

Tournament/derby boater "clean-boat" certification record

All operators of boats participating in a fishing tournament/derby conducted on CT waters determined to be susceptible to invasion by zebra mussels must certify that their boat:

- 1) Has not been operated in a water body known to contain zebra or quagga mussels in the 10 days prior to this fishing tournament/derby,
or
- 2) Has been properly cleaned/decontaminated.

Failure to do so can result in revocation of the permit for this tournament/derby and negatively affect future permitting.

Tournament sponsor/organization: _____ Permit No.: _____

Tournament/derby date: _____ water body: _____

<i>Signature of boat operator</i>	<i>Clean certification (check one)</i>	
1. _____	Boat has not been put in waters containing zebra or quagga mussels in the past ten days. _____	Boat has been properly decontaminated _____
2. _____	Boat has not been put in waters containing zebra or quagga mussels in the past ten days. _____	Boat has been properly decontaminated _____
3. _____	Boat has not been put in waters containing zebra or quagga mussels in the past ten days. _____	Boat has been properly decontaminated _____
4. _____	Boat has not been put in waters containing zebra or quagga mussels in the past ten days. _____	Boat has been properly decontaminated _____
