes of this consent order. Nothing in this paragraph shall excuse noncompliance or delay.
6. Full Compliance. Respondent shall not be considered in full compliance with this consent order until all actions required by this consent order have been completed as approved and to the Commissioner's satisfaction. The Commissioner agrees to provide Respondent with a certificate of compliance or other written confirmation of Respondent's compliance with the consent order when the Commissioner deems that Respondent has completed its obligations hereunder.

**BY-LAWS
OF
CVS PHARMACY, INC.**

(Amended August 25, 2010)

OFFICES

1. The corporation may have offices at such places within or without the state as the Board of Directors may from time to time determine or the business of the corporation may require.

MEETINGS OF STOCKHOLDERS

2. All meetings of the stockholders shall be held at One CVS Drive, Woonsocket, Rhode Island, or such other place as the Directors may determine.

3. The annual meeting of the stockholders of the corporation shall be held on the second Wednesday of December in each year if not a legal holiday and, if a legal holiday, then on the next secular day following, when they shall elect a Board of Directors and transact such other business as may properly come before the meeting. In the event that the annual meeting is not held, a special meeting may be called and held in lieu thereof and for the purposes of such annual meeting.

4. Special meetings of the stockholders for any purpose or purposes, unless otherwise expressly provided by law, may be called by resolution of the Board of Directors or by the President or by the holder or holders of record of not less than one-tenth part in interest of the stock entitled to vote on any proposal to be submitted at such meeting.

5. Written notice of every meeting of stockholders, stating the purpose or purposes for which the meeting is called, the time when and the place where it is to be held, shall be served, either personally or by mail, upon each stockholder entitled to vote at such meeting at least ten days before the meeting, unless a different notice is required by statute. If mailed, such notice shall be directed to a stockholder at his address as it shall appear on the books of the corporation.

6. The holders of a majority of the stock issued and outstanding and entitled to vote thereat, present in person or represented by proxy, shall be requisite and shall constitute a quorum at all meetings of the stockholders for the transaction of business, except as otherwise expressly provided. If a quorum shall not be present or represented, the stockholders entitled to vote thereat, present in person or represented by proxy, shall have power to adjourn the meeting from time to time without notice other than announcement at the meeting, until a quorum shall be present or represented. At such adjourned meeting at which a quorum shall be present or represented any business may be transacted which might have been transacted at the meeting as originally notified.

7. When a quorum is present or represented at any meeting, the vote of the holders of a majority of the stock having voting power, present in person or represented by proxy, shall decide any question brought before such meeting, unless the question is one upon which, by express provision of the statutes or of the Certificate of Articles of Incorporation, or of these By-Laws, a different vote is required, in which case such express provision shall govern and control the decision of such question.

8. Unless the statute otherwise expressly provides, each stockholder of record having the right to vote shall be entitled at every meeting of the stockholders of the corporation to one vote for each share of stock having voting power standing in the name of such stockholder on the books of the corporation, and such votes may be cast either in person or by proxy.

9. Meetings of stockholders shall be presided over by the President, or, if he is not present, by a chairman to be elected at the meeting. The Secretary of the corporation, or in his absence, a secretary appointed at the meeting, shall act as secretary of such meetings.

DIRECTORS

10. The Board of Directors shall consist of three directors, who shall have such qualifications as the statute may require. They shall be elected at the annual meeting of the stockholders and each director shall be elected to serve for one year and until his successor shall be elected and shall qualify.

11. If the office of any director becomes vacant for any reason, the directors in office, although less than a quorum, may choose a successor or successors, who shall hold office for the unexpired term in respect to which such vacancy occurred or until the next election of directors, or any vacancy may be filled by the stockholders at any meeting thereof.

12. The business of this corporation shall be managed by its Board of Directors which may exercise all such powers of the corporation and do all such lawful acts and things as are not otherwise required to be exercised or done by the stockholders.

MEETINGS OF THE BOARD

13. The Directors may hold their meetings at One CVS Drive, Woonsocket, Rhode Island, or at such other places as they may from time to time determine.

14. Regular meetings of the Board may be held without notice at such time and place as shall from time to time be determined by resolution of the Board.

15. Special meetings of the Board may be called by the President on one day's notice to each director either personally or by mail or by wire; special meetings shall be called by the President or Secretary in a like manner on the written request of two directors.

16. At all meetings of the Board the presence of a majority of the entire number of directors shall be necessary to constitute a quorum and sufficient for the transaction of business and any act of a majority present at a meeting at which there is a quorum shall be the act of the Board of Directors, except as may be otherwise specifically provided. If a quorum shall not be present at any meeting of directors, the directors present thereat may adjourn the meeting from time to time without notice other than announcement at the meeting, until a quorum shall be present.

COMPENSATION OF DIRECTORS

17. Directors, as such, shall not receive any stated salary for their services but, by resolution of the Board, a fixed sum and expenses of attendance, if any, may be allowed for attendance at each regular or special meeting of the Board. Nothing herein contained shall be construed to preclude any director from servicing the corporation in any other capacity and receiving compensation therefor.

18. Any one or more or all of the directors may be removed, either with or without cause, at any time, by the vote of the stockholders holding a majority of the stock of the corporation, at any meeting called for the purpose, and thereupon the term of each director or directors, who shall have been so removed, shall forthwith terminate, and there shall be a vacancy or vacancies in the Board of Directors, to be filled as provided in these By-Laws.

WAIVER OF NOTICE

19. Whenever the stockholders or the Board of Directors are authorized to take any action after notice, such notice may be waived, in writing, before or after the holding of the meeting, by the person or persons entitled to such notice.

COMMITTEES

The Board of Directors may from time to time, by resolution passed by a majority of the whole Board, designate one (1) or more committees which shall be standing in nature, each Standing Committee to consist of one (1) or more directors and any number of officers of the Corporation. Any such Standing Committee shall have and may exercise the powers of the Board of Directors in the management of the business and affairs of the corporation for whatever purpose they see fit.

21. A majority of all of the members of any such Standing Committee may determine its action and fix the time and place of its meetings, unless the Board of Directors shall otherwise provide. The Board of Directors shall have the power to change the members of any Standing Committee at any time, to fill vacancies and to discharge any such Standing Committee, either with or without cause, at any time. The Board of Directors may delegate such power to the members of any Standing Committee or one (1) or more principal officers.

22. The Board of Directors may, by resolution passed by a majority of the whole Board, designate one (1) or more directors as alternate members of any committee who may replace any absent or disqualified member at any meeting of the committee; provided, however, that in the absence of any such designation of alternates the member or members of any committee present at any meeting and not disqualified from acting, whether or not he, she or they constitute a quorum, may unanimously appoint another member of the Board to act at the meeting in the place of any absent or disqualified member.

23. The Board of Directors, any Standing Committee, or any principal officer or director may from time to time create such additional committees of directors, officers, employees or other persons designated by it (or any combination of such persons) for such business purposes as they deem necessary and for advising with the Board and the principal officers of the Corporation in all such matters as the Board and the principal officers shall deem advisable.

OFFICERS

25. The officers of the corporation shall be a President, a Vice-President, a Secretary and a Treasurer, who shall be appointed by the Board of Directors immediately after each annual meeting of stockholders.

26. The corporation may have such vice-presidents, assistant treasurers, assistant secretaries and such other officers as may from time to time be appointed by the directors, who shall have such authority and shall perform such duties as from time to time shall be prescribed by the Board.

27. The salaries of all officers of the corporation shall be fixed by the Board of Directors.

28. Any officer elected or appointed by the Board of Directors may be removed at any time with or without cause, by the affirmative vote of a majority of the directors. If the office of any officer becomes vacant for any reason, the vacancy shall be filled by the Board of Directors. Except as otherwise provided by law, any person may hold two or more offices.

Business Recycling Profile

In Connecticut, recycling is mandatory. Connecticut General Statutes and the Regulations of Connecticut State Agencies require designated items to be recycled by **everyone**. Every resident, business, government facility, school, college, hospital, institution, etc. is required by law to recycle glass & metal food and beverage containers, plastic containers #1 and #2*, cardboard*, corrugated cardboard, magazines*, newspaper, white office paper, colored office paper*, scrap metal, Ni-Cd rechargeable batteries, used crankcase oil, lead acid batteries, leaves and grass clippings.

Recycling these items is a critical action we can all take to move the State towards achieving our recycling rate of 58% by 2024 as stated in the amended December 2006 CT State Solid Waste Management Plan. Complying with the state recycling laws has tremendous environmental benefits such as conserving natural resources, reducing pollutants emitted to our air and water; conserving energy, reducing greenhouse gas emissions, and eliminating the need for new solid waste disposal facilities.

This form is a guidance document to help businesses better manage their recycling program and increase recovery efforts. This form does not need to be submitted to the Connecticut Department of Energy and Environmental Protection (DEEP) unless it is requested, in response to an inspection and/or an enforcement action. EXAMPLE: OFFICE PAPER <i>(White and other paper combined)</i>	One 40-gallon wheeled cart/week	Everyone collects at their desk, brought to central location (large wheeled cart near elevators). Janitor brings to loading dock when it is full (about once a week)	Our current trash hauler, (NAME) empties our paper recycling wheeled cart 2x/month (we call them as-needed) and material is taken to a permitted recycling facility (PERMITTEE NAME) in (TOWN).

WASTE REDUCTION, REUSE AND OTHER RECOVERY PROGRAMS	PROJECT DESCRIPTION
EXAMPLE: Waste Reduction	Our cafeteria recently began using reusable trays and washing them instead of using Styrofoam trays which we were throwing away. We have also instituted a reusable mug program (providing a free mug to employees) to try and reduce the amount of coffee cup waste.

Part V: Recycling & Recovery Programs Planned

Please use the table below to describe future recycling efforts and how compliance with the mandatory items, if not already recovered for recycling, will be achieved.

IDEA / MATERIAL	ESTIMATED GENERATION RATE	HOW AND WHERE WILL THE MATERIAL BE COLLECTED?	WHO WILL PICK-UP THIS MATERIAL? FINAL/END MARKET?	WHEN WILL PROGRAM BE IMPLEMENTED?
<p><i>EXAMPLE:</i> Food and Beverage containers (glass, metal and plastic)</p>	<p>25 gallons/month</p>	<p>Will place barrel in break room; janitorial staff will empty and remove materials to a larger container on our loading dock.</p>	<p>There are a lot of 5¢ deposit containers. We're looking into having a local non-profit organization collect them for free and redeem the deposits.</p>	<p>We will start this program by August 8, 2008 (2 weeks from now).</p>
<p><i>EXAMPLE:</i> 55 gallon drums</p>	<p>10/week</p>	<p>We generate 55 gallon drums, which contained <u>non-hazardous substances</u>. We stockpile them outside the plant until we have 50 drums.</p>	<p>Working with XYZ, a company that reconditions the drums. We've found this to be more cost effective than recycling them at this time.</p>	<p>We've already started collecting and expect our first pick up to be next week (June 5, 2008)</p>

Part V: Recycling & Recovery Programs Planned (continued)

IDEA / MATERIAL	ESTIMATED GENERATION RATE	HOW AND WHERE WILL THE MATERIAL BE COLLECTED?	WHO WILL PICK-UP THIS MATERIAL? FINAL/END MARKET?	WHEN WILL PROGRAM BE IMPLEMENTED?
EXAMPLE: 5 gallon buckets	15-30 buckets/month	We generate buckets (contained non-hazardous substances) and cannot use them. Will rinse and stack (with lids) off to side of loading dock.	We're trying to secure a connection with a local reuse center or distribute via materials exchange program.	We hope to start this program by the end of August 2008.
