STOCKING UPDATE AS OF 05/01/2026:

Spring trout stocking is firing on all cylinders! While winter treated us well and we were able to stock almost 60,000 trout through the ice, longer days and warmer weather have us excited for the spring season. The Fisheries Division plans to stock close to 600,000 trout between March and May. Brook Trout, Brown Trout, Rainbow Trout, and Tiger Trout are all scheduled. The majority of the trout will range between 10-12", and close to 25% are >12", some much larger! Please get out and enjoy. These fish are for you!

"The Daily Cast" – The wonderful month of May is here! Hatchery staff have delivered more than 420,000 trout since spring stocking began, and the push continues across Connecticut. Combined with excellent seasonal conditions, anglers should find strong action on recently stocked waters. Fly anglers can observe and pattern popular early season stonefly and mayfly hatches going off, including the Hendrickson hatch. Fast-moving spoons and spinners can be a good choice on rivers and streams this time of year. Reports are coming in of trout being taken while trolling on lakes and ponds, and of course you can't beat a simple earth or meal worm. Have a fantastic weekend!

The following is a list of waters planned to be stocked by the Fisheries Division during spring 2026. Dates will be added daily to the "Stocked" column in the table below as locations are stocked and any relevant details will be noted in the "Daily Cast" section above. Anglers should also check out our **Interactive Stocking map** for location information. Please note that due to a variety of conditions not every river/stream stocking location can be stocked on each stocking run. The information is sorted alphabetically by waterbody name first in table 1 and by town name in table 2. Questions about CT DEEP's trout and salmon stocking may be sent to matthew.devine@ct.gov

Management type abbreviations: **TMA = Trout Management Area; TML = Trout Management Lake; TTA = Trophy Trout Area; Trout Park; WTMA = Wild Trout Management Area; CFW = Community Fishing Waters**
