

STOCKING UPDATE AS OF 10/25/2024:

We are in the home stretch this week for browns, rainbows, brookies, and tigers from Quinebaug and Burlington hatcheries. Mohawk and Black Pond Woodstock coming with big brookies soon, waiting on a paving project and lake drawdown at Highland Lake to wrap up before stocking, and we'll get to East Twin in November after we complete a brown trout population estimate. Aside from that, after this week the focus through December will be on Atlantic Salmon and Seeforellen Brown Trout, which are both raised at Kensington hatchery.

"The Daily Cast" – The weeks sure do fly by, and we've made it to yet another beautiful weekend of weather. Please enjoy and remember that fishing for trout in seasonal TMA's is catch and release from September 1st – 6:00am April 12th. Regulations in TML's vary so please be sure to know before you go by checking out our <u>Freshwater Fishing Guide</u>. Have a great weekend!

Attention anglers wading in rivers/streams: We are observing trout redds around the state and spawning activity is starting to pick up. Trout redds are oval or teardrop shaped depressions in small gravels where the substrate looks like someone swept it clean. They are used to deposit and incubate eggs. The size and shape can vary quite a bit and depend on the length of the fish (see pictures below). Please be aware of these highly sensitive spawning areas and do not trample or disturb the area in and around them.

<u>Reminder</u> to please report catches of tagged Atlantic Salmon in the Shetucket and Naugatuck Rivers to the Fisheries Division using one of the following methods: 1) call 203-500-2513; 2) email matthew.devine@ct.gov, or 3) online at this link. Please provide date, tag number, specific location caught (GPS coordinates ideally), and whether the fish was released

or harvested. <u>PLEASE DO NOT REMOVE TAG FROM FISH</u>. Reported tag numbers will be integral to data collection and help build our understanding of movement, behavior, and when, where, and how often they are caught. Thanks to those who have reported their catches already!

The following is a list of waters planned to be stocked by the Fisheries Division during fall/winter 2024/2025. Dates will be added daily to the "Stocked" column in the table below

as locations are stocked and any relevant details will be noted in the "Daily Cast" section above. Please get out and enjoy. Anglers should also check out our Interactive Stocking map for location information. Please note that due to a variety of conditions not every river/stream stocking location can be stocked on each stocking run. The information is sorted alphabetically by waterbody name first in table 1 and by town name in table 2. Questions about CT DEEP's trout and salmon stocking may be sent to matthew.devine@ct.gov

Management type abbreviations: TMA = <u>Trout Management Area</u>; TML = <u>Trout Management Lake</u>; TTA = <u>Trophy Trout Area</u>; <u>Trout Park</u>; WTMA = <u>Wild Trout Management Area</u>; <u>CFW = Community Fishing Waters</u>

The 2024 Fishing Guide is available for download.

Thank you for your support and please enjoy!
