

~~152~~
Sid,

As I promised you the other day on the phone here is the copy of my thesis on the Kent quadrangle. Included with the maps are the geologic maps of Dover Plains and Pawling.

Some revisions will be nec. for the actual publication of the report I'm sure. Your suggestions on this publication are most welcomed. I will hopefully be seeing you at GSA, Bangor, in early April. We can work out the details of the publication at that time.

Archie
