New Haven, CT 06516

Re: **Approval of the Safety-Kleen Systems, Inc. New Haven Environmental Justice Public Participation Plan Final Report**

Dear: Mr. Domschine:

The Environmental Justice Public Participation Plan (Plan) Final Report was received on February 8, 2021. The Plan Final Report documents the implementation of the Plan satisfying the requirements under Public Act 20-6 and Sec. 22a-20a of the Connecticut General Statutes, and the Connecticut Department of Energy and Environmental Protection's Environmental Equity Policy.

The Plan for Safety-Kleen Systems, Inc. Environmental Justice Public Participation Plan Final Report is Approved.

Sincerely,
Edith Pestana (electronic signature)

End of Report

FUSS & O'NEILL

1 Summary of Community Outreach and Public Participation

Safety-Kleen Systems, Inc. operates a facility at 120 Forbes Avenue as part of its environmental recycling operations. The site is used to store and transfer used oil and other oily wastewater collected from businesses in the region. Safety-Kleen stores the materials on-site and then transfers them to other facilities for processing and reuse. Permitted used oil operations have been at this site since 2001. The Forbes Avenue facility is operated under an existing permit and supervision from the Connecticut Department of Energy and Environmental Protection (Permit No. 1011010-CRW). The site is located within a designated environmental justice community.

As part of a regional facility improvement program, Safety-Kleen is adding storage capacity to the Forbes Avenue location and expanding and improving safety in the way materials are moved. Current deliveries to and from the site are mainly by truck, with some outgoing shipments by barge. In order to increase efficiency of operations and to reduce overall truck traffic and increase safety, Safety-Kleen is connecting to existing railroad tracks along Forbes Avenue by utilizing new onsite rail spurs so materials can be shipped out in railcars. Additional tanks will be installed on the site as well to accommodate additional materials. This work requires a modification to the existing CT DEEP permit.

In accordance with State regulations, Safety-Kleen and its consultant team from Fuss & O'Neill prepared an Environmental Justice Public Participation Plan (the "Plan"), working closely with leadership from the CT DEEP Office of Environmental Justice. The Plan was granted approval on October 29, 2020. Following that approval, Safety-Kleen implemented the Community Outreach to inform area residents, community stakeholders and New Haven leaders about the project through several outreach mechanisms, and held two Informational Public Meetings. Because of the COVID-19 public health emergency, outreach and meetings were carried out using guidance provided by the State of Connecticut for virtual engagement.

1.1 Community Outreach

1.1.1 Letters and Emails

Direct Outreach: The Plan identified many community residents, property owners, businesses, community organizations and stakeholders for direct outreach. Audiences who received direct letter/e-mail included:

- Elected officials – 10 persons
- Appointed officials – 6 persons
- Environmental and community organizations from CT DEEP and CTDOT community lists: approximately. 36 contacts
- Other community organizations identified in EJ Plan: 33 contacts
- Neighborhood institutions: approximately 10 contacts
- Local businesses: 15 contacts
- Property owners abutting the project site

We gathered contact information for all parties and sent a letter summarizing the project, providing a link to the Project Website and information on the upcoming Public Information Workshops (the letter is *Attachment 7* and the list of all contacts is *Attachment 8*).

1.1.2 Project Website, E-mail Portal and Call-in Number

To allow all interested parties to access project information prior to the Public Informational Meetings, we created a project website where people could learn about the project and send in their comments by e-mail: https://bit.ly/120ForbesNewHaven. The website was created and made available in both Spanish and English language versions. (Images of selected pages from the website are in *Attachment 9*.)

The website and other project outreach communication also listed a project e-mail address (120ForbesNewHaven@fando.com) and call-in phone number for RSVPs to the Public Information meetings.

1.1.3 Sign on Project Site

To reach area residents and local business owners and patrons, an informational sign in both Spanish and English languages) was posted on the front fence of the project site three weeks prior to the Public Informational Meetings (see *Attachment 1*).

1.1.4 Information Flyers

To reach area residents and local business owners and patrons, an informational flyer was created with basic project information, a link to the project website and a listing of the dates for the Public Informational Meetings (see *Attachment 4*). Approximately 75 copies were posted by hand in an area within ¼ mile of the project area and also delivered to neighborhood businesses and surrounding organizations on Sunday November 16, 2020.

1.1.5 Newspaper Advertisements

The Plan identified three local newspapers in which to run paid advertisements promoting the Public Informational Meetings. Ads ran in the following publications (copies are *Attachment 5* during the week of November 16-22, :

- The New Haven Register
- La Voz Hispana
- The Inner-City News

1.1.6 Radio PSA Outreach

The Plan identified four local radio stations that could carry Public Service Announcements (PSAs) promoting the Public Informational Meetings. Letters and PSA copy (see *Attachment 6*) was sent to the public affairs directors at the following area radio stations:

- WNPR (Public Radio)

- WYBC (Public Radio)
- WONH (Spanish)
- WELI (Talk/News)

1.2 Public Information Meetings

Because of the COVID-19 public health situation and restrictions, we could not safely gather interested participants together in one place for the Public Informational Meetings. Instead, two virtual public meetings were held on the Zoom platform; one on Tuesday December 1, 2020 at 7 PM which was held in English language format and one on Thursday December 3, 2020 which was held in Spanish language format.

Agendas for both Public Informational Meetings are in *Attachment 2* and copies of the presentations for both meetings are in *Attachment 3*. Both sessions were recorded on Zoom and links to the recordings posted on the Project Website so that interested people could watch the sessions if it was not convenient to attend the live meeting.

1.3 Results and Conclusions

The direct community outreach effort connected with approximately 107 community organizations, stakeholders, business and property owners and elected officials by letter and e-mail. Indirect communication through the project sign, posted neighborhood flyers and newspaper advertisements reached thousands more through posting in prominent locations, on-line and in print publications.

There was one attendee at the December 1, 2020 Public Information Meeting, Laura Cahn, Chair of the New Haven Environmental Justice Advisory Committee. She had some questions of her own as well as three questions from other colleagues. Questions were answered by the project team and were informational; there were no requests to change the project configuration. There were no attendees at the December 3, 2020 Meeting.

FUSS & O'NEILL

1.4 Certification

"I have personally examined and am familiar with the information submitted in this document and all attachments thereto, and I certify that, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that a false statement made in the submitted information may be punishable as a criminal offense, in accordance with section 22a-6 of the General Statutes, pursuant to section 53a-157b of the General Statutes, and in accordance with any other applicable statute."

PEOPLE AND TECHNOLOGY CREATING A SAFER, CLEANER ENVIRONMENT CleanHarbors

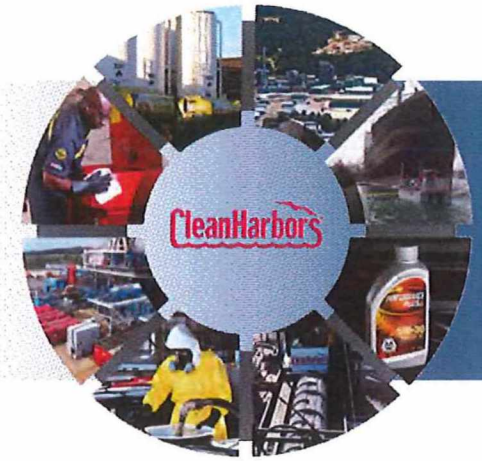

NEW HAVEN PUBLIC MEETING
120 Forbes Avenue Site Plan

- I Brief Overview of Company
- II Brief Overview of Project
- III Questions and General Discussion

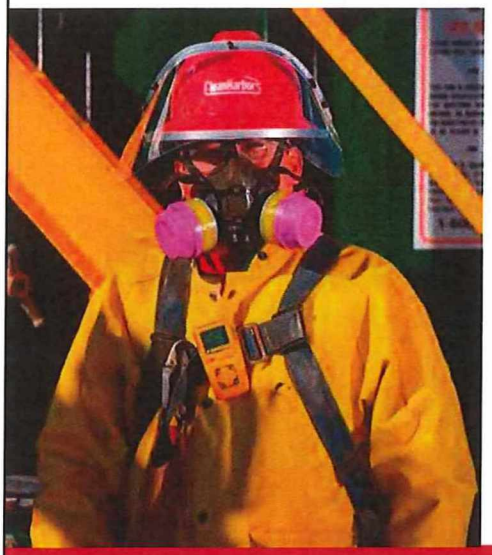

PEOPLE AND TECHNOLOGY CREATING A SAFER, CLEANER ENVIRONMENT CleanHarbors

Mission

"Create a Safer, Cleaner Environment Through the Treatment, Recycling and Disposal of Hazardous Materials"

Company Snapshot

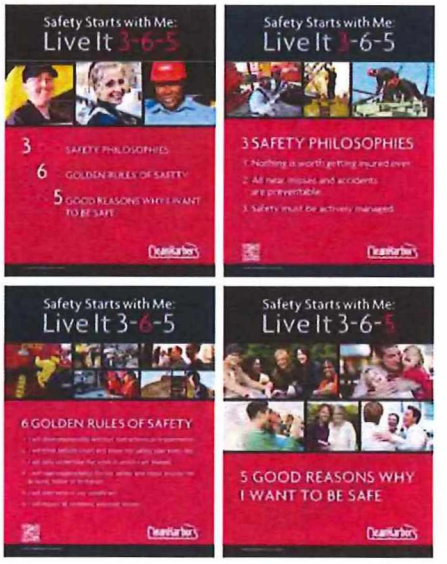

- In North America:
  - Largest hazardous waste disposal company
  - **Largest collector, recycler and re-refiner of used oil**
  - Leading provider of comprehensive environmental, energy and industrial services
- Top 20 largest private motor carriers
- More than 300,000 customers including a majority of the Fortune 500
- More than 14,000 employees
- More than 100 waste management facilities
- More than 450 service locations in the US, Canada, Mexico and Puerto Rico

Our Safety Culture

- *Safety Starts with Me: Live It 3-6-5*
- Voluntary Protection Program focus at facilities and InSite Services®
- Tracking and analysis of near misses
- Operationally driven programs
- Personalization of safety
- Behavior-based programs
- Daily safety messages
- Shared learnings

Sustainability

- More than 3.1 billion gallons of used oil processed in our re-refineries; Avoiding over 24 million metric tons of GHG
- Approximately 1 million parts washer services annually using recycled solvents and aqueous solutions
- 45 million pounds of paint reclaimed and recycled in 2017
- Facility Energy Conservation (FEC) Program at 350 facilities in partnership with Schneider Electric
- Fleet Management Program – CNG/LNG vehicles, auto-idler systems, and more
- Refurbishment shops – 80% of all materials are recycled

CO_2 7.9 million metric tons of CO2 emissions avoided since 2013 by CFC destruction

Compliance

We operate under the letter and spirit of the law so that we protect ourselves, our customers, and the communities and environments where we operate. We follow the strict protocols we have in place to ensure that we're following all regulations and requirements

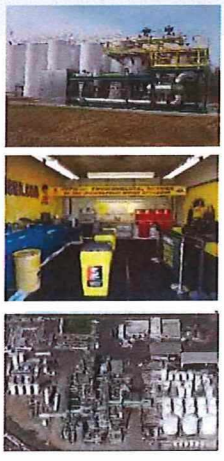

Business Model

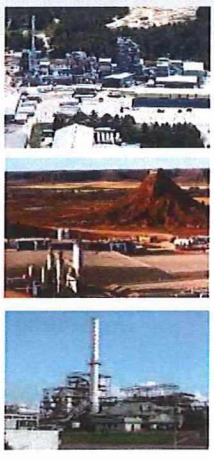

Gather Waste Perform Services	Transport Waste and Waste Oil	Transfer, Treat, Recycle and Re-Refine	Disposal

Environmental Services

- Technical Services
- Industrial Services
- Field Services
- Energy Services
- Safety-Kleen

Broad Asset Infrastructure

- **More than 100 Waste Management Facilities**
  - 9 Incinerators
  - 11 Landfill Sites
  - 18 Treatment, Storage & Disposal Facilities (TSDFs)
  - 8 Solvent Recycling Facilities
  - 9 Wastewater Treatment Operations
  - 9 Oil Accumulation Centers
  - 6 Re-refineries
- **More than 10,000 Company Vehicles**

Expansive Service Network

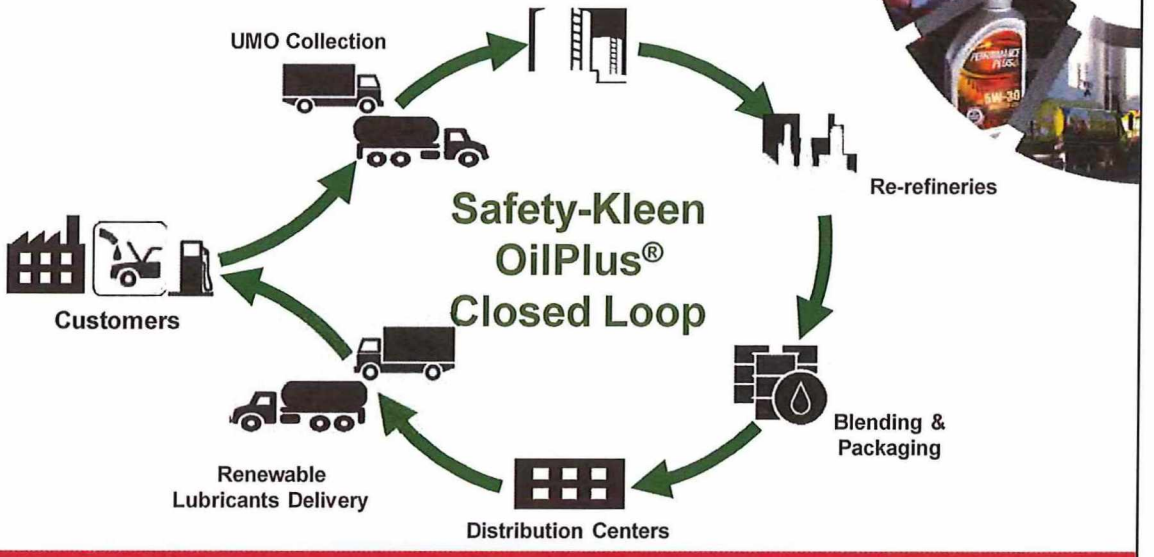

Safety-Kleen Overview

- Premier provider of environmentally-responsible products and services including **used oil recycling and re-refining**, parts cleaning and environmental services
- Largest collector, recycler and servicer of parts cleaning equipment and used solvent in North America
- Largest collector, recycler and re-refiner of used oil—collecting and processing more than 220 million gallons per year.
- **Largest re-refining capacity in the world.**
- **Through a closed-loop system, SK can collect and re-refine most of it into new finished products for the marketplace.**

Proposed Plan-Existing Conditions

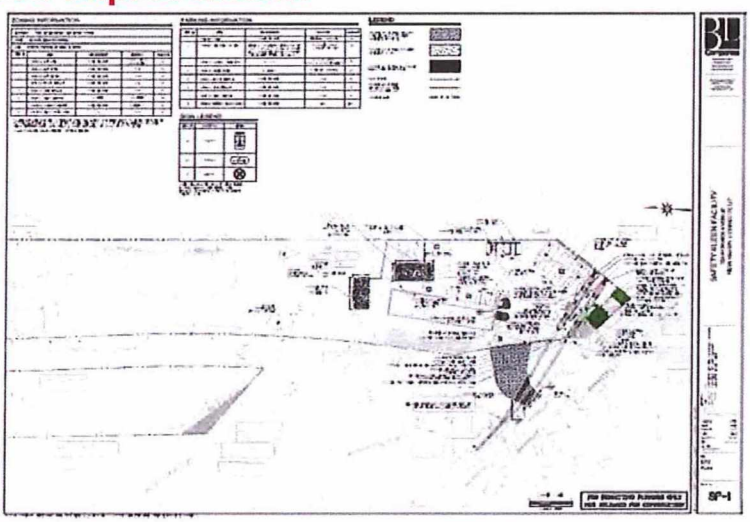

120 Forbes Ave.
Proposed Improvements

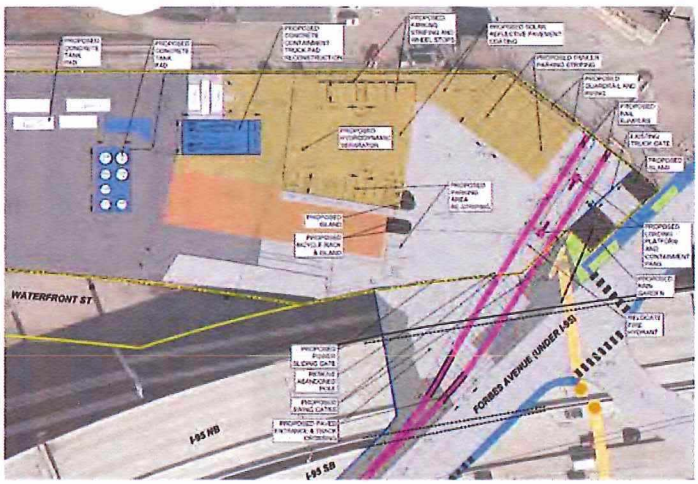

120 Forbes Ave.
Proposed Improvements

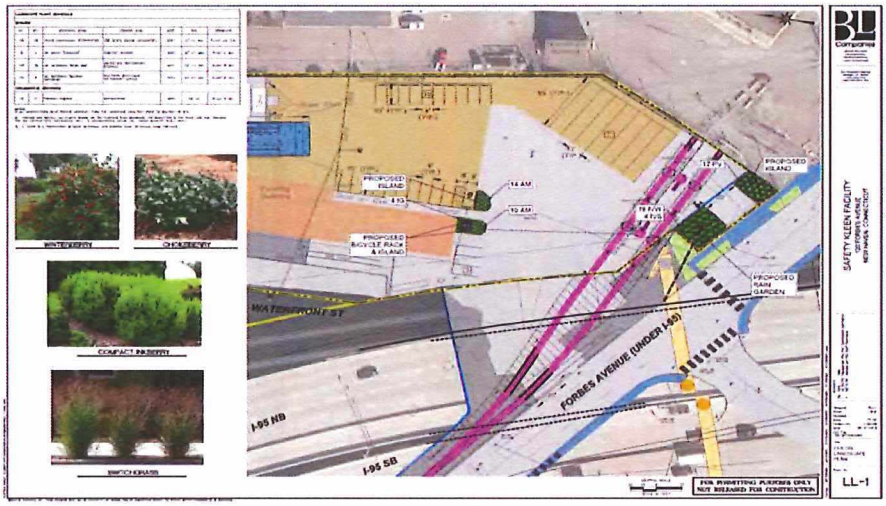

120 Forbes Ave.
Proposed Improvements

- Increase function of the site and enhancement of water dependent use with the introduction of rail spurs
- Add tanks in existing tank farm
- Re-striping parking additional employees
- Add a bicycle rack
- Re-construction of an existing truck pad
- Solar reflective color paint to comply with site shading regulation
- New fencing and gates
- New stormwater improvements

120 Forbes Ave.
Proposed Improvements-Landscaping

Update and Conclusion

- Clean Harbors/Safety-Kleen recognizes the responsibility to the environment and the community and is committed to working with all the stakeholders to minimize our impact while seeking to improve own operations.
  - EAC-discussed and will continue to consider:
    - Upgrade the landscaping at the entrance to the site and keep the site neat and clean of trash.
    - Participate in the city's 20/20 Campaign to cut emissions by 20% by the end of 2020.
    - Encourage employees to use public transportation.
  - Board of Alders-discussed and agreed to stipulations recommended by the CPC for the abandonment of Waterfront Street, including implementing and enforcing truck routes to minimize the impact on residential neighborhoods.

Updates and Conclusion

- Port Authority-SK has met with and has received support from the Port and will continue work with the port, by providing an easement for water access over Waterfront Street.
- State of Connecticut Department of Transportation has approved the rail spur/track layout configuration with final concurrence pending detailed engineering design.
- Community-SK will work with New Haven Works to help meet the employment needs.
- Rail-Operational arrangements have been agreed to with Providence and Worcester for the construction of the spur and future services.

Updates and Conclusion

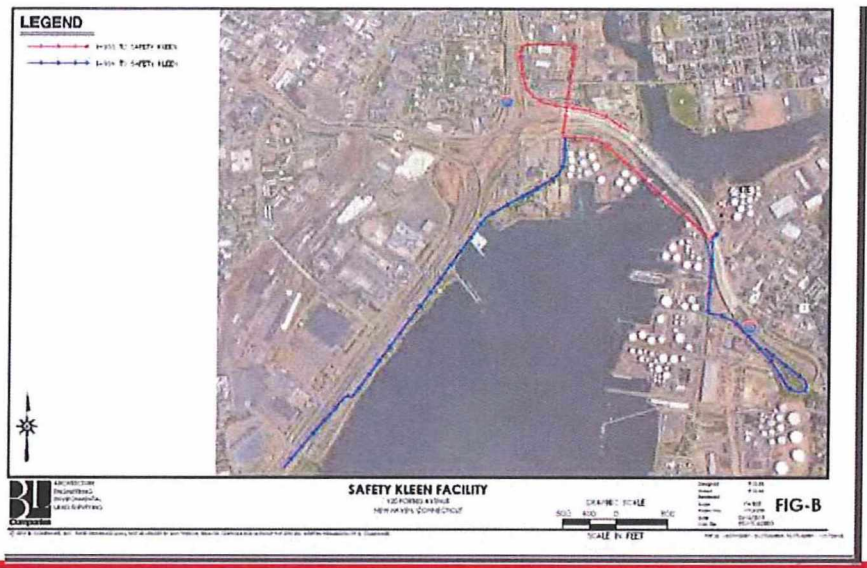

- Benefits
  - Upgrade infrastructure to improve operations and compliance systems.
  - Reduce trucks on the road.
  - New jobs.
  - Added tax revenue for the city.
  - Enhanced security.
  - Quicker emergency response for spills in the river and surrounding area.

In additions to above commitments and initiatives., Safety-Kleen will continue to develop information on our operations and use that information to target specific activities that can improve the company's environmental, social and economic impacts.

REUNION PUBLICA DE NEW HAVEN
Plan de Sitio para 120 Forbes Avenue

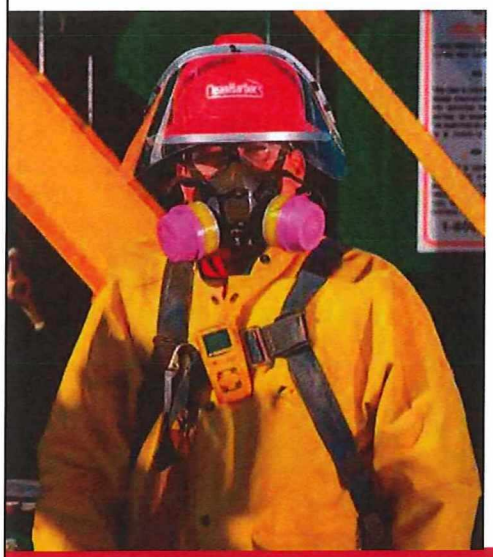

- I Breve descripción de la compañía
- II Breve descripción del Proyecto
- III Preguntas y discusión general

Misión

"Crear un ambiente más seguro y limpio, a través del tratamiento, reciclaje y disposición de materiales peligros"

Resumen de la Compañía

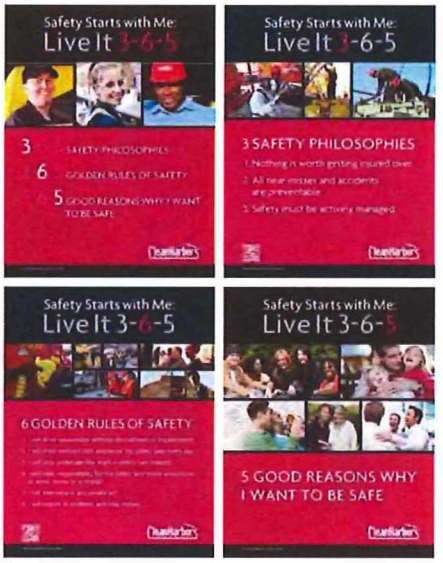

- En Norte América:
  - Compañía mas grande de disposición de desechos peligrosos.
  - **Colector, reciclador y refinador mas grande de aceite usado.**
  - Proveedor líder de servicios ambientales, energía e industriales.
- Entre los mejores 20 portadores de motor mas grandes privado
- Más de 300,000 clientes incluyendo la mayoría de Fortune 500
- Más de 14,000 empleados
- Más de 100 facilidades de manejo de desperdicios
- Más de 450 centros de servicios en US, Canadá, México y Puerto Rico.

Nuestra Cultura de Seguridad

- *La seguridad comienza conmigo: Live It 3-6-5*
- Programa de Protección Voluntaria enfocado en las facilidades y servicios en el lugar de trabajo
- Seguimiento y análisis de cuasi accidentes
- Programas impulsados operacionalmente
- Personalización de la seguridad
- Programas basados en el comportamiento
- Mensajes diarios sobre la seguridad
- Aprendizaje compartido

Sustentabilidad

- Nuestras refinerías procesan más de 3.1 mil millones de aceite usado. Evitando más de 24 millones toneladas métricas de GEI.
- Aproximadamente 1 millón de centros de servicios de lavado de piezas utilizando disolventes reciclados y soluciones acuosas.
- 45 millones libras de pintura reclamadas y recicladas en el 2017.
- Programa de Conservación de Energía en 350 instalaciones en asociación con Schneider Electric
- Programa de manejo de flota – vehículos CNG/LNG, sistema auto apagado/encendido, y más
- Centros Remodelados – el 80% de todos los materiales son reciclados

CO_2 7.9 million metric tons of CO2 emissions avoided since 2013 by CFC destruction

Cumplimiento

Operamos bajo la letra y espíritu de la ley para protegernos a nosotros mismos, nuestros clientes y el ambiente en que operamos. Tenemos estrictos protocolos en lugar para asegurar que estamos siguiendo todas las regulaciones y requerimientos.

  - 9 Incineradores
  - 11 Vertederos
  - 18 Facilidades de Tratamiento, Almacenamiento y Disposición
  - 8 Facilidades de Reciclaje de Solventes
  - 9 Operaciones de tratamiento de aguas residuales
  - 9 Centros de Acumulación de Aceite
  - 6 Re-refinerías
- **Mas de 10,000 Vehículos en la Compañía**

Amplia Red de Servicios

Safety-Kleen Descripción General

- Principal proveedor de productos y servicios ambientalmente responsables incluyendo reciclaje y re-refinamiento de aceite usado, limpieza de partes y servicios medioambientales.
- Mayor colector, reciclador y servidor de partes de equipos de limpieza y solvente usado en Norte América.
- Mayor colector, reciclador y re-refinador de aceite usado – colectando y procesando más de 220 millones de galones por año
- **Capacidad mas grande de re-refinamiento en el mundo**
- **A través de un sistema cerrado, SK puede colectar y re-refinar la mayor parte de estos y convertirlos en nuevos productos listos para ser usados en el mercado.**

Safety-Kleen Sistema Cerrado

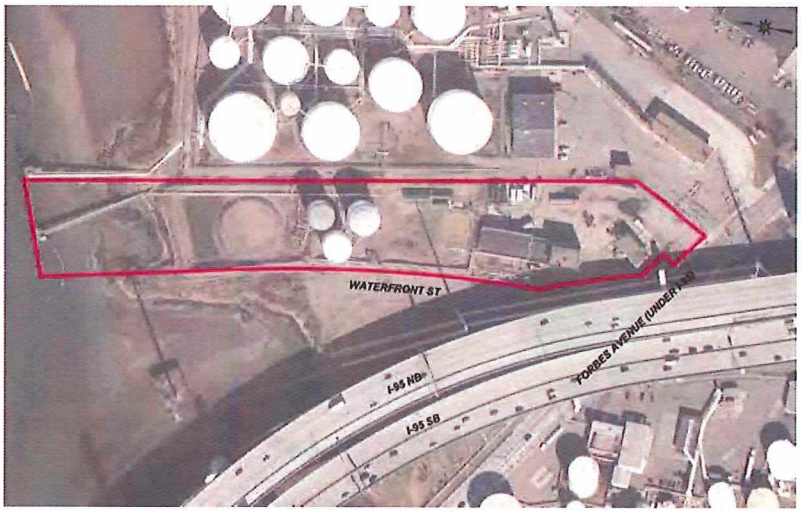

120 Forbes Ave

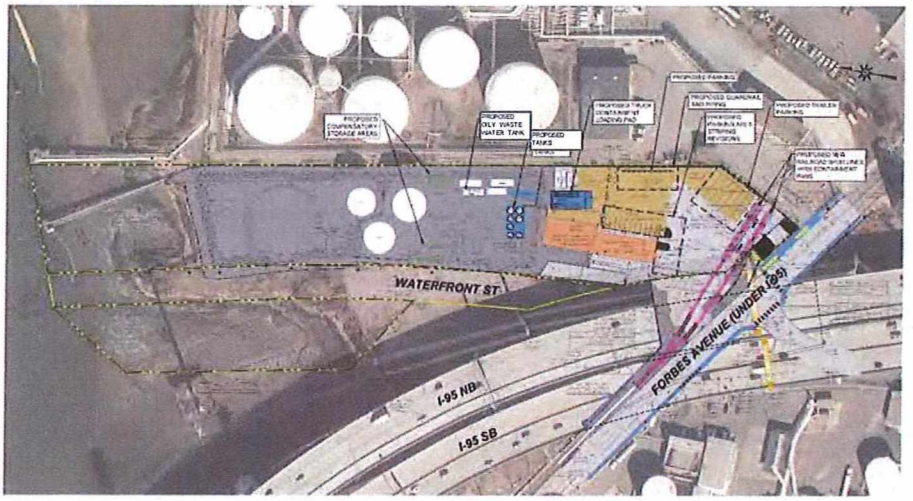

- Operaciones actuales
  - Permitido-DEEP
  - Operando desde 2001
  - Cumplimiento
    - Procedimientos de Carga (Anexo A)
    - Plan de contingencia integrado para la protección contra derrames
- Propósito
  - Construir una vía de ferrocarril, agregar tanques adicionales y parqueos, para incrementar la capacidad y maximizar las operaciones internas de la instalación en New Heaven.
  - Proveer un área de preparación para respuestas de emergencia
- Descripción
  - Ver la diapositiva siguiente.

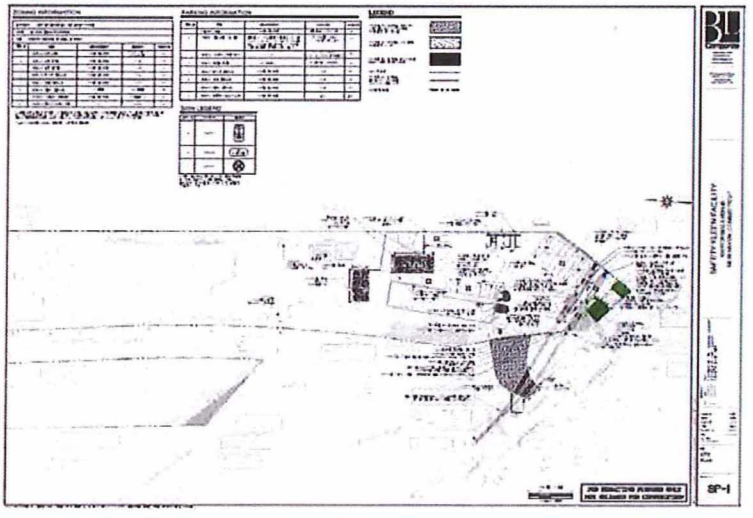

120 Forbes Ave.
Plan Propuesto – Condición Actual

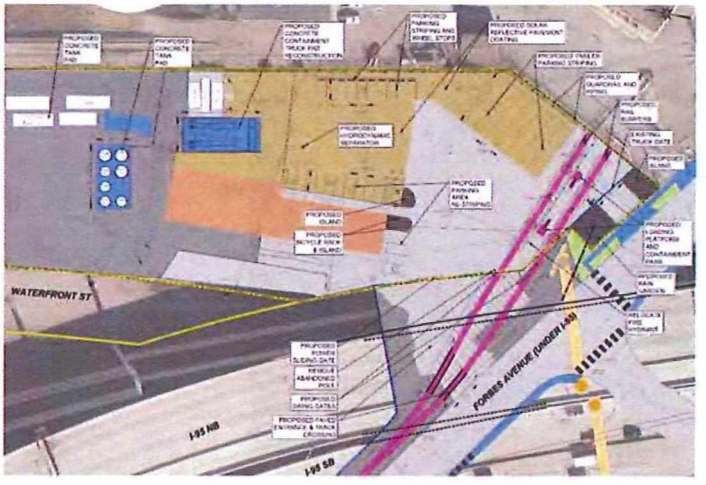

120 Forbes Ave.
Mejoras propuestas

120 Forbes Ave.
Mejoras propuestas

120 Forbes Ave.
Mejoras propuestas

- Incrementar el funcionamiento del lugar y mejorar la dependencia del uso de agua con la inclusión de nuevas vías de ferrocarril.
- Agregar tanques en el área existente de tanques
- Trazar nuevas líneas de parqueos en el estacionamiento
- Agregar portabicicletas
- Reconstruir la base de concreto para camiones
- Pintura reflectante de luz solar para cumplir con las regulaciones de sombra en el sitio.
- Nuevas cercas y portones
- Mejoras al sistema de aguas pluviales

120 Forbes Ave.
Mejoras Propuestas - Paisajismo

Actualizaciones y Conclusiones

- Clean Harbors/Safety-Kleen reconoce la responsabilidad con el medioambiente y la comunidad y esta comprometido a trabajar con todos los involucrados para minimizar nuestro impacto mientras tratamos de mejorar nuestras operaciones.
  - EAC - Discutido y seguirá considerando:
    - Mejorar el paisaje en la entrada y mantener el lugar limpio sin basura.
    - Participar en la Campaña 20/20 de la ciudad para reducir emisiones en un 20% antes del final del año 2020.
    - Motivar a los empleados a usar transportación pública.
  - Junta de Alders- Discutido y se acordó con las estipulaciones recomendadas por el CPC para el abandonamiento de Waterfront Street, incluyendo implementar y hacer cumplir las rutas de camiones para minimizar el impacto en los vecindarios residenciales.

Actualizaciones y Conclusiones

- Autoridad Portuaria - SK se reunió y recibió el apoyo del Puerto y continuara trabajando en conjunto con el Puerto, proveyendo acceso al agua sobre Waterfront Street.
- El Departamento de Transportación del Estado de Connecticut ha aprobado la configuración del riel de ferrocarril con un aprobación final pendiente un diseño detallado por parte de un ingeniero
- Comunidad- SK trabajara con New Heaven Works para ayudar a alcanzar las necesidades de empleo.
- Riel – Acuerdos operacionales han sido acordados con Providence y Worcester para la construcción de rieles y servicios futuros.

Actualizaciones y Conclusiones

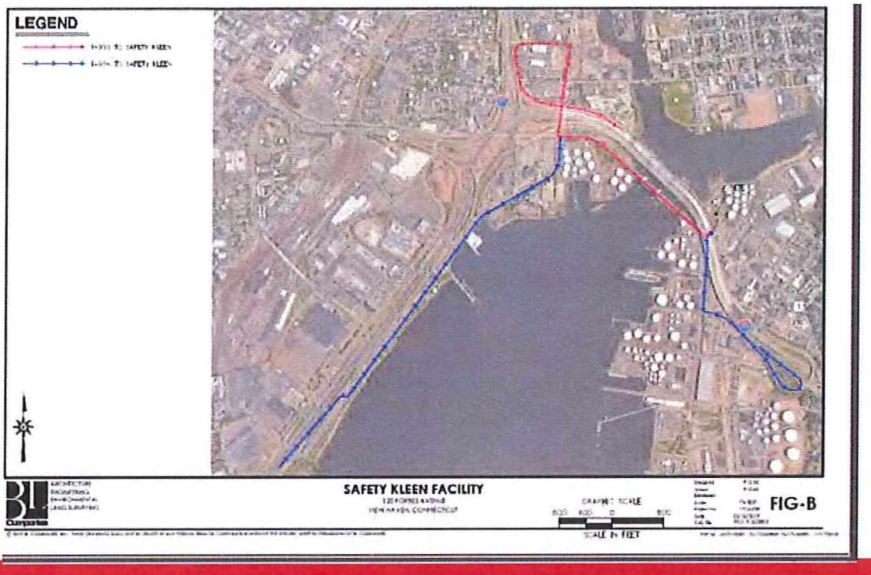

- Beneficios
  - Actualizar la infraestructura para mejorar las operaciones y los sistemas de cumplimiento.
  - Reducir los camiones en la calle.
  - Trabajos nuevos.
  - Mas ingresos a través de impuestos para la ciudad.
  - Seguridad mejorada.
  - Respuesta mas rápida para derrames en el rio y zonas aledañas.

Adicional a los compromiso e iniciativas mencionados arriba, Safety-Kleen continuara desarrollando información relaciona con nuestras operaciones y utilizara dicha información para centrarse en actividades especificas que pueden mejorar el impacto medioambiental, social y económico de la compañia.

Christina Bianchi, Clerk

The fiduciary is:
Raymond Harbort c/o LOUISE T TRUAX, REICH & TRUAX, 2507 POST ROAD, SUITE PH, SOUTHPORT, CT 06890

Did you know?

Aggressive driving and excess weight in a vehicle can dramatically reduce fuel efficiency. According to U.S. Department of Energy, aggressive driving that includes rapid acceleration and braking wastes gas, lowering gas mileage by 33 percent on highways and 5 percent when driving around town. Driving at higher speeds can also negatively affect gas mileage, which begins to decrease rapidly at speeds above 50 miles per hour, with each five miles per hour more than 50 mph akin to paying an extra $0.25 per gallon for gas. Drivers who treat their vehicles as rolling storage closets also could be wasting fuel and money, as the DOE notes that an extra 100 pounds in a vehicle could reduce its miles per gallon by 2 percent.

PUBLIC INFORMATIONAL MEETING ANNOUNCEMENT

Kleen Systems, Inc. invites interested ty members to attend an Informational learn about and give your input into the expansion of facilities of Safety-Kleen's nvironmental Recycling Facility at 120 orbes Avenue, New Haven, CT.

EN TO THE GENERAL PUBLIC ATIONAL MEETINGS REGARDING:

pansion of facilities of Safety-Kleen's existing vironmental Oil Recycling Facility at 0 Forbes Avenue, New Haven, CT.

Copy of Letters and PSA to Area Radio Stations

FUSS & O'NEILL

November 18, 2020

Public Affairs Director
WELI
495 Benham Street
Hamden, CT 06514

Dear Public Affairs Director,

Interest in environmental sustainability and recycling is high on the priority list of many Connecticut residents. Safety Kleen is a leading recycler of used oil products; collecting them and re-refining them for reuse and is currently expanding the capabilities of its facility at 120 Forbes Avenue in New Haven.

As part of its overall community outreach efforts about the project, the project team seeks to connect with area residents and stakeholders to share information about the project and to invite interested parties to participate in Virtual Public Informational Workshops which will be held at 7 PM on December 1 and 3, 2020.

We hope that you agree that reaching as many residents and stakeholders as possible about the project would serve a community interest. Please help us build public awareness about the upcoming Virtual Public Informational Workshops by airing our English and/or Spanish Radio PSAs from November 21 to December 1, 2020. Copy for the spots is attached to this letter.

For more information, please visit the project website at:

- Spanish language version: https://bit.ly/120ForbesNewHaven_espanol
- English language version: https://bit.ly/120ForbesNewHaven

Thank you for your consideration; please don't hesitate to contact me should you have any questions.

Sincerely,

Arnold N. Robinson, AICP

Text of Emails and Letter to Shareholders

[FINAL TEXT – SAFETY-KLEEN FORBES AVENUE FACILITY
LETTER TO STAKEHOLDER/ORGANIZATIONS]

INSERT NAME
AND ADDRESS HERE

Dear INSERT NAME HERE:

Safety-Kleen Systems, Inc. is one of your neighbors in New Haven and we operate a facility at 120 Forbes Avenue. As part of our environmental recycling operations, we collect used oil and other oily wastewater from businesses in the region, store them and then transfer them to other facilities for processing and reuse. Permitted used oil operations have been at this site since 2001. We operate our Forbes Avenue facility under an existing permit and supervision from the Connecticut Department of Energy and Environmental Protection (Permit No. 1011010-CRW).

As part of a regional facility improvement program, we are adding storage capacity to our Forbes Avenue location and expanding and improving safety in the way we move materials. Current deliveries to and from the site are mainly by truck, with some outgoing shipments by barge. In order to increase efficiency of our operations, reduce overall truck traffic and increase safety, we are connecting to existing railroad tracks along Forbes Avenue by utilizing new onsite rail spurs so materials can be shipped out in railcars.

We anticipate that this switch to rail transport will allow us to reduce daily traffic to and from the site from the current 42 trucks per day to 32 trucks per day. In addition, we have improved our loading and unloading areas to minimize stormwater contact with those operations and we have upgraded our stormwater discharge system to minimize stormwater generation and to provide treatment at the storm drains. We will be expanding and upgrading our storage facilities to allow collection of used anti-freeze from regional businesses. This used antifreeze will be shipped out via railcar for recycling at one of our other facilities.

Although the site at 120 Forbes Avenue is completely surrounded by industrial and commercial uses, we recognize that there are residential properties in our neighborhood and that vehicle traffic associated with the site can have impacts on the surrounding streets. We are reaching out to you today to let you know that we will be holding a series of public meetings with interested community residents, stakeholders and leaders to share our plans and answer any questions you have about the project.

Because of the ongoing COVID-19 public health situation and restrictions, we cannot safely gather interested participants together in one place for this meeting. Instead, we will be holding two virtual public meetings – one on Tuesday December 1, 2020 at 7 PM which will be held in English and one on Thursday December 3, 2020 which will be held in Spanish. To prepare for the meetings, we have created a project website where people can learn more about the project and send in their comments: https://bit.ly/120ForbesNewHaven

We hope you will share your thoughts about our facility improvement project, either by attending a virtual public meeting or sending us your comments through the project website.

Sincerely,

Richard Domschine
North East Terminal Director

Vincent Perez
Terminal Manager

Safety-Kleen Recycling Facility Expansion

120 Forbes Avenue, New Haven, CT

e its facilities at 120 Forbes Avenue in New Haven, CT. Safety-Kleen wants to provide information about the project to the community and create a safe platform for anyone interested to ask q

Project Description

ding and operates a facility at 120 Forbes Avenue. As part of our environmental recycling operations, we collect used oil and other oily wastewater from businesses in the southwestern Conn ations have been at this site since 2001. We operate our Forbes Avenue facility under an existing permit and supervision from the Connecticut Department of Energy and Environmental Prot

g storage capacity to our Forbes Avenue location and expanding and improving safety in the way we move materials. Current deliveries to and from the site are mainly by truck, with some o road tracks along Forbes Avenue and constructing rail spurs so materials can be shipped out in railcars.

ce daily traffic to and from the site from the current 42 trucks per day to 32 trucks per day. In addition, we will be improving our loading and unloading areas with improved stormwater syste g our storage facilities to allow us to collect and recycle anti-freeze and windshield wiper fluid from regional businesses. The engineering firm of Fuss & O'Neill is assisting Safety-Kleen with
