

The purpose of this letter is to briefly introduce ReTech USA LLC in the hopes of becoming a vendor for your organization.

Since April of 2007 ReTech has been providing new and refurbished computer equipment for wholesale and retail customers locally and nationally. We also offer a recycling and data destruction program, which gives our customers a worry free way of disposing of their old and unused IT and Medical equipment, all in an environmentally safe way.

Some of the main products we offer are refurbished computers, laptops, and monitors. These products are up to 40% less expensive than brand new equipment. We have determined, based on past and current sales and marketing, that in today's economy, local companies are expressing great interest in saving money and helping the environment with the options we offer. We feel that this puts us in a particularly good position to serve your organization.

If you would like more information on our company and would like to set up a time to meet, please do not hesitate to call me at 860-531-9653.

I look forward to hearing back from you soon.

Best regards,

Nicole Golubeff

Technology & Medical Asset Recovery and Recycling Services

Having access to nation wide secondary buyers and market, we specialize in remarketing overstock IT and telecom and medical equipment. **ReTech's # 1** mission is to help remove, recycle, and sell your surplus IT and medical equipment.

- Buy or remarketing you're pre-owned and end of lease IT and telecom medical equipment.
- Free up warehouses, stockrooms and closets overrun with used computer equipment & medical equipment.
- Capture maximum return on marketable IT assets
- Recycle obsolete computers & medical equipment in a regulatory compliant and environmentally friendly way.
- Ensure that your sensitive data does not fall into the wrong hands.

ReTech USA helps business and corporate companies in liquidating and disposing of excess, surplus computer and used network and medical equipment. It is our goal to find buyers looking for these assets in the secondary grey market.

Looking to sell or recycle?

Please give us a list of the equipment you are currently looking to liquidate or just recycle. Once we evaluate your list, we will send you a quote which will include prices we are offering to pay for your equipment. If we cannot find a market for your equipment it will be our mission to help you responsibly recycle the unwanted equipment.
