

2026

A Summary of Regulations and Definitions for Recreational Freshwater Fishing in Connecticut

March 2026 (v2)

**Connecticut Department of Energy
and Environmental Protection**

Bureau of Natural Resources | Fisheries Division

A Summary of Regulations and Definitions for Recreational Freshwater Fishing in Connecticut is published annually by the State of Connecticut's Department of Energy and Environmental Protection.

Katie S. Dykes, *Commissioner*

Mason Trumble, *Deputy Commissioner*

Justin Davis, *Chief*, Bureau of Natural Resources

Peter Aarrestad, *Director*, Fisheries Division

Purpose of this Document: To provide a concise, easy-to-read, summary of the freshwater (inland) sport fishing regulations and definitions. Please note that laws and regulations may have changed since printing. Every effort has been made to ensure the information provided here is accurate. The official legal regulations may be found on the Connecticut Secretary of State's web page at <https://eregulations.ct.gov/eRegsPortal/>

We encourage anglers to use the [digital versions of the fishing guide](#), available on the Fisheries Division's website, as online content can be modified or updated immediately as required.

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action/Equal Opportunity Employer that is committed to complying with the requirements of the Americans with Disabilities Act. If you are seeking a communication aid or service, have limited proficiency in English, wish to file an ADA or Title VI discrimination complaint, or require some other accommodation, including equipment to facilitate virtual participation, please contact the DEEP Office of Diversity and Equity at 860-418-5910 or by email at deep.accommodations@ct.gov. Any person needing an accommodation for hearing impairment may call the State of Connecticut relay number - 711. In order to facilitate efforts to provide an accommodation, please request all accommodations as soon as possible following notice of any agency hearing, meeting, program or event.

A Message from the Director of the Fisheries Division

Fishing is a longstanding tradition, creating countless fine memories of our time spent with family or friends. If you are reading this, you may well be a passionate recreational angler with a bounty of your own unique memories culled from your time spent on our waters. Or you may be new to the piscatorial pursuits and in search of your own lifetime of memories. I am personally blessed with over 60 years of wonderful and diverse experiences fishing with friends and family, mostly here in Connecticut. We all seek the outdoors for different reasons, yet I can assure you that few other activities can match the stress-reducing therapeutic value of time spent on our waters while recreational fishing. Please get out and enjoy it!

Better yet, pay it forward by investing time in helping or mentoring others who have yet to experience and appreciate time outdoors with rod in hand. An easy way to do this is to invite them along on **Family Fishing Day, May 9, 2026, when no license is required**. In addition, anyone can obtain a free one-day license for use on June 21, and August 8, 2026. Your guidance, encouragement and sharing of your knowledge and passion for fishing with others will undoubtedly help sustain and grow the important legacy of fish and wildlife conservation here in Connecticut for generations to come.

Wishing you all tight lines.

Pete Aarrestad

P.S. Our ["First Catch Center Events"](#) run by our "Fish with CARE" program are a great way to get introduced to fishing or to hone your skills. Learn more here: [Fish with CARE](#)

New for 2026

Marine (saltwater) regulations will be printed separately in brochure format once finalized by the various agencies involved. This process is typically completed by March.

Trout (all species)

- **9-inch minimum length statewide** to keep/harvest (unless there is either a larger minimum length or if “catch and release” fishing is required).
- **3 New Trout Parks** (Mashamoquet Brook, Macedonia Brook, and Kettletown Brook).
- **Special regulation removed** (the default statewide regulation now applies)
 - East Branch Naugatuck River (previously Wild Trout Mgt. Area-Class 3)
 - Shunock Brook (previously Wild Trout Mgt Area-Class 3)
 - Eightmile River, East Haddam/Lyme (previously Sea-Run Stream)
 - Whitford Brook (previously Sea-Run Stream)
 - Mianus River-outside of the Trout Mgt. Area (previously Sea-Run Stream)
 - Crystal Lake, Ellington (previously Trout Management Lake)
- **22 New Wild Trout Management Areas - Class 1**
- **New protective thermal refuge in Highland Lake** at the mouth of Taylor Brook (no fishing July 1 to October 15).

Black Bass (largemouth and smallmouth)

- New catch and release year-round in the Housatonic River from CT/MA state boundary to the Bleachery Dam in New Milford.

Chain Pickerel

- **3 New Chain Pickerel Management Lakes** (Lake Wononskopomuc, East Twin Lake, West Twin Lake); 1 Chain Pickerel per day, 22-inch minimum length.

Channel Catfish:

- New daily limit of 3 catfish in Allen Brook Pond (Wharton Pond) in Wharton Brook State Park.

Definitions (see pages 54-57):

- **Established a definition** for *Artificial Lure/Lure* and for *Catch and Release Fishing*.
- **Modified the definition** for *Bait*, *Fish Hook/Hook*, *Fly*, *Fly Fishing*, *Daily Creel Limit*, and *Possession Limit*.
- **Removed the definition** of *Bobbing*

Two Simple Steps To Determine Fishing Regulations

Step 1: Look at the default regulations for species pages 9 to 11.

Step 2: Check for additional regulations for a specific waterbody by looking at pages 18 to 37 (lakes or ponds) or pages 42 to 53 (rivers and streams).

FISHBRAIN

CT's fishing regulations are also available in the FREE version of the FishBrain App. The fishing regulations automatically update on your device wherever you are fishing to help you know the specific rules and regulations.

Fishing License/Stamp Information

Fishing fuels conservation! 100% of your investment in a fishing license comes to DEEP's Bureau of Natural Resources. These funds are used to support programs that feed your passion. Examples include; trout rearing and stocking, purchase and stocking of Northern Pike, Walleye, and Channel Catfish, land acquisition for conservation and fishing access, maintenance of boat ramps, restoration of migratory fish species, monitoring of resident fish populations (marine and freshwater), and education. Thank you for your continued support.

Fishing licenses are:

- Required for all persons age 16 and older,
- Issued on a calendar year basis and expire on December 31st,
- Can be purchased on-line 24/7 at <https://portal.ct.gov/CTOutdoorLicenses>,
- Discounted by 50% for Connecticut residents who are age 16 or 17,
- Free for Connecticut residents age 65 or older.

The [Trout and Salmon Stamp](#) is required for all persons age 16 and older when:

- A. Taking (keeping any trout or salmon)
- B. Fishing in waters designated as a:
- Trout Management Area (Rivers)
 - Trout Park
 - Wild Trout Management Area Class 1, 2, or 3
 - Atlantic Salmon Management Area

Scan for more info about the
Trout and Salmon Stamp
<https://bitly.cx/jwjE>

Licenses or stamps are available online anytime via <https://portal.ct.gov/CTOutdoorLicenses> or can be purchased at most bait and tackle shops, town clerk offices, or DEEP field offices. Please note that while the table below includes some of the most popular license options, other licenses, including combination hunting/fishing licenses, are available.

License/Stamp Name	Fee	Eligible for/Notes
All Waters	\$16; \$32; \$63	CT age 16/17; CT age 18-64; Nonresident (e.g. resident of another state or country)
Inland Waters Only	\$14; \$28; \$55	CT age 16/17; CT age 18-64; Nonresident
Trout and Salmon Stamp	\$3; \$5; \$5	CT age 16/17; CT age 18 and over; Nonresident
Marine Waters Only	\$5; \$10; \$15	CT age 16/17; CT age 18-64; Nonresident
3 Day Inland	\$22	Available to nonresidents only
3 Day Marine	\$8	Available to nonresidents only
Age 65 Inland Age 65 Marine	Free	CT resident age 65 or older only. Renew annually online , at participating town halls, or at DEEP offices.
Blind or Intellectual Disability (CT resident only).	Free	Issuance of a free license to the blind or intellectually disabled requires proof of disability in the form of a certificate provided by any person licensed to practice medicine in this state. If this is your first time requesting this license, please contact DEEP's Licensing and Revenue at (860) 424-3105 for documentation submission instructions.
Physical Disability (Loss of one or more limbs, permanent loss of the use of one or more limbs).	Free	A person who has loss of one or more limbs or has permanently lost the use of one or more limbs may be issued a fishing or hunting license free-of-charge (permits and stamps not included). Qualified persons are eligible for this free license if their state provides the same privilege to Connecticut residents. Verification of the disability, signed by a licensed physician, must be presented. These licenses are available at DEEP's Licensing and Revenue office, along with participating town clerk offices.

New to CT or are you new to fishing? We got your back!

Getting started with a new hobby or activity is often a barrier to getting started. Getting started in fishing can seem daunting, however the Fisheries Division is here to assist, support, and encourage you in your journey! So cast a line and get hooked on fishing.

Try Fishing for FREE - 2026 Dates

Family Fishing Day: No fishing license is required on May 9, 2026.

Free Fishing License Days: Although the fee for a fishing license is waived, participants still need to obtain their fishing license [online](#) starting 3 weeks prior to each date; June 21, 2026 and August 8, 2026.

Fishing Classes/Events: Learn the basic skills and info to get started with our online course. Then, come join us at a waterbody near you to cast a line (we will help you master the technique).

Where to Fish: CT has something for everyone when it comes to fishing. Whether you preference is trout, bass, catfish, panfish, or whatever bites there is a place for you.

Great for new/beginners to get your feet wet

Trout Parks - frequent stocking, high catch rates, easy access, nearby amenities make these small waterbodies in state or municipal parks ideal for beginners.

Community Fishing Waters - stocked with trout and catfish these waters are convenient to many, have easy access, nearby amenities, and are great for beginners.

Opportunities to expand your skill and experience

Bass Management Lakes (BML)-

These waters support quality fishing for Largemouth Bass, Smallmouth Bass, or both. Most are best accessed by watercraft, however some do have shore based access.

Walleye Lakes - Stocked with yearling fish each fall, these waters provide an opportunity to catch a very popular (and tasty) game fish. This fishery is very popular during the winter when there is safe ice.

Northern Pike - Stocked with yearling fish each spring, these waters provide an opportunity to catch one of the largest game fish in North America. This fishery is very popular during the winter when there is safe ice.

Trout Management Areas (TMA)-

Sections of popular rivers and streams where wading can take your mind off of daily stresses. Oh, and you have a great chance to catch a trout. Some TMAs are catch and release only, some have sections for fly-fishing only, which give you plenty of room to cast.

Wild Trout Management Areas

(WTMA)- fishing in one of these can be technical as many are small streams or brooks. Catch and release using a fly or lure is required year-round, which protects these truly beautiful and "wild" trout.

Panfish - who doesn't love a good fish fry? Almost every lake/pond has a bumper crop of panfish like Bluegill, Black Crappie, Yellow Perch, and/or Brown Bullhead. Perfect of all fishing levels!

Demarcation Line Between the Inland and Marine Districts

An “All Waters” or “Inland Waters Only” fishing license is required upstream of the indicated landmarks while an “All Waters” or “Marine Waters Only” fishing license is required downstream. The demarcation line is the first bridge upstream from the mouth of the waterbody unless specified here. The Demarcation Line info is available online [here](#).

Sorted A to Z by waterbody name.

Waterbody, Town(s)	Demarcation Line
Alewife Cove, New London/ Waterford	Entirely in marine district
Back River, Groton	Entirely in marine district
Beebe Cove, Groton	Entirely in marine district
Blackhall River, Old Lyme	Route 156
Branford River, Branford	Montowese Street
Bride Brook, East Lyme	First railroad crossing
Bruces Brook, Bridgeport/Stratford	Stratford Avenue
Byram River, Greenwich	First railroad crossing
Clinton River, Clinton (Indian River)	Route 1
Connecticut River, Old Lyme/Old Saybrook	Interstate 95 bridge
Cove River, West Haven	Route 122
Duck River, Old Lyme	Entirely in marine district
East Creek, Guilford	The gates at Guilford dock
East River, Guilford/Madison	Route 1
Farm River, East Haven	Route 142
Five Mile River, Darien/Norwalk	Route 136
Four Mile River, East Lyme/Old Lyme	First railroad crossing
Goodwives River, Darien	Entirely in marine district
Graniteville Brook, Waterford	First railroad crossing
Hammonasset River, Clinton/ Madison	Route 1
Hammonds Cove, Waterford	Entirely in marine district
Horse Neck Brook, Greenwich	Junction with harbor
Housatonic River, Milford/Stratford.	Merritt Parkway
Indian Harbor, Greenwich	First railroad crossing
Indian River, Milford	Route 162
Jordan Cove, Waterford	First railroad crossing
Lieutenant River, Old Lyme	Route 156

Waterbody	Demarcation Line
Menunketesuck River, Westbrook.	500 ft. north of Route 1
Mianus River, Greenwich.	Dam north of Boston Post Road
Mile Creek, Old Lyme.	Entirely in marine district
Mill River, Fairfield.	Dam at Harbor Road
Mill River, New Haven.	Tide gates at State Street
Muddy Brook, Westport.	Route 136
Mumford Cove, Groton.	Entirely in marine district
Mystic River, Stonington/Groton.	500 ft. north of Route 1
Neck River, Madison	Route 1
Negro Brook, Stratford	Route 110
Noroton River, Darien/Stamford	Boston Post Road
Norwalk River, Norwalk	Wall Street
Oyster River, Milford	Route 122
Oyster River, Old Saybrook	Route 1
Palmer’s Cove, Groton	Entirely in marine district
Pattagansett Cove, East Lyme	First railroad crossing
Patchogue River, Westport	Route 1
Pawcatuck River, Stonington	500 ft. north of Route 1
Pequonnock River, Bridgeport	North Avenue
Pequotsepos Cove, Stonington	500 ft. north of Route 1
Poquonock River, Groton	500 ft. north of Route 1

Wepawaug River, Milford	Route 162
Wequetequock River, Stonington	500 ft. North of Route 1A
West River, Guilford	Route 146
West River, West Haven	Tide gates at Orange Avenue
Winthrop Cove, New London	Entirely in marine district

Default Species Regulations for Waters of the Inland District

The following regulations are in effect for all waters without a special regulation. For waterbody-specific fishing regulations, please review the lakes and ponds section (pages 18 to 37) or the rivers and streams section (pages 42 to 53). Please note that unless otherwise listed here, Connecticut's [regulations for marine species](#) apply for any marine species caught in the inland district.

Alewife/Blueback Herring

Min. Length: None
Daily Limit: 25*
Methods: Angling or Scoop net
Season: Varies**

***The taking of migratory (anadromous) alewife and blueback herring from all CT waters is currently prohibited.** Landlocked Alewife may only be taken from: *Amos Lake, Ball Pond, Beach Pond, Candlewood Lake, Crystal Lake (Ellington), Highland Lake, MT Tom Pond, Quassapaug Lake, Quonnipaug Lake, Squantz Pond, Uncas Lake, and Waramaug Lake.*

** Angling = Year Round; Scoop Net = April 1 to June 15

American Eel

Min. Length: 9 inches
Daily Limit: 25
Methods: Angling, Ice Fishing, Spearing, Bow and Arrow*
Season: Year-round

*Spearing and bow and arrow use prohibited in streams or stream sections stocked with trout. Spearing prohibited in all lakes and ponds. The taking of elver eel, glass eel, and silver eel is prohibited.

American Shad

Min. Length: None
Daily Limit: 6*
Methods: Angling
Season: Year-round

*Harvesting American Shad is only allowed in the Connecticut River and its tributaries. Daily limit is in aggregate with Hickory Shad.

Atlantic Salmon*

Please refer to the [Commissioner's Declaration page](#) (QR code above)

Lakes/Ponds Stocked By DEEP:

Min. Length: None
Daily Limit: 1*
Methods: Angling, Ice Fishing
Season: Year-round*

Naugatuck River, Shetucket River, Housatonic River (Derby Dam to Merritt Parkway Bridge)

Min. Length: None
Daily Limit: 1*
Methods: Angling*
Season: Year-round*

*See page 10 for a summary of the [Commissioner's Declaration](#) describing daily limits, methods, and seasons.

Bait Species

Min. Length: None
Daily Limit: None

Methods: Bait Traps, Bait Seines, Cast Net, Umbrella Nets, Angling, Ice Fishing, Hand (**see the definition section for rules and specifications**).
Season: Year-round

Bait may be taken by sport fishermen for personal use (a recreational fishing license is required). A commercial bait dealer license is required to collect bait to sell. Fish that are legally acquired may be used as bait except for Largemouth Bass, Smallmouth Bass, Chain Pickerel, Northern Pike, all trout species, all salmon species, Carp and Goldfish. Legal bait species include; Common Shiner, Golden Shiner, Fallfish, Creek Chub, Spottail Shiner, Blacknose Dace, Longnose Dace, Pearl Dace, Bluntnose Minnow, Fathead Minnow, Cutlips Minnow, Creek Chub Sucker, White Sucker, killifish, Mummichog, Atlantic and Tidewater Silversides, Sand Lance, frogs (except northern leopard frog), crayfish (except rusty crayfish), perch bugs, hellgrammites and mayfly nymphs. **Invasive species are not legal to use for bait.**

**Black Bass
(Largemouth and Smallmouth)**

Min. Length:
Lakes/Ponds/CT River: 12 inches
Rivers/Streams: None
Daily Limit: 6*
Methods: Angling, Ice Fishing
Season: Year-round

*In aggregate. Regulations for minimum length and daily limit are different in Bass Management Lakes and the Housatonic River Bass Management Area.

Bowfin, Lamprey, Tench, Sucker

Min. Length: None
Daily Limit: None
Methods: Angling, Ice Fishing, Spearing, Bow and Arrow*
Season: Year-round

*Spearing and bow and arrow use prohibited in streams or stream sections stocked with trout. Spearing prohibited in all lakes and ponds.

Bullhead (Brown and Yellow)

Min. Length: None
Daily Limit: None
Methods: Angling, Ice Fishing, Hand
Season: Year-round

Burbot

The taking of Burbot is prohibited.

Catfish (Channel and White)

Min. Length: None
Daily Limit: 6*
Methods: Angling, Ice Fishing, Hand
Season: Year-round

*Daily limit is in aggregate. The daily creel limit is 3 catfish in Community Fishing Waters.

Chain Pickerel

Min. Length:
Lakes/Ponds: 15 inches
Rivers/Streams: None
Daily Limit:
Lakes/Ponds 6
Rivers/Streams None
Methods: Angling, Ice Fishing
Season: Year-round

Regulations for minimum length and daily limit are different in Chain Pickerel Management Lakes.

Common Carp (includes mirror, leather, ghost, and fantail variations)

Min. Length: None
Daily Limit: 5, only 1 may be greater than 30 inches*
Methods: Angling, Ice Fishing, Spearing, Bow and Arrow**
Season: Year-round

*Different daily creel and size regulations apply for bow and arrow fishing in some waters and in Trophy Carp Waters.

**Spearing and Bow and Arrow use prohibited in stream sections stocked with trout. Spearing prohibited in all lakes and ponds.

Kokanee Salmon

Min. Length: None
Daily Limit: 5*
Methods: Angling, Ice Fishing
Season: 6:00 AM on the second Saturday of April until the last day of February.*

*Catch and Release fishing only from March 1 until 6:00 am on the second Saturday of April.

Northern Pike and Tiger Muskie

Min. Length: 26 inches
Daily Limit: 2
Methods: Angling, Ice Fishing
Season: Year-round*

*Bantam Lake and Little Pond have special rules.

Panfish (Yellow Perch, Calico Bass/Black Crappie, Rock Bass, Pumpkinseed, Bluegill)

Min. Length: None
Daily Limit: None
Methods: Angling, Ice Fishing
Season: Year-round

Smelt	
	Min. Length: None Daily Limit: 50* Methods: Angling Season: Year-round
*Taking of smelt from rivers/streams is prohibited.	

Striped Bass	
	Slot Length: 28-31 inches* Daily Limit: 1 Methods: Angling Season: Year-round

Regulations for striped bass are likely to change and as such anglers should check the [DEEP saltwater species regulation web page](https://portal.ct.gov/deep/fishing/web-page) for current regulations.

*Any Striped Bass less than 28 inches or greater than or equal to 31 inches (measured from the snout to the tip of the tail) must be immediately released.

No spearing or gaffing. However, Striped Bass that are legally taken by spearing in another state may be landed in CT.

An in-line circle hook is required when fishing for Striped Bass and using bait (whole, cut, or live natural bait). This does not apply when fishing with artificial lures tipped with bait (tube and worm, bucktail jig, etc.)

No person shall land or possess on the waters of this state or on any parcel of land, structure, or portion of a roadway abutting tidal waters of this state any Striped Bass from which the head or tail has been removed or otherwise rendered unidentifiable as a Striped Bass or unable to be measured.

Sturgeon
The taking of Sturgeon is prohibited.

Trout (Brook, Brown, Rainbow, Tiger, Lake)	
	Min. Length: 9 inches Daily Limit: 5 Methods: Angling, Ice Fishing Season: Year-round*

*Catch and Release only from March 1 until 6:00am on the second Saturday of April.

A [Trout and Salmon Stamp](#) is required to keep trout or salmon.
 Different regulations apply in many waters including Trout management Areas, Trout Management Lakes, Trophy Trout Areas, Trout Parks, Wild Trout Management Areas, Sea-Run Trout Streams, Tidal Waters and Tributaries, and in the Marine District.

White Perch	
	Min. Length: None* Daily Limit: None* Methods: Angling, Ice Fishing Season: Year-round
*In the Marine District the minimum length is 7 inches and the daily limit is 30 fish.	

Walleye	
	Min. Length: 18 inches Daily Limit: 2 Methods: Angling, Ice fishing Season: Year-round

Is My Fish Safe to Eat?

The CT Department of Public Health (DPH) issues an annual fish consumption advisory each year to help the public make an informed decision about eating fish from Connecticut waters. The advice can be based on the type of fish or by waterbody. The advice is also based on if a person is in the “High Risk” or “Low Risk” group. To see the current advisory in multiple languages, please visit <https://portal.ct.gov/fish> or call 860-458-3474 (FISH).

Can I Eat Fish?
<http://bitly.ws/yB78>

Atlantic Salmon Open Season, Daily Creel Limit, Minimum Length, And Method Of Taking

The taking of Atlantic Salmon is prohibited in the State of Connecticut except for the following: 1. That portion of the Naugatuck River extending from the confluence of the East and West Branches of the Naugatuck River (Torrington) downstream to its confluence with the Housatonic River, 2. That portion of the Housatonic River extending from the Derby Dam (Derby-Shelton) downstream to its confluence with Long Island Sound (Stratford-Milford), 3. That portion of the Shetucket River extending from the Scotland Dam (Windham) downstream to the Water Street Bridge (Norwich), 4. Crystal Lake (Ellington, Stafford), and 5. Mount Tom Pond (Litchfield, Morris, Washington).

Under the authority of Section 26-112 of the Connecticut General Statutes and Section 26-112-45(c) of the Regulations of Connecticut State Agencies, the [Commissioner of DEEP](#) hereby declares open fishing season, daily creel limit, minimum length and legal method for taking Atlantic Salmon in the following stream sections and lakes:

Please scan the QR code or see this link to the [Commissioner's Declaration page](#)

Regulation	Naugatuck River, Shetucket River, Housatonic River*	Crystal Lake (Ellington) and MT Tom Pond
Daily Creel Limit	0 fish from September 1 until December 15 (catch and release) 1 fish from December 16 until August 31	0 fish from March 1 until 6:00 am April 11 (catch and release) 1 fish from 6:00 am April 11 until the last day of February
Minimum Length	None	None
Legal Method*	Angling - Required use of a single fly or an artificial lure, which must have a single free-swinging hook. Additional weight may not be added to the line. A bubble float attached to the line or leader to adjust buoyancy shall not be considered additional weight.	Angling or ice fishing no special restrictions on type of tackle/bait that can be used.

***NOTE:** In [Atlantic Salmon Management Areas](#) from September 1 to March 31, regardless of species fished for, **gear is limited to** a single fly or an artificial lure with a single free-swinging hook. A Trout and Salmon Stamp is required to fish within an Atlantic Salmon Management Area.

The boundaries for the Atlantic Salmon Management Areas are:

Naugatuck River- upper section: From the Route 118 crossing downstream to the Thomaston US Army Corps Dam.

Naugatuck River- lower section: From the Prospect Street Bridge in Naugatuck downstream to the Route 42 crossing in Beacon Falls.

Shetucket River: From the Scotland Dam downstream to the Occum Dam.

Lakes and Ponds

Summary of Fisheries Management Categories and Associated Waters

This section of the fishing guide details waters that have special fishing regulations, access limitations, or boating rules. The Fisheries Division makes use of a variety of tools to optimize fishing for some of the more popular game fish species. These tools (regulations) can be daily creel limits, minimum or maximum size limits, or limits on the type of gear that can be used. These regulations can, and do, vary by waterbody.

Management Category and Regulation(s)	Lakes/Ponds
<u>Bass Management Lakes</u>	
12-16 inch protective slot: All bass that are greater than 12 inches and less than 16 inches must be released without avoidable harm. Daily limit of 6 bass, only 2 bass may be greater than or equal to 16 inches.	Bashan Lake, Billings Lake, Black Pond (Meriden/Middlefield), Bolton Lakes, Colebrook River Lake, Coventry Lake, Halls Pond, Lake Chamberlain, Lake Hayward, Lake Kenosia, Maltby Lakes, Mamanasco Lake, Mansfield Hollow Reservoir, Mashapaug Lake, Pickerel Lake, West Side Pond, Lake Wononskopomuc
12-18 inch protective slot: All bass that are greater than 12 inches and less than 18 inches must be released without avoidable harm. Daily limit of 6 bass, only one may be greater than or equal to 18 inches.	Amos Lake, Moodus Reservoir, Mudge Pond, Pattagansett Lake
16-inch minimum length. Daily limit of 2 bass.	Gardner Lake, Highland Lake, Lake Housatonic, Mohegan Park Pond, Quinebaug Lake, Taftville Reservoir, Wyassup Lake
18-inch minimum length. Daily limit of 1 bass.	Lake Saltonstall
<u>Trout Management Lakes (TML)</u>	
Standard TML Regulation: Five trout per day from 6:00 am on the second Saturday of April until the last day of February. One fish per day from March 1 until 6:00 am on the second Saturday of April. 16-inch minimum length. A trout and salmon stamp is required to keep trout or salmon.	Amos Lake, Candlewood Lake, Long Pond, Quonnipaug Lake, Rogers Lake, Squantz Pond, West Hill Pond
12-16 inch protective slot: All trout that are greater than 12 inches and less than 16 inches must be released without avoidable harm. Five trout per day from 6:00 am on the second Saturday of April until the last day of February only 1 of which may be greater than 16 inches. One trout per day from March 1 until 6:00 am on the second Saturday of April. A trout and salmon stamp is required to keep trout or salmon. The icons listed below are used within the Lake and Pond section to help identify waters with specific amenities that may be appropriate for your fishing trip.

Amenity Icons	
Icon	Description
	Shore-based fishing opportunity
	Accessible to people with a variety of abilities
	A Trout and Salmon Stamp is required to fish here regardless if harvesting or not. A trout and salmon stamp is required to harvest (keep) trout or salmon from any/all public waters.
	Launch suitable for a trailered watercraft or car-top watercraft
	Launch suitable for car-top watercraft only
	Area is adequate for picnicking
	Child-friendly fishing
	Camping on-site or nearby
	Fishing line recycling container on site
	Stocked with adult trout, adult catfish, or both
	The Department of Public Health has issued a "Do Not Eat" consumption advisory for one or more types of fish in this waterbody. Please visit the Fish Consumption Advisory webpage for details.

The abbreviations listed below are used within the Lakes and Ponds section to indicate fish that are likely present.

Fish Species Abbreviation Codes			
AS	Atlantic Salmon	RA	Smelt
BB	Brown Bullhead	S	Sunfish
CA	Common Carp	SM	Smallmouth Bass
CB	Calico Bass	T	Trout
CC	Channel Catfish	TM	Tiger Muskie
CP	Chain Pickerel	WA	Walleye
K	Kokanee Salmon	WC	White Catfish
LM	Largemouth Bass	WP	White Perch
NP	Northern Pike	YP	Yellow Perch

Help Prevent The Spread

CT has a number of aquatic invasive species, like Hydrilla, Milfoil, Curly Leaf Pond Weed, Zebra Mussels, Rock Snot, and others. These species are easily transported to new waterbodies by hitch-hiking on watercraft, trailers, and/or waders.

Please be sure to **CLEAN, DRAIN, AND DRY** your equipment after leaving every waterbody. A bit of time invested can help prevent establishment of invasive species into new waters. Failure to properly remove and dispose of any vegetation or invasive species may result in a \$95 fine per violation.

Aquatic Invasive Species (AIS) Stamp

Please visit the [AIS stamp web page](#) for complete details.

To comply with the AIS Stamp law, boaters have two options:

1. Individual AIS Stamp (\$7.00). The Individual AIS Stamp is assigned to the individual purchasing the stamp, and it allows that individual to operate in compliance. The proof of purchase is displayed on that individual's Sportsmen Conservation License as a privilege like a hunting or fishing license.

2. Vessel AIS Decal (\$25.00). The Vessel AIS Decal is assigned to a particular vessel, and it allows anyone operating that vessel to operate in compliance. The proof of purchase is a decal that must be affixed to the vessel. The Vessel AIS Decal also provides an Individual AIS Stamp for the purchaser which will be displayed on that individual's Sportsmen Conservation License as a privilege like a hunting or fishing license.

Anyone operating a vessel without an AIS stamp or decal will be fined \$103.

Lakes/Ponds with Public Access that Follow Statewide Default Regulations

This section of the fishing guide provides information about fishing and boating regulations for many lakes and ponds with public access. There are likely additional waters located in municipal parks, on land trust property, or other properties accessible to the public that are not listed here. Please be sure to note any signage on site indicating allowable use, access, or other rules.

A Trout and Salmon Stamp is required to keep trout or salmon.

Lakes and Ponds With Special Fishing Regulations

This section of the fishing guide provides the **special fishing regulations** by waterbody and the boating regulations for select lakes and ponds. The **default statewide species regulations are in effect in absence of a special regulation**. Please be sure to note any signage on site indicating allowable use, access, or other rules. **A Trout and Salmon Stamp** is required to keep trout or salmon.

Allen Brook Pond, Wallingford, See Wharton Pond

Alexander Lake, Killingly

Size: 215 acres

Species: LM, SM, CP, S, BB, WP, YP

No Public Access. The possession and use of any live alewives, blueback (glut or river) herring, gizzard, hickory or threadfin shad as bait is prohibited.

Motors limited to 12 cubic inches (Approx. 10 horsepower).

Amos Lake, Preston

Size: 113 acres

Species: T, LM, BB, CP, S, YP

Trout Management Lake- Trout

From: March 1 to 6:00 am on the second Saturday of April.

Min. Length: 16 inches

Daily Limit: 1

Bass Management Lake- Largemouth and Smallmouth Bass

Daily Limit: 6 bass. All bass greater than 12 inches and less than 18 inches must be released. Only 1 of the 6 bass may be 18 inches or larger.

8 MPH speed limit except during summer (see CT DEEP Boater's Guide for details).

Angus Park Pond, Glastonbury

Size: 9 Acres

Species: LM, CP, T, S, BB, YP

Access courtesy of the Town of Glastonbury. Fishing allowed 6:00 a.m. on the second Saturday April to October 31.

Boats and canoes prohibited.

Aspinook Pond, Griswold

Size: 301 acres

Species: LM, WP, YP, S, CA, CB

Informal watercraft access off Butts Bridge Road, no facilities. Butts Bridge is the demarcation line between the pond and the Quinebaug River.

Avery Pond, Preston

Size: 36 acres

Species: CP, LM, YP, BB, S

8 MPH speed limit.

Babcock Pond, Colchester

Size: 119 acres

Species: CP, LM, YP, BB, S

8 MPH speed limit.

Ball Pond, New Fairfield

Size: 83 acres

Species: T, LM, YP, BB, S

Vessels with motors attached are prohibited. Includes electric motors.

Bantam Lake and Little Pond, Morris-Litchfield

Size: 947 acres

Species: NP, CP, LM, SM, CB, WP, YP, BB, S

Northern Pike-

From: May 1 to November 30

Min. Length: 26 inches

Daily Limit: 2

From: December 1 to last day of February

Min. Length: 36 inches

Daily Limit: 1

From: March 1 to April 30

Daily Limit: 0; Closed for Northern Pike fishing

Possession of live Tench is prohibited. Tench may be fished for and if caught, either immediately released to the water which taken or dispatched.

Motors are prohibited 11 p.m. to 5 a.m. Use of internal combustion motors prohibited on the Bantam River between Bantam Lake and the inlet to Little Pond.

Barber Pond, Bloomfield

Size: 9 acres

Species: S

Boat and canoes prohibited except between May 16 and October 31. All types of motors prohibited.

Bashan Lake, East Haddam

Size: 273 acres

Species: T, CP, SM, LM, CB YP, BB, S

Bass Management Lake-

Largemouth and Smallmouth Bass

Daily Limit: 6 bass. All bass greater than 12 inches and less than 16 inches must be released. Only 2 of the 6 bass may be 16 inches or larger.

Batterson Park Pond, Farmington-New Britain

Size: 140 acres

Species: LM, YP, BB, S, WA, CC, CA, CB, WP

Trophy Common Carp Water:

Common Carp

Maximum Length: 26 inches. All Common Carp over 26 inches must be released without avoidable injury.

Daily Limit: 1

Use of internal combustion engines to propel a vessel prohibited. Default regulations apply for all other species.

Beach Pond, Voluntown-Rhode Island

Size: 372 acres

Species: CP, LM, YP, BB, S, K, WA, T, SM

Boundary Water: CT or RI fishing license legal on entire pond.

Bass and pickerel: RI regulations apply

Trout: CT regs apply when in CT and RI regs apply when in RI.

All other species: CT regulations apply.

No more than 6 tip ups may be used while ice fishing.

Beachdale Pond, Voluntown

Size: 46 acres

Species: T, LM, BB, S, YP

8 MPH speed limit.

Beaver Brook Ponds (Bibbins Ponds), Windham

Size: 20 acres

Species: T, BB, S

Boat and canoes prohibited except between May 16 and October 31. All types of motors prohibited.

Beaver Park Pond, New Haven

Size: 20 acres

Species: T, BB, S, CC, CA, LM

Community Fishing Water- Catfish

Daily Limit: 3

Beseck Lake, Middlefield

Size: 116 acres

Species: YP, CB, BB, S, LM, NP

8 MPH speed limit except during summer (see CT DEEP Boater's Guide for details).

Bigelow Pond, Union

Size: 25 acres

Species: T, YP, BB, S, LM

Use of internal combustion engines to propel a vessel prohibited.

Billings Lake, North Stonington

Size: 97 acres

Species: YP, CB, S, LM, SM, T, CP

Bass Management Lake:

Largemouth and Smallmouth Bass

Daily Limit: 6 bass. All bass greater than 12 inches and less than 16 inches must be released. Only 2 of the 6 bass may be 16 inches or larger.

Birge Pond, Bristol
Size: 16 acres Species: T, BB, S, CC, LM

Community Fishing Water- Catfish Daily Limit: 3

Bishop Swamp (Jurovaty Pond), Andover
Size: 53 acres Species: CB, BB, S, LM

Informal car-top launch. Use of internal combustion engines to propel a vessel prohibited.

Black Pond, Middlefield-Meriden
Size: 76 acres Species: YP, CB, S, LM, T, CP, CC

Bass Management Lake- Largemouth and Smallmouth Bass Daily Limit: 6 bass. All bass greater than 12 inches and less than 16 inches must be released. Only 2 of the 6 bass may be 16 inches or larger.

Black Pond, Woodstock
Size: 74 acres Species: YP, CB, S, LM, SM, T, CP

Trout Management Lake- Trout From: March 1 to 6:00 am on the second Saturday of April. Min. Length: 14 inches Daily Limit: 1 From: 6:00 am on the second Saturday of April until the last day of February Daily limit: 5 trout in aggregate, not more than 1 of which may be a brook trout that is 14 inches or larger. Motors limited to 5 horsepower.

Largemouth Bass (*Micropterus salmoides*)

Black Rock Park Pond, Watertown
Size: 10 acres Species: LM, T, S

Trout Park- Trout Daily Limit: 2 All vessels prohibited

Bolton Lakes Upper, Middle, Lower, Bolton-Vernon-Coventry
Size: 346 acres Species: LM, S, CC, SM, YP, CP

Bass Management Lake- Largemouth and Smallmouth Bass Daily Limit: 6 bass. All bass greater than 12 inches and less than 16 inches must be released. Only 2 of the 6 bass may be 16 inches or larger. Motors limited to 6 horsepower.

Bolton Notch Pond, Bolton
Size: 17 acres Species: LM, S, YP, CP

Informal car-top launch.

Breakneck Pond, Union-Massachusetts
Size: 92 acres Species: LM, S, CB, YP, CP

Boundary Water- CT regulations apply. A CT or MA fishing license legal on entire pond. Walk-in access approximately 1.2 miles from the north end of Bigelow Pond. Use of internal combustion engines to propel a vessel prohibited. Motor vehicle access prohibited.

Broad Brook Millpond, East Windsor
Size: 19 acres Species: LM, S, T, YP

Use of all motors prohibited.

Bunnells Pond (Beardsley Park Pond), Bridgeport

Size: 33 acres

Species: LM, S, T, CC

Community Fishing Water-
Catfish

Daily Limit: 3

Ice fishing prohibited. Fee may be required to access the park at certain times of the year.

Burr Pond, Torrington

Size: 33 acres

Species: LM, S, CC, CB, CP, YP, BB

8 MPH speed limit.

Butternut Park Pond, See Rowans Pond

Candlewood Lake, New Milford- Danbury-Sherman-New Fairfield

Size: 5,064 acres

Species: LM, SM, WP, CB, T, S, CA, WC, BB, YP

Trout Management Lake-

Trout

From: March 1 to 6:00 am on the second Saturday of April.

Min. Length: 16 inches

Daily Limit: 1

45 MPH daytime speed limit. 25 MPH speed limit from 1/2 hour after sunset to 1/2 hour before sunrise.

Daily Limit: 3

Use of internal combustion engines to propel a vessel prohibited.

Lake Wononskopomuc (Lakeville Lake), Salisbury

Size: 348 acres
Species: LM, S, YP, BB, CP, CB

Bass Management Lake-

Largemouth and Smallmouth Bass

Daily Limit: 6 bass. All bass greater than 12 inches and less than 16 inches must be released. Only 2 of the 6 bass may be 16 inches or larger.

Trout Management Lake-

Trout

From: March 1 to 6:00 am on the second Saturday of April.

Min. Length: 22 inches

Daily Limit: 1

From: 6:00 am on the second Saturday of April until the last day of February

Daily limit: 5 trout in aggregate, not more than 1 of which may be a brown trout. The minimum length for Brown Trout is 22 inches

New Chain Pickerel Management Lake:

Chain Pickerel

Min. Length: 22 inches

Daily Limit: 1

Not more than two tip-ups, bobbers or floats, similar devices or hand-held jigging rods in any combination may be used at any one time when ice fishing.

The possession and use of any live Alewife, Blueback (glut or river) Herring, Gizzard, Hickory, or Threadfin shad as bait is prohibited.

No outside vessels are being allowed per town of Salisbury. The town has vessels for rent. Motors restricted to 112 cubic inches (approximately 10 HP). [Town operated boat launch.](#)

Wyassup Lake, North Stonington

Size: 99 acres

Species: S, T, LM, SM, CP, BB

Bass Management Lake-

Largemouth and Smallmouth Bass

Min. Length: 16 inches

Daily Limit: 2

8 MPH speed limit, see CT DEEP Boaters Guide for summer exemption.

Lake Zoar,

Oxford-Monroe-Newtown-Southbury

Size: 909 acres

Species: LM, SM, YP, BB, CP, CB, WP, CA, WC, WA, S

45 MPH daytime speed limit, 25 MPH from 1/2 hour after sunset to 1/2 hour before sunrise.

Fishing In These Areas Is Prohibited

1. Swim Areas: Casting or fishing is prohibited in swim areas permitted by the DEEP. There is a no wake zone 100 feet around the perimeter.

2. Fishways and Fish Ladders: Fishing is prohibited 250 feet upstream and downstream of most fishways. Some fishways differ and the no fishing zone is marked by signage posted by DEEP or by large rocks painted red. Questions should be directed to the Diadromous Fish Program 860-434-6043.

Tips For Better Catch and Release

Bait Fishing is a popular and effective technique. However, the baited hook is often swallowed by the fish resulting in a hook deeply embedded in the stomach ("gut"). To reduce "gut hooking" a fish, anglers should set the hook immediately before the bait can be completely swallowed. If a fish is "gut hooked" the best way to minimize injury is to cut the line as close to the hook eye as possible. This helps to prevent severe damage to the fish's internal organs while trying to remove a hook. If the hook is not stainless steel, it will eventually corrode due to the fish's stomach acids. Fishing tools including needle nose pliers, hemostats, hook disgorgers, and wire cutting pliers can be very helpful to minimize injury to the fish and hook removal time.

Artificial Lures are often rigged with multiple treble hooks. One disadvantage of these lures is that a fish struggling to escape capture will often hook itself with the remaining treble hooks, leading to additional injury. Anglers should try to use lures with a single hook if possible, [replace treble hooks](#) (scan QR code at right for a DIY video) with steel hooks (not stainless), crimp the barbs on the hooks, or reduce the number of treble hooks on the lure. Any combination of these actions will reduce catch and release mortality.

Rivers and Streams

This section of the fishing guide provides information about fishing regulations for many river and stream sections. There may be additional waters located in municipal parks, on land trust property, or other properties accessible to the public that are not listed here. Please be sure to note any signage on site indicating allowable use, access, or other rules. Always request permission prior to fishing on private property.

Summary of Fisheries Management Categories and Associated Waters

The Fisheries Division makes use of a variety of tools to optimize catch rates for some of the more popular game fish species. These tools (regulations) can be daily creel limits, minimum or maximum size limits, or limits on the type of gear that can be used. These regulations can, and do, vary by waterbody. This section of the fishing guide details waters that have special fishing regulations.

Management Category and Regulation(s)	Waters or Portions of Waters
Trout Management Areas (TMA)	
Year-round catch and release fishing only: * Indicates some or all of the TMA is limited to fly fishing gear only. A trout and salmon stamp is required to fish in these waters.	Coppermine Brook, Farmington River, Hockanum River, Housatonic River*, Mill River (Fairfield), Moosup River*, Naugatuck River, Pequabuck River, Tenmile River (Kent/Sherman), Willimantic River*
Seasonal Harvest: Catch and release fishing only from September 1 to 6:00 am on the second Saturday of April. Harvest allowed from 6:00 am on the second Saturday of April until August 31. A trout and salmon stamp is required to fish in these waters. * Indicates some or all of the TMA is limited to fly fishing gear only.	Farmington River, Hammonasset River, Mianus River, Mill River (Hamden), Salmon River*, Saugatuck River*, Yantic River*
Wild Trout Management Areas (WTMA)	
Class 1: Year-round catch and release fishing only and requires the use of a single barbless hook on an artificial lure or fly. A trout and salmon stamp is required to fish in these waters.	Beaver Brook (Barkhamsted), Beaver Brook (Scotland), Belden Brook (Granby), Bonemill Brook (Tolland), Cold Brook and tributaries (Glastonbury), Deep Brook (Newtown), Eightmile River (Southington), Freeman Hill Brook, Green Falls River, Gulf Stream (Somers), Hall Meadow Brook (Norfolk), Hawleys Brook, Hurricane Brook, Indian Hole Brook, Jericho Brook, Lowden Brook, Macedonia Brook, Merrick Brook, Mill River (Fairfield), Mohawk Pond Outflow, Morgan Brook, Pease Brook, Pootatuck River, Quinnipiac River, Railroad Brook, Sages Ravine Brook, Spruce Brook (Litchfield), Stratton Brook, Stony Brook (Montville), Tankerhoosen River, Thorne Brook, Wachocastinook Brook, West Branch Salmon Brook and Tributaries (Hartland), Willow Brook and Tributaries (Cheshire)
Class 2: Daily limit of 2 trout with a 12-inch minimum length. Harvest is allowed from 6:00 am on the second Saturday of April until the last day of February. Catch and release only March 1 to 6:00 am on the second Saturday of April. A trout and salmon stamp is required to fish in these waters.	Furnace Brook (Cornwall), Salmon Brook (Glastonbury)

Management Category and Regulation(s)	Waters or Portions of Waters
Class 3: Catch and release only March 1 to 6:00 am on the second Saturday of April. Daily limit of 5 trout from 6:00 am on the second Saturday of April until the last day of February. A trout and salmon stamp is required to fish in these waters.	Beacon Hill Brook, Blackberry River, East Aspetuck River, Farm River, Fenton River, Little River (Oxford), Norwalk River, Roaring Brook (Glastonbury), Roaring Brook (Willington), Salmon Brook (Granby)
Trout Parks: Catch and release only March 1 to 6:00 am on the second Saturday of April. Daily limit of 2 trout from 6:00 am on the second Saturday of April until the last day of February. A trout and salmon stamp is required to fish in these waters.	Branch Brook, Chatfield Hollow Brook, Eightmile Brook (Oxford), Kent Falls Brook, Kettletown Brook, Macedonia Brook (in the state park), Mashamoquet Brook, Natchaug River
Trophy Trout Areas: Catch and release only March 1 to 6:00 am on the second Saturday of April. Daily limit of 2 trout from 6:00 am on the second Saturday of April until the last day of February. A trout and salmon stamp is required to keep trout or salmon.	Natchaug River, Naugatuck River, Pequonnock River, Pomperaug River, Salmon River, Shetucket River
Sea-Run Trout Streams: Daily limit is 2 trout, 15- inch minimum length. Harvest of trout is allowed year-round. A trout and salmon stamp is required to keep trout.	Farm River, Hammonasset River, Latimer Brook, Oil Mill Brook, and Saugatuck River
Atlantic Salmon Management Areas: Fishing for Atlantic salmon requires use of a fly or an artificial lure with a single free-swinging hook at all times. From September 1 to March 31 the same gear is required regardless of species sought. A trout and salmon stamp is required to fish in these waters. Catch and release fishing only from September 1 to December 16. One salmon per angler per day from December 16 until August 31. No minimum size.	Naugatuck River from the Route 118 bridge (Harwinton/Litchfield) downstream to the Thomaston Army Corps Dam (Thomaston), Naugatuck River from Prospect Street (Naugatuck) to Pines Bridge Road (Beacon Falls), Shetucket River from the Scotland Dam to the Occum Dam
Bass Management Areas: Catch and release fishing only. All bass must be returned immediately without avoidable injury. <i>NOTE there is a section of the Housatonic River in Cornwall, which is limited to fly fishing only regardless if fishing for bass or other species.</i>	Housatonic River (CT/MA state line to the Bleachery Dam in New Milford), Tenmile River (Kent/Sherman).
Trophy Carp Waters: These waters have a daily limit of 1 carp and MAXIMUM size limit of 26 inches. Some sections have different rules for bow and arrow fishing.	Coginchaug River, Connecticut River and its coves, Farmington River, Mattebesset River, Salmon River
Common Carp Enhanced Bow and Arrow Fishing Waters: Portions of these waters have a daily creel limit of 12 carp with not more than 3 of the 12 carp greater than 30 inches.	Coginchaug River, Connecticut River and its coves downstream of the Arrigoni Bridge, Housatonic River downstream of the Derby Dam, Mattebesset River, Quinnipiac River, Salmon River, Shetucket River, Thames River, Yantic River
Tidal Waters and Tributaries: Sections of these waters where trout harvest is allowed year-round. Special rules apply to for some species in these sections. Daily limit is 2 trout, 15-inch minimum length.	Coginchaug River, Connecticut River, Farmington River, Housatonic River, Mattebesset River, Mystic River, Naugatuck River, Niantic River, Quinnipiac River, Salmon River, Shetucket River, Thames River, Yantic River

Amenity Icons

Icon	Description
	Accessible to people with a variety of abilities
	A Trout and Salmon Stamp is required to fish here regardless if harvesting or not. A trout and salmon stamp is required to harvest (keep) trout or salmon from any/all public waters.
	Wild Trout Management Area and Class (1, 2, or 3)  
	Area is adequate for picnicking
	Child-friendly fishing
	Camping on-site or nearby
	Fishing line recycling container at some access locations
	Fly fishing only section
	Car top watercraft access in sections
	Trailer launch in sections
	Stocked with adult trout
ATS	Stocked with adult Atlantic Salmon
	The Department of Public Health has issued a "Do Not Eat" consumption advisory for one or more types of fish in parts of this waterbody. Please visit the Fish Consumption Advisory webpage for details.

Fish Legally - Respect Private Property.

Maps, Apps, And Social Media Posts May Not Tell The Full Story.

Drinking Water Supply Reservoirs are closed to public access unless explicitly allowed by the water company.

The stream bottom can be privately owned. Wading in a stream or river may be considered trespassing. When in doubt ask permission from the landowner and always respect landowner's right to post their property.

Discarding Fishing Line And Other Trash

Anglers are reminded that any person who intentionally discards fishing line or other litter in the waters of the state, on public property of the state, or on private property not owned by such person is subject to a fine under section 22a-250 of the general statutes.

Carelessly discarded fishing line can seriously harm or kill wildlife. Animals can become entangled in, or ingest the line, which can cause starvation, strangulation, and/or deep wounding. Birds are especially susceptible to entanglement as line is an attractive material to add to nests.

Receptacles to dispose of fishing line when fishing have been installed in dozens of locations around the state. Visit the DEEP webpage for the [list of receptacles](#).

Rivers and Streams or Sections of Rivers and Streams With Special Fishing Regulations

Statewide regulations apply to the sections of rivers or streams which are outside of the areas described for each waterbody in this section.

Bantam River, Litchfield

Fly Fishing only downstream of the upper West Morris Road crossing as indicated by posters.

Beacon Hill Brook, Beacon Falls

Wild Trout Management Area Class 3: From the Route 63 crossing to the Naugatuck River.

Beaver Brook, Barkhamsted

Wild Trout Management Area Class 1: Entire brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Beaver Brook, Scotland

Wild Trout Management Area Class 1: Within the Talbot Wildlife Management Area.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Belden Brook, Hartland-Granby

Wild Trout Management Area Class 1: Entire brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Blackberry River, Canaan

Wild Trout Management Area Class 3: The confluence with the Whiting River downstream to the Housatonic River.

New

Bonemill Brook, Tolland

Wild Trout Management Area Class 1: Upstream of Sweatheart Lake.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Branch Brook, Watertown-Thomaston

Trout Park: Within Black Rock State Park

Trout:
Daily Limit: 2

New

Brooksville Stream, Cheshire-Hamden

Wild Trout Management Area Class 1: Entire stream.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Chatfield Hollow Brook, Killingworth

Trout Park: Within Chatfield Hollow State Park

Trout:
Daily Limit: 2

Coginchaug River, Middletown

Tidal Waters and Tributaries and Trophy Common Carp Water: Route 3 crossing to the Connecticut River.

Trout:
Min. Length: 15-inches, harvest allowed year-round.
Daily limit: 2

Common Carp: When angling
Maximum Length: 26-inches
Daily limit: 2 carp

Common Carp Enhanced Bow and Arrow Fishing Water: When fishing with bow and arrow
Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

New

Cold Brook and Tributaries, Glastonbury

Wild Trout Management Area Class 1: Cold Brook upstream of the confluence with Roaring Brook (ii) Mott Hill Brook, and (iii) Dark Hollow Brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Connecticut River and Coves, Enfield-Old Saybrook

Tidal Waters and Tributaries and Trophy Common Carp Water:

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Largemouth Bass and Smallmouth Bass:

Min. Length: 12-inches

Daily limit: 6

Northern Pike:

Min. Length: 24-inches

Daily limit: 2

Common Carp: When angling

Maximum Length: 26-inches

Daily limit: 2 carp

Common Carp Enhanced Bow and Arrow

Fishing Water: When fishing with bow and arrow downstream of the Arrigoni Bridge in Middletown

Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

Alewife and Blueback Herring: closed to all fishing/taking.

Possession of live Bowfin is prohibited. Bowfin may be fished for and if caught, either immediately released to the water which taken or dispatched.

Coppermine Brook, Bristol

Year-Round Catch and Release Trout Management Area: Artisan Street to the Pequabuck River.

Trout: Catch and release year-round.

New

Dark Hollow Brook, Glastonbury

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Deep Brook, Newtown

Wild Trout Management Area Class 1: Wasserman Way to the Pootatuck River. Includes a portion of the Pootatuck River above and below the confluence as posted with signs by the CT DEEP.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

East Aspetuck River, Washington-New Milford

Wild Trout Management Area Class 3: Lake Waramaug to the Housatonic River.

East Branch Salmon Brook, Granby

Wild Trout Management Area Class 3: Route 20 downstream to the Farmington River:

Eightmile Brook, Southbury-Oxford

Trout Park: Within Southford Falls State Park

Trout:

Daily Limit: 2

Eightmile River, Southington

Wild Trout Management Area Class 1: The entire river in Southington.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Bowfin (*Amia calva*)

Farm River, North Branford-East Haven

Wild Trout Management Area Class 3: Mill Road to Route 95.

Sea-Run Trout Stream: Downstream of Route 95. **Trout:**

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Farmington River/West Branch Farmington River, Hartland-Windsor

Seasonal Catch and Release Trout Management Area: Hogback Dam (Hartland) to old abutments (Barkhamsted). **Trout:**

September 1 until 6:00 am on the second Saturday of April, catch and release only. From 6:00 am on the second Saturday of April until August 31, daily limit 2 fish, 12-inch minimum length.

Year-Round Catch and Release Trout Management Area: Old bridge abutments (Barkhamsted) to Route 219 (New Hartford).

Trout: Catch and release year-round. Barbless hooks required.

Seasonal Catch and Release Trout Management Area: Route 219 (New Hartford) to Route 177 (Farmington). **Trout:** September 1 until 6:00 am on the second Saturday of April, catch and release only. From 6:00 am on the second Saturday of April until August 31, daily limit 2 fish, 12-inch minimum length.

Route 177 (Farmington) to Rainbow Reservoir (Windsor Locks). **Trout:** March 1 until 6:00 am on the second Saturday of April, catch and release only. From 6:00 am on the second Saturday of April until the last day of February, daily limit 5 fish.

Tidal Waters and Tributaries: The confluence with Rainbow Brook (confluence of the tail race canal and the spillway channel) downstream to the CT River

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Trophy Common Carp Water: **Common Carp**
Maximum Length: 26-inches

Daily limit: 2 carp

Note: All fishing is prohibited from the confluence with Rainbow Brook UPSTREAM to the Rainbow Dam in either the tail race canal and the spillway channel.

Fenton River, Willington-Mansfield

Wild Trout Management Area Class 3: Entire river in Willington and Mansfield.

Freeman Hill Brook, Burlington

Wild Trout Management Area Class 1: Upstream of Route 69 crossing through Sessions Woods Wildlife Management Area.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Furnace Brook, Cornwall Heather Reeves Wild Trout Management Area

Wild Trout Management Area Class 2: Entire waterbody upstream of the Housatonic River as posted with signs by CT DEEP.

Trout:

Min. Length: 12-inches

Daily limit: 2

Never miss when your favorite fishing hole gets stocked. The Fisheries Division's [Interactive Trout Stocking Map](#) is updated daily.

Interactive Trout Stocking Map
<http://bitly.ws/yyNM>

Eastern Brook Trout (*Salvelinus fontinalis*)

New

Green Falls River, North Stonington

Wild Trout Management Area Class 1: Upstream of the confluence with Wyassup Brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Gulf Stream and Tributaries, Somers

Wild Trout Management Area Class 1: Gulf Stream upstream of confluence with the Scantic River and Lievre Brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Hall Meadow Brook, Goshen-Norfolk

Wild Trout Management Area Class 1: Upstream of the Torrington town line.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Hickory Brook, Cheshire-Hamden

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Higley Brook, Granby

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and Release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Hockanum River, Vernon-East Hartford

Year-Round Catch and Release Trout Management Area: Route 84 crossing in Vernon downstream to the 1-84 crossing in Laurel Marsh.

Trout: Catch and release year-round.

Hammonasset River, Madison

Seasonal Catch and Release Trout Management Area: From Lake Hammonasset dam to Chestnut Hill Road (Madison)

Trout: September 1 until 6:00 am on the second Saturday of April, catch and release only. From 6:00 am on the second Saturday of April until August 31, daily limit 2 fish.

Sea-Run Trout Stream: Downstream of the breeched dam above River Road.

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Hawleys Brook, Easton-Weston

Wild Trout Management Area Class 1: Within Trout Brook Valley Property.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

<https://bitly.cx/K3grp>

Housatonic River, Salisbury-Milford

Year-Round Catch and Release Trout

Management Area: Route 112 (Sharon) to Route 4/Route 7 crossing (Cornwall). **Trout-** catch and release year-round.

Gear restricted to fly fishing only, regardless of species fished for, within the 3-mile section upstream of the Route 4/7 bridge as posted with signs by CT DEEP.

June 15 to September 15 **fishing prohibited** within 100 feet of thermal refuges as posted with signs by CT DEEP.

Year-Round Catch and Release Trout

Management Area: Bulls Bridge Dam (Kent) to Route 7 bridge (New Milford). **Trout-** catch and release year-round.

June 15 to September 15 **fishing prohibited** within 100 feet of thermal refuges as posted with signs by CT DEEP.

Bass Management Area: Entire river from CT state line to the Bleachery Dam in New Milford. All bass must be released immediately without avoidable injury. **NOTE:** *there is a section of river in Cornwall that is limited to fly fishing only. This is regardless of the species being sought.*

Atlantic salmon: Derby Dam to Merritt Parkway Bridge September 1 to December 15, catch and release only. December 16 to August 31, daily limit 1 salmon, no minimum length. When fishing for Atlantic Salmon gear is restricted to single fly or lure with a free-swinging hook.

Tidal Waters and Tributaries: Downstream of Lake Housatonic/Derby Dam

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Common Carp Enhanced Bow and Arrow

Fishing Water- When fishing with bow and arrow **Daily Limit:** 12, not more than 3 of which can be greater than 30 inches.

New

Howells Pond Brook, Hartland

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Hurricane Brook, Hartland

Wild Trout Management Area Class 1: Upstream of the Route 20 crossing.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Indian Hole Brook, Shelton

Wild Trout Management Area Class 1: Entire brook.

Trout: Catch and Release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Jefferson Hill Brook, Litchfield

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Jepp Brook, Cheshire-Hamden

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Jericho Brook, Watertown-Thomaston

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Kent Falls Brook, Kent

Trout Park: Within Kent Falls State Park

Trout:

Daily Limit: 2

New

Kettletown Brook, Southbury

Trout Park: Within Kettletown State Park

Trout:

Daily Limit: 2

Latimer Brook, East Lyme

Sea-Run Trout Stream: Downstream of I-95 crossing.

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

New

Lievre Brook, Somers

Wild Trout Management Area Class 1: Entire brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Little River, Oxford

Wild Trout Management Area Class 3: Towner Lane downstream to Park Road Crossing.

New

Lowden Brook, Voluntown

Wild Trout Management Area Class 1: Entire brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Macedonia Brook, Kent

Wild Trout Management Area Class 1: Bog Hollow Brook to Route 341 crossing:

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Trout Park: Within Macedonia Brook State Park

Trout:

Daily Limit: 2

Mashamoquet Brook, Pomfret

New

Trout Park: Within Mashamoquet Brook State Park

Trout:

Daily Limit: 2

Mattebesset River, Middletown

Tidal Waters and Tributaries and Trophy Common Carp Water: Route 372 crossing downstream to the Connecticut River.

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Common Carp: When angling

Maximum Length: 26-inches

Daily limit: 2 carp

Common Carp Enhanced Bow and Arrow

Fishing Water- When fishing with bow and arrow

Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

Merrick Brook, Scotland

Wild Trout Management Area Class 1: Within Talbot Wildlife Management Area and upstream of the WMA as posted with signs by CT DEEP.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

<i>Mianus River, Greenwich-Stamford</i>
 
Seasonal Catch and Release Trout Management Area: Merriebrook Lane upstream 1 mile to dam. Trout: September 1 until 6 am on the second Saturday of April, catch and release only. From 6 am second Saturday of April until August 31, 2 trout daily limit.
Gear restricted to single hook flies and single hook artificial lures only regardless of species fished for.

<i>Mill River, Fairfield</i>
 
Wild Trout Management Area Class 1: The confluence with Canoe Brook, as posted with signs by CT DEEP, downstream to the crossing with the Merritt Parkway. Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.
Year-Round Catch and Release Trout Management Area: Merritt Parkway crossing downstream to Lake Mohegan (Fairfield). Trout: Catch and Release year-round.

<i>Mill River, Hamden includes Axle Shop Pond</i>
   
Seasonal Catch and Release Trout Management Area: Within Sleeping Giant State Park. Trout: September 1 until 6 am second Saturday of April, catch and release only. From the second Saturday of April until August 31, 5 trout daily limit.

<i>Mohawk Pond Outflow, Cornwall</i>
 
Wild Trout Management Area Class 1: Entire brook Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

<i>Moosehorn Brook, Granby</i>
 
Wild Trout Management Area Class 1: Entire brook Trout: Catch and Release year-round. Gear limited to an artificial lure/fly with single barbless hook.

<i>Moosup River, Plainfield</i>
  
Year-Round Catch and Release Trout Management Area: Route 14 crossing downstream to the Quinebaug River. Trout: Catch and release year-round. Gear restricted to fly fishing only within the lower half of this section as posted with signs by the CT DEEP.

<i>Morgan Brook and Mallory Brook, Barkhamsted</i>
  
Wild Trout Management Area Class 1: Entire brook Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

<i>Mott Hill Brook, Glastonbury</i>
 
Wild Trout Management Area Class 1: Entire brook Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

<i>Mountain Brook, Granby</i>
 
Wild Trout Management Area Class 1: Entire brook Trout: Catch and Release year-round. Gear limited to an artificial lure/fly with single barbless hook.

<i>Mystic River, Groton</i>
Tidal Waters and Tributaries: From the confluence of Haleys Brook and Whitford Brook downstream. Trout: Min. Length: 15-inches, harvest allowed year-round Daily limit: 2

<i>Natchaug River, Eastford-Mansfield</i>
    
Trophy Trout Area: Entire river including the Trout Park within Natchaug State Forest. Trout: Daily Limit: 2

Naugatuck River, Torrington-Ansonia

ATS

Trophy Trout Area: Entire river from Torrington To Seymour, except from Route 118 (Harwinton/ Litchfield) to the Thomaston Army Corps Dam

Trout:

Daily Limit: 2

Gear restrictions apply if fishing in the Atlantic Salmon Management Areas from September 1 to March 31. *Gear restricted to a single fly or a lure with a single free-swinging hook at all times.* No additional weight may be added to the line.

Fishing prohibited within 100 feet of thermal refuges from June 15 to September 15 as posted with signs by CT DEEP.

Year-Round Catch and Release Trout

Management Area: Route 118 to the Thomaston Army Corps Dam

Trout:

Catch and release year-round.

From September 1 to March 31 gear is restricted to a single fly or a lure with a single free-swinging hook. No additional weight may be added to the line.

Atlantic Salmon Management Area (upper):
Route 118 to the Thomaston Army Corps Dam

Atlantic Salmon:

September 1 to December 15, catch and release only. December 16 to August 31 daily creel limit of 1 salmon, no minimum length.

Gear restricted to a single fly or a lure with a single free-swinging hook at all times. No additional weight may be added to the line.

Atlantic Salmon Management Area (lower):
Prospect Street (Naugatuck) to Route 42 bridge crossing (Beacon Falls).

Atlantic Salmon:

September 1 to December 15, catch and release only. December 16 to August 31, daily creel limit of 1 salmon, no minimum length. Gear for salmon restricted to a single fly or a lure with a single free-swinging hook at all times. No additional weight may be added to the line.

All other species: From September 1 to March 31, when fishing in this section, the gear restriction applies.

Naugatuck River continued

Tidal Waters and Tributaries: Downstream of Kinneytown Dam, Seymour

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Atlantic Salmon: September 1 to December 15, catch and release only. From December 16 to August 31, daily creel limit of 1, no minimum length. When fishing for Atlantic salmon, in this section, gear is restricted to a single fly or a lure with a single free-swinging hook. No additional weight may be added to the line.

Niantic River, East Lyme-Waterford

Tidal Waters and Tributaries: Downstream of the confluence with Latimer Brook.

Trout:

Min. Length: 15-inches, harvest allowed year-round

Daily limit: 2

Norwalk River, Norwalk

Wild Trout Management Area Class 3: The entire river within Wilton and Ridgefield that is upstream of Wolf Pit Road (Wilton).

OPT OUT OF LEAD SINKERS

Lead is a metal, which in sufficient quantities, can negatively affect the nervous and reproductive systems of animals (especially waterfowl and fish eating birds) and humans.

To reduce unintentional lead poisoning of wildlife substitute your lead tackle with sinkers and jigs made from other non-poisonous metals such as tin, bismuth, steel, or tungsten.

Rainbow Trout (*Oncorhynchus mykiss*)

Oil Mill Brook, Waterford

Sea-Run Trout Stream: Downstream of I-95 crossing.

Trout:

Min. Length: 15-inches, harvest allowed year-round

Daily limit: 2

New

Pease Brook, Lebanon

Wild Trout Management Area Class 1: Within the Pease Brook Wildlife Management Area.

Trout: Catch and Release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Pequabuck River, Bristol

Year-Round Catch and Release Trout Management Area: King Street downstream to the Route 177 crossing, including a section of Coppermine Brook.

Trout: Catch and release year-round.

Pequonnock River, Trumbull

Trophy Trout Area: Whitney Avenue Bridge to Daniels Farm Road, includes Trumbull Basin.

Trout:

Daily Limit: 2

NOTE: A parking permit is required to park on streets adjacent to the Trumbull Basin and many Trumbull municipal parks. This pass may be acquired free by anglers wishing to fish the waters by visiting the Trumbull Parks and Recreation Department.

Pomperaug River, Woodbury-Southbury

Trophy Trout Area: The entire river from the confluence of the Nonewaug River and Weekeepemee River downstream to Lake Zoar.

Trout:

Daily Limit: 2

Pootatuck River, Newtown

Wild Trout Management Area Class 1: From approximately 1/2 mile above and below the confluence with Deep Brook as posted with signs by CT DEEP.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Quinnipiac River, Southington-New Haven

Wild Trout Management Area Class 1: The entire river in Southington and Cheshire upstream of Cheshire Street. **Trout:** Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Tidal Waters and Tributaries: The Route 5 crossing (North Haven) downstream to the New Haven Harbor.

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Common Carp Enhanced Bow and Arrow

Fishing Water: When fishing with bow and arrow
Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

New

Railroad Brook, Vernon

Wild Trout Management Area Class 1: Upstream of the confluence with the Tankerhoosen River, except for Valley Falls Pond, which is a trout park.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Roaring Brook, Cheshire-Hamden

Wild Trout Management Area Class 1: Entire Brook

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Roaring Brook, Glastonbury
Eric C. Schluntz Wild Trout Management Area

Wild Trout Management Area Class 3: Route 94 crossing downstream to the Connecticut River.

Roaring Brook, Stafford-Willington

Wild Trout Management Area Class 3: Route 190 crossing to the Willimantic River.

New

Sages Ravine Brook, Salisbury

Wild Trout Management Area Class 1: Entire brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Salmon Brook, Glastonbury

Wild Trout Management Area Class 2: Addison Pond dam downstream to the Connecticut River.

Trout:
Min. Length: 12-inches
Daily limit: 2

Salmon Brook and East Branch Salmon Brook, Granby

Wild Trout Management Area Class 3: Route 20 crossing downstream to the Farmington River.

Brown Trout (*Salmo trutta*)

Salmon River, Colchester-East Haddam

Seasonal Catch and Release Trout Management Area and Trophy Trout Area: The confluence of the Blackledge River and Jeremy River to the Route 16 crossing.

Trout: September 1 until 6:00 am on the second Saturday of April, catch and release only. From 6:00 am second Saturday of April until August 31, 2 trout daily limit.

Gear restricted to fly fishing only in the middle of this section as posted with signs by the CT DEEP.

Trophy Trout Area: Route 16 crossing downstream to the Route 151 crossing.

Trout:
Daily limit: 2

Tidal Waters and Tributaries: The Route 151 crossing downstream to the Connecticut River

Trout:
Min. Length: 15-inches, harvest allowed year-round.
Daily limit: 2

Trophy Common Carp Water: Daily creel limit 1 carp, 26-inch maximum length.

Common Carp Enhanced Bow and Arrow Fishing Water: When fishing with bow and arrow
Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

Fish Handling Tips If You Plan to Catch and Release:

- Limit the amount of time a fish is played while hooked and retrieved.
- Wet your hands prior to handling the fish.
- Unhook quickly by using single barbless hooks whenever possible (replace treble hooks), cut the line if deeply hooked (vs. taking minutes to dig the hook out).
- Never touch the gills (or reach under the gill cover) as damage can cause bleeding and delayed mortality.
- Keep the fish in the water while unhooking (not flopping around in the boat, shore, ice, or pavement).
- Minimize the time spent out of the water when taking photos.

Release tips video

Saugatuck River, Westport
William "Doc" Skerlick Trout Management Area

Seasonal Catch and Release Trout Management Area: The Dorrs Mill Dam downstream to the Merritt Parkway crossing.

Trout: September 1 until 6:00 am on the second Saturday of April, catch and release only. From 6:00 am second Saturday of April until August 31, 2 trout daily limit.

Gear restricted to fly fishing only.

Sea-Run Trout Stream: Downstream of the "Wood Dam" (Westport)

Trout:

Min. Length: 15-inches, harvest allowed year-round

Daily limit: 2

Shetucket River, Windham-Norwich

ATS

Trophy Trout Area: The entire river upstream of the Greenville Dam (Norwich).

Trout:

Daily limit: 2

Atlantic Salmon Management Area: The Scotland Dam to the Occum Dam. **Atlantic Salmon:** September 1 to December 15 Catch and Release only. December 16 to August 31 daily creel limit of 1 salmon, no minimum length. Gear for salmon restricted to a single fly or a lure with a single free-swinging hook at all times. No additional weight may be added to the line.

All other species: From September 1 to March 31, when fishing in this section, the gear restriction applies.

Tidal Waters and Tributaries: Downstream of the Greenville Dam

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Common Carp Enhanced Bow and Arrow

Fishing Water: When fishing with bow and arrow

Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

New

Spruce Brook and Tributaries, Litchfield

Wild Trout Management Area Class 1: Spruce Brook in Litchfield above the confluence with the Naugatuck River, and Jefferson Hill Brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Stony Brook, Montville

Wild Trout Management Area Class 1: The entire brook within Montville.

Trout: Catch and Release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Stratton Brook, Simsbury

Wild Trout Management Area Class 1: Upstream of the confluence with Hop Brook, except for the impoundment within Stratton Brook State Park, which is a trout park.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Tankerhoosen River, Vernon

Wild Trout Management Area Class 1: The river and its tributaries as posted with signs by CT DEEP within the Belding Wildlife Management Area.

Trout: Catch and release year-round. Gear limited to a artificial lure/fly with single barbless hook.

Tenmile River, Kent-Sherman

Year-Round Catch and Release Trout Management Area: The entire river from the NY/CT state line to the Housatonic River

Trout: Catch and Release year-round. **Black Bass (Largemouth and Smallmouth):** Catch and release year-round.

New

Thames River, Norwich-New London

Tidal Waters and Tributaries: Entire river including coves.

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2

Common Carp Enhanced Bow and Arrow

Fishing Water: When fishing with bow and arrow

Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

New

Thorne Brook and Tributaries, Hartland

Wild Trout Management Area Class 1: Thorne Brook upstream of the West Branch Farmington River, Howells Pond Brook, and all unnamed tributaries to Thorne Brook or Howells Pond Brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Wachocastinook (Riga) Brook, Salisbury

Wild Trout Management Area Class 1: Downstream of South Pond as posted with signs by CT DEEP within MT Riga Corporation Property.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

West Branch Salmon Brook and Tributaries, Granby-Hartland

Wild Trout Management Area Class 1: West Branch Salmon Brook upstream of Broad Hill Road in Granby, Higley Brook, Mountain Brook, Moosehorn Brook, and Wright Brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

**Willimantic River, Willington-Windham
Cole Wilde Trout Management Area**

Year-Round Catch and Release Trout Management Area: The confluence with Roaring Brook (Willington) to the Route 74 crossing.

Gear limited to fly fishing only regardless of species fished for.

**Willow Brook and Tributaries,
Cheshire-Hamden**

Wild Trout Management Area Class 1: Willow Brook in Cheshire above Route 10, (ii) Jepp Brook, (iii) Hickory Brook, (iv) Brooksville Stream, and (v) Roaring Brook.

Trout: Catch and release year-round. Gear limited to an artificial lure/fly with single barbless hook.

New

Wright Brook, Granby

Wild Trout Management Area Class 1: Entire Brook

Trout: Catch and Release year-round. Gear limited to an artificial lure/fly with single barbless hook.

Yantic River, Bozrah-Norwich

Seasonal Catch and Release Trout Management Area: Barstow Road downstream to the bridge near the intersection with Schwartz Road.

Gear restricted to fly fishing only, regardless of species fished for, in this section as posted with signs by the CT DEEP.

Trout: September 1 until 6:00 am on the second Saturday of April, catch and release only. From 6:00 am second Saturday of April until August 31, 2 trout daily limit.

Tidal Waters and Tributaries: From the waterfall at Lovers Leap to the Thames River:

Trout:

Min. Length: 15-inches, harvest allowed year-round.

Daily limit: 2 carp

Common Carp Enhanced Bow and Arrow

Fishing Water: When fishing with bow and arrow

Daily Limit: 12 carp, not more than 3 of which can be greater than 30 inches.

Definitions and Regulatory Terms for Sportfishing in the Inland District

The following are taken from the regulations for sportfishing in the Inland District ([RCSA 26-112-43](#)) found on the Secretary of State web page or from the CT General Statutes ([Title 26 - Fish and Game](#)). They do not apply to taking fish from licensed commercial hatcheries, private waters legally registered with DEEP, or to commercial fishing in the inland district. Information on [commercial fishing](#) is available on the CT DEEP web page.

***Indicates a new or modified definition effective January 1, 2026**

ANGLING Fishing with hook and line, which must be personally attended. No more than three lines, with or without rods, may be used at one time, except in the designated Trout Management Areas, Wild Trout Management Areas, Trout Parks, Sea-run Trout Streams and Trophy Trout Streams where the maximum number of lines that can be used is two, with or without rods. Each line may have any combination of hooks, flies or lures, among which not more than three hooks may be baited.

***ARTIFICIAL LURE/LURE** means any manufactured product, scented or non-scented, made of wood, metal, plastic, glass, leather, cork, fiber, or rubber, except for bait or flies as defined, designed to catch fish by angling or ice fishing.

***BAIT** means any animal, bait species as defined in section 26-112-45(d) of the Regulations of Connecticut State Agencies, fish eggs, insect or vegetable, or parts thereof, living or dead, except for certain nuisance aquatic invertebrates as provided for in section 26-55-5 of the Regulations of Connecticut State Agencies and manufactured scented baits, used with a hook for the purpose of attracting and catching fish. Any fish legally acquired, except black bass (largemouth and smallmouth), Chain Pickerel, Northern Pike, trout, salmon, carp and goldfish may be used as bait, except as provided in section 26-112-48(b) of the Regulations of Connecticut State Agencies.

BAIT FISHING means taking or attempting to take bait species, for personal use as bait or food, by use of a bait seine, bait trap, cast net, umbrella net, scoop net or by hand.

BAIT SEINE means a seine or net which, for the purpose of this regulation, does not exceed fifteen feet in length and four feet in depth and is used for the taking of bait species.

BAIT TRAP means a glass, wire or wooden device which does not exceed twenty inches in length and fifteen inches in diameter and is used for the taking of bait species.

BAIT SPECIES The following species of fish, amphibians, aquatic insects and crustaceans may be taken by sport fishermen for personal use (a recreational fishing license is required), but may only be sold if taken under an inland commercial bait license. Common Shiner, Golden Shiner, Fallfish, Creek Chub, Spottail Shiner, Blacknose Dace, Longnose Dace, Pearl Dace, Bluntnose Minnow, Fathead Minnow, Cutlips Minnow, Creek Chubsucker, White Sucker, killifish, mummichog, Atlantic & tidewater silverside, sand lance, frogs (except northern leopard frog), crayfish (except rusty crayfish), dragonfly nymphs (perch bugs), hellgrammites, and mayfly nymphs. Invasive species are not legal to use for bait.

The legal methods for taking the bait species listed above are as follows:

- **All inland waters:** During the open season for fishing, the species listed above may also be taken by hand, angling, and scoop net.
- **Rivers & streams:** Bait species may be taken at any time with seines not over 15 feet long and 4 feet deep, bait traps not over 20 inches long and 15 inches in diameter, and umbrella nets not over 4 feet by 4 feet. Cast nets may be used for bait in waters designated as "tidal rivers and tributaries".
- **Lakes & ponds:** Bait species may be taken at any time with bait traps not over 20 inches long and 15 inches in diameter and umbrella nets not over 4 feet by 4 feet. Seines shall not be used in lakes and ponds except those designated by the DEEP as open to commercial taking of bait. Where posted, taking, use or possession of fish as bait is prohibited in lakes and ponds.

BARBLESS HOOK OR BARBLESS FISH HOOK

means a curved, pointed device, without a barb, used to catch fish and includes single, double or treble hooks provided each point is without a barb and hooks manufactured with a barb if the barb has been bent down to the hook, broken off or otherwise made ineffective.

BLACK BASS means Smallmouth Bass (*Micropterus dolomieu*) and Largemouth Bass (*Micropterus salmoides*).

BOW AND ARROW FISHING means fishing by use of a compound bow, longbow, recurved bow or crossbow by which an arrow is propelled. Arrows shall have barbed heads and be attached to the bow, or to a fishing reel attached to the bow. Any fish taken by bow and arrow shall be part of the possession limit of the individual taking such fish and shall not be released to the waters where taken. Common carp, bowfin, tench, white suckers, American eels and sea lampreys may be taken with a bow and arrow in lakes and ponds as well as in streams and stream sections **not stocked with trout** only during the open season for fishing in those waters. A fishing license is required.

BOUNDARY WATER a lake/pond forming a common boundary between CT and another state. Regulations may be for CT, the other state, or a combination thereof. A list is found in RCSA 26-112-46 (a).

BUBBLE FLOAT A type of float that is attached to a fishing line or leader and can be filled with water to adjust its buoyancy.

***CATCH AND RELEASE** means the practice, when angling or ice fishing, of immediately returning a caught fish, without avoidable injury, to the waters from which taken. Catch and release fishing for a species or species group is required where the daily creel limit or possession limit is zero for said species or species group, or when an individual has attained their creel limit or possession limit of fish for a species or species group.

NOTE: injured fish may not be taken and must be returned to the water from which taken, if the angler has reached the daily creel limit or possession limit or if fishing during the Catch and Release period for trout, or if fishing in a catch and release only area.

CAST NET means a circular or conical net with a round weighted opening that is cast and then retrieved by hand using lines attached to its margins, and is used to take fish or bait species. The use of cast nets to take fish or bait species in the inland district is prohibited, except in waters designated as “tidal waters and tributaries”.

***CENTER PIN FISHING - See Fly Fishing**

CHILDREN'S FISHING AREA Waters set aside in whole or in part, as indicated by posters, where fishing is restricted to children under sixteen years of age.

CLOSED SEASON means that period of time during which fishing for any species of fish, except trout, is prohibited.

CULLING or HIGH-GRADING means discarding or returning a previously retained fish to the water in order to retain a more desirable fish of the same species or species group. Culling is prohibited except that an individual fishing for black bass in a fishing tournament or derby that has been permitted by CT DEEP may cull provided said individual has not yet attained their possession limit for black bass.

***DAILY CREEL LIMIT** means the quantity or number of fish of a species or species group that can be taken by an individual during the period from 12:01 a.m. to midnight. In the inland district an individual that has attained their daily creel limit of fish for a species or species group may continue fishing for said fish but is restricted to catch-and-release only for said species and all fish so taken shall be immediately returned, without avoidable injury, to the waters from which taken.

DOWNRIGGER A device, supplemental to a fishing line, used to deploy, via an electric or hand powered winch, reel or spool that projects over the side or stern of a boat and is used as a hoist, main line and terminal weight, one or more fishing lines to a desired depth in the water column.

***FISHHOOK or HOOK** A curved, pointed device, with or without barb, used to catch fish. Hooks may be single, double or treble and each point shall be considered as a single hook. A hook that is free to rotate or pivot at the point of attachment to an artificial lure shall be considered a “free-swinging hook”.

FISHING OR SPORT FISHING Taking or attempting to take fish. In the inland district, fishing is limited to angling, bow and arrow fishing, bobbing, ice fishing, snagging or snatching, spearing, scoop netting, and taking or attempting to take fish by hand.

FISHWAY/FISH LADDER is an engineered structure built with the purpose of allowing fish free passage past a dam or obstruction. Fishing is not allowed within 250 feet of any fishway or fish ladder.

FLOAT (BOBBER) Any buoyant object attached to a fishing line. No floats may be used unless personally attended.

***FLY A single or double hook dressed with hair, feathers, tinsel, thread, yarn or similar material to which no bait, spinner, spoon, plug or other device is added. Additional weight may be built into the fly in its construction, as in a weighted nymph.**

***FLY FISHING** angling with the use of a fly reel, fly rod, fly line, leader and a fly or flies. "Tenkara" fishing is considered to be fly-fishing. The use of strike indicators is permitted. Center pin fishing which is angling with the use of a special reel that free spins in each direction and does not have drag, is not considered fly fishing. Center pin fishing attempts to catch fish by drifting a fly or bait.

***FREE-SWINGING HOOK - See Fishhook**

GAFF A spear or hook, with or without a handle, used for holding or lifting fish. The use of a gaff to land or assist in landing a fish is prohibited in the inland district.

HAND-HELD JIG A rod, jig stick or line held in the hand used for fishing through the ice.

ICE FISHING means fishing through the ice with tip-ups, bobbers or floats, similar devices or hand-held jigs. When ice fishing, except on some waters, anglers may not use more than six tip-ups, floats (bobbers), similar devices, or hand-held jigs or any combination thereof not exceeding six in the aggregate may be used at one time. Not more than three baited hooks, with or without attractors, or three ice flies, or three artificial lures, or any combination thereof not exceeding three in the aggregate may be used with each tip-up, float (bobber), or similar device or hand-held jig. Devices must be personally attended. The name and address of the user must be legibly stamped on or attached to all devices.

INLAND DISTRICT Is the area inland of the demarcation lines as listed on Marine/Inland Demarcation table (see page 6).

INLINE CIRCLE HOOK Is a fish hook on or which the point and barb are not offset from the plane of the shank and the bend of such hook, and such point, is perpendicular to such shank.

LAKES AND PONDS Are all natural and artificial impounded bodies of water listed by the Secretary of the State as lakes, ponds and reservoirs, and includes their flood waters, including temporary and seasonal pools resulting therefrom and all coves and lagoons contiguous thereto.

LEADCORE LINE A fishing line constructed with a metal core.

MAXIMUM LENGTH Means the largest total length of a species or species group that can be legally possessed as measured from the tip of the snout to the end of the tail. No person shall possess any fish greater than the lengths specified and any fish greater than the maximum length, shall, without avoidable injury, be immediately returned to the water from which taken.

MINIMUM LENGTH Means the smallest total length of a species or species group that can be legally possessed as measured from the tip of the snout to the end of the tail. No person shall possess any fish less than the lengths specified and any fish less than the minimum length, shall, without avoidable injury, be immediately returned to the water from which taken.

PANFISH Includes Yellow Perch, White Perch, Calico Bass, Rock Bass, and all species of sunfish.

PICKEREL means the Chain Pickerel (*Esox niger*), not the dwarf species referred to variously as the banded pickerel (*Esox americanus*), grass pike, grass pickerel, mud pike or brook pickerel.

PERSONS WITH DISABILITIES FISHING AREA Means an area set aside for the exclusive use by persons with physical disabilities when such restriction is indicated by posters.

***POSSESSION LIMIT** Means the total number of fish of any species or species group that may be legally possessed by one person, either on the person, on the waters of the inland district, or the shores of such waters, or in any type of vehicle. Any fish placed on a stringer, in a container, cooler, live well or similar device, or otherwise not immediately released to the water shall count against the possession limit. An individual that has attained their possession limit of fish for a species or species group may continue fishing for said fish but is restricted to catch-and-release only for said species and all fish so taken shall be

immediately returned, without avoidable injury, to the waters from which taken. Possession limit in the field shall not exceed the daily creel limit. Any fish in possession shall be intact to the extent that neither the heads nor the tails have been removed but gills and viscera may be removed. Possession limit shall not be construed to restrict the number of legally acquired fish that may be kept in storage in the home or in other storage facilities.

PRIVATE WATER Means a natural or artificial pond or lake to which the owner, not a corporation, partnership or voluntary association, has exclusive right of access, of which water supply all sources are located substantially within the property of the owner, to which fish do not have access from waters not under the control of such owner or from water stocked at the expense of the state, except that a natural or artificial pond five acres or less in extent may be owned by an individual, a corporation, partnership or voluntary association and, when meeting the other requirements of this subsection, such pond may be registered as private waters

PRIVATELY STOCKED WATER A waterbody where fishing rights are owned or controlled by a club or association (but not designated as a Private Water). Any association owning or controlling the fishing rights in any stream or pond, the waters of which are stocked with fish by such association at no expense to the state, may request special open and closed seasons, daily creel and season limits, and legal lengths of species taken from such waters by applying for a "Special Fishing Regulation" permit.

SCOOP NET OR SCAP NET A manually operated, flexible mesh net attached to a hoop, which is attached to a handle. The hoop may not be over 36 inches across at the widest point and the mesh bag may not be more than 36 inches in depth at its deepest point. The use of any such net constructed of metal mesh or stiff plastic mesh is prohibited.

SET LINE A line with one or both ends secured to the shore, or to a fixed or buoyant object in the water which is used for fishing and is not personally attended. Use of set lines in the inland district is prohibited.

SLOT LENGTHS Length limits designated to reduce or increase the taking of fish by anglers.

•**Protected slot lengths:** Lengths between which fish may not be kept by anglers.

•**Open slot lengths:** Lengths between which fish may be kept by anglers.

SNAGGING or SNATCHING The taking of fish by foul hooking, that is hooking fish in any part of the body other than the mouth. Snagging is prohibited in all waters in the Inland District for all species of fish and any fish so taken must be released immediately, except that, in tidal waters and tributaries, menhaden, alewives and blueback (glut) herring may be taken by these methods. Anglers are reminded that there currently is a ban on the taking of anadromous alewife and blueback herring.

SPEARING The use of any pointed instrument, with or without barbs, propelled solely by hand. Common carp, Bowfin, Tench, American eel, White sucker, and Sea lamprey may be taken by spearing in streams or sections of streams not stocked with trout during the open seasons for fishing in such waters. Prohibited in lakes and ponds. Underwater spear fishing and the use of any type of spear gun is prohibited in all waters within the Inland District.

STREAMS means all rivers, streams, brooks, creeks, and their flood waters, including temporary and seasonal pools resulting therefrom, and all coves, lagoons and canals contiguous thereto, but does not include that portion of impounded bodies of water on rivers, streams, brooks and creeks listed by the Secretary of the State as a lake, pond or reservoir.

STRIKE INDICATOR Means a brightly colored, highly visible tab, sleeve or bead or similar material used in fly fishing. Such devices may be attached to the line or leader when used in areas restricted to fly fishing only.

TAKE or TAKING Killing, capturing or otherwise rendering into possession, any fish or bait species, or attempting to kill, capture or rendering into possession, or assisting in taking or attempting to take any fish or bait species.

TENKARA FISHING Angling with the use of a tenkara rod, tenkara line and a fly or flies, without the use of a reel of any type. "Tenkara" fishing is considered to be fly-fishing.

TIDAL WATERS AND TRIBUTARIES include streams or portions thereof where there is a direct connection to Long Island Sound and may be influenced by tidal cycles. A list is provided in RCSA 26-112-46 (m).

TROUT and SALMON includes Brook Trout or speckled trout, Brown Trout, Rainbow Trout, Lake Trout, Atlantic salmon, Kokanee (Sockeye salmon), Coho salmon, Chinook salmon or any hybrid of any two or more of these species.

State Record Freshwater Fish - Harvest

Defined as the largest fish, by weight determined using a certified scale, captured legally in Connecticut waters. For all criteria, rules, and details please visit the [trophy fish award web page](#) or scan this QR code.

Species	Pounds	Ounces	Waterbody	Angler	Year
American Eel	10	3	Shetucket River, Norwich	Charles J. Lobacz	1993

White Sucker	22.5	Squantz Pond, New Fairfield	Thomas Dorman	2024
Yellow Perch	16.25	Lake McDonough, New Hartford	Ron Barbour	2011

Parts of a Fish

Knowing external anatomy of a fish greatly helps in making the correct identification. Being able to notice differences in overall body shape, fin placement and structure, as well as presence of unique features like barbels, an adipose fin, or fin ray and spines counts will greatly improve your ability to make a correct identification.

The Fisheries Division has a [simple guide to the major families of freshwater fish](#) to help show the major structural features and differences.

Join the Volunteer DEEP Grass Carp Removal Program - Candlewood Lake and Squantz Pond

The Fisheries Division is working to reduce the number of triploid Grass Carp from Candlewood Lake and Squantz Pond after earlier efforts to control the invasive Eurasian watermilfoil had unintended consequences. The sterile Grass Carp were stocked in 2015 and 2017 to reduce the spread of this invasive plant, however by 2022, coverage of all submerged aquatic vegetation in Candlewood Lake dramatically declined to the point that it was largely absent from the lake. Aquatic vegetation is a critical part of the lake ecosystem that provides habitat for fish, stabilizes sediments, and helps maintain good water quality. With vegetation now severely depleted, DEEP has begun actively removing the carp to speed up lake recovery, having already removed over six hundred fish since 2023. Learn more or sign up here: [DEEP Volunteer Grass Carp Removal Program](#). Please note that this program is only for anglers who have signed on to participate in the DEEP program at Candlewood Lake and Squantz Pond.

Help people discover the fun of fishing

Become a [Fish with CARE](#) Volunteer Fishing Coach. We're looking for passionate and patient people who love sharing their skills to help new and returning anglers. To get started, contact the "Fish with CARE" staff at 860-663-1656 or by email DEEP.learntofish@ct.gov or scan this QR code below for more information.
