

STOCKING UPDATE AS OF 12/10/2024:

We have stocked 49,085 trout and 1,725 Atlantic Salmon since September 9th across Connecticut lakes/ponds and rivers/streams. The focus in December is <u>Atlantic Salmon</u> in the Naugatuck and Shetucket Rivers and <u>Seeforellen Brown Trout</u> in lakes and ponds, which are both raised at Kensington State Fish Hatchery.

"The Daily Cast" – 16" Seefs to Squantz today. Please enjoy!

Attention anglers wading in rivers/streams: Trout spawning activity continues across the state and redds are present and well-developed. Trout redds are oval or teardrop shaped depressions in small gravels where the substrate looks like someone swept it clean. They are used to deposit and incubate eggs. The size and shape can vary quite a bit and depend on the length of the fish (see pictures below). Please be aware of these highly sensitive spawning areas and do not trample or disturb the area in and around them.

<u>Reminder</u> to please report catches of tagged Atlantic Salmon in the Shetucket and Naugatuck Rivers to the Fisheries Division using one of the following methods: 1) call 203-500-2513; 2) email matthew.devine@ct.gov, or 3) online at this Iink. Please provide date, tag number, specific location caught (GPS coordinates ideally), and whether the fish was released

or harvested. <u>PLEASE DO NOT REMOVE TAG FROM FISH</u>. Reported tag numbers will be integral to data collection and help build our understanding of movement, behavior, and when, where, and how often they are caught. Thanks to those who have reported their catches already! We are over 300 tag reports! Don't be shy, please call/email/submit online to help us improve the fishery.

The following is a list of waters planned to be stocked by the Fisheries Division during fall/winter 2024/2025. Dates will be added daily to the "Stocked" column in the table below as locations are stocked and any relevant details will be noted in the "Daily Cast" section above. Please get out and enjoy. Anglers should also check out our Interactive Stocking map for location information. Please note that due to a variety of conditions not every river/stream stocking location can be stocked on each stocking run. The information is sorted alphabetically by waterbody name first in table 1 and by town name in table 2. Questions about CT DEEP's trout and salmon stocking may be sent to matthew.devine@ct.gov

Management type abbreviations: TMA = <u>Trout Management Area</u>; TML = <u>Trout Management Lake</u>; TTA = <u>Trophy Trout Area</u>; <u>Trout Park</u>; <u>WTMA = Wild Trout Management Area</u>; <u>CFW = Community Fishing Waters</u>

The 2024 Fishing Guide is available for download.

Thank you for your support and please enjoy!

Use <u>FishBrain</u>, the world's largest fishing APP, for <u>FREE</u> to see CT's regulations georeferenced to all waters. Find it on the APP Store at https://join.fishbrain.com/connecticut

Table 1: Sorted by Waterbody Name

Waterbody - Management type (Alphabetically)	Town(s)	Stocked
Amos Lake – TML	Preston	9/20
Beach Pond	Voluntown	9/20, 10/31 (Seefs)
Bigelow Pond	Union	9/27
