

Instructions for Completing the Permit Application for a Minor Modification of an Existing New Source Review Permit

Use these instructions to complete the permit application form (DEEP-NSR-APP-200MM). All applicable regulations should be reviewed prior to completing this application. It is the applicant's responsibility to comply with all applicable regulations.

Regulatory Requirements

In accordance with section 22a-174-2a(e) of the Regulations of Connecticut State Agencies (RCSA), the permittee of any source that is subject to a new source review permit issued by the commissioner pursuant to RCSA section 22a-174-3a or former RCSA section 22a-174-3 shall apply for a new source review minor permit modification to make any change to such permit.

Authorized Activities Prior to Permit Issuance

Pursuant to RCSA section 22a-174-2a(e)(3)(C), the permittee may implement the modifications proposed in a minor permit modification no less than twenty-one (21) days after filing a complete application with the commissioner, unless the commissioner notifies the applicant prior to the end of the twenty-one-day period that the modifications may not be implemented until such time as defined by the commissioner in the notification. If twenty-one days have passed since filing a complete application and the commissioner has not notified the permittee, the permittee shall comply with the terms and conditions of the proposed modified permit and the terms and conditions of the existing permit that are not being modified, until the commissioner issues or denies the proposed modified permit.

If the proposed changes are to be implemented at a Title V facility, the changes may result in deviations from the existing conditions in your Title V Permit. For the procedures to make modifications to a Title V Permit, please refer to RCSA Section 22a-174-33(r), Title V Permit Modifications, Revisions, Operational Flexibility and Off Permit Changes.

Pre-Application Meetings

To assist permit applicants in evaluating the permitting needs of a project, a pre-application

meeting may be set up during the planning stages of a project. Typically, this is several months before the actual submittal of a NSR application.

The pre-application meeting allows applicants to meet with the Air Engineering Permit Group to discuss a proposed project including what air emissions activity is planned, where the activity will be occurring, and what permitting requirements may apply to the project.

If interested in scheduling a pre-application meeting for a project, please refer to the [DEEP Permit and Licenses](#) webpage to complete the Pre-Application Questionnaire. If you have any questions please contact the Office of Planning and Program at DEEP.OPPD@ct.gov or 860-424-3003.

How to Apply for a Minor Permit Modification

The permit application package must include the following:

- The *Permit Application for a Minor Modification of an Existing New Source Review Permit* (DEEP-NSR-APP-200MM) and additional supporting documents, as may be required;
- Attach a marked up copy of the current permit noting proposed changes. Use redline to delete language and uppercase font to add proposed new language; and
- The *Application or full Permit Minor Modification Fee*.

Submit one application form for each permit to be modified.

Submit one hardcopy and one electronic copy of the completed and signed application package.

The hardcopy of the completed and signed application package shall be submitted to:

CENTRAL PERMIT PROCESSING UNIT
DEPARTMENT OF ENERGY AND ENVIRONMENTAL PROTECTION
79 ELM STREET
HARTFORD, CT 06106-5127

The electronic copy of the completed and signed application form shall be submitted to:

DEEP.BAM.AirPermits@ct.gov.

Where the file size of attachments exceed the allowable limit, please contact DEEP.BAM.AirPermits@ct.gov to arrange an alternate method of submitting the electronic copy.

Your application is not considered received by the Department until the hardcopy of the completed and signed application is submitted to the address above. The application will not be processed until DEEP receives the application fee.

Permit Application Instructions (DEEP-NSR-APP-200MM)

Carefully read the instructions and application form. If any questions are not applicable to the proposed activity, enter "N/A" in the space provided.

Applicant Name – Provide the name of the applicant using the standards described in Part II of this application form.

Town Where Site is Located – Provide the name of the town where the activity is taking place.

Existing Town-Permit Nos. – Provide the town and permit numbers of the permit to be modified. The town and permit numbers can be found on page one of the existing permit.

Part I: Fee Information

There are two options available for payment.

Option 1: Submit the full permit minor modification fee of \$1,750.00 or \$3,250.00, which includes the \$940.00 application fee, with this application form. This option will shorten the permit process. For less than major emitting equipment, the full fee is \$1,750.00. For major emitting equipment, the full fee is \$3,250.00.

Option 2: Submit only an application fee of \$940.00 with this application form and be billed the balance of the permit minor modification fee at a later date.

The fee for municipalities is 50% of the above listed

rate. The application will not be processed until DEEP receives the application fee. The fee shall be paid by check or money order to "Department of Energy and Environmental Protection".

Fee Type – Indicate the option being used for fee payment. Check one box only.

Major Emitting Equipment – If a permit being modified has allowable permitted emissions greater than the following thresholds, it is considered major emitting equipment.

<u>Pollutant</u>	<u>Threshold</u>
PM	100 tpy
PM ₁₀	100 tpy
PM _{2.5}	100 tpy
SO ₂	100 tpy
NO _x	25/50 tpy
CO	100 tpy
VOC	25/50 tpy
Pb	100 tpy
HAP	10/25 tpy

The VOC and NO_x threshold is 25 tpy in a severe non-attainment area and 50 tpy in a serious non-attainment area.

The hazardous air pollutant (HAP) threshold is 10 tpy for any individual HAP and 25 tpy for any combination of HAPs.

Municipality – Indicate if the applicant is a municipality. A municipality means any town, city or borough as defined in CGS section 22a-170.

Part II: Applicant Information

When completing this part, please use the following standards:

- *Name* - Provide the full, legal *company/firm* name. (If identifying an entity registered with the Secretary of the State, fill in the name exactly as it is shown on the registration. This information can be accessed at the [Connecticut Business Records Search](#)). If identifying an *individual*, provide the legal name (include suffix) in the following format: First Name; Middle Initial; Last Name; Suffix (Jr, Sr., II, III, etc.). If the applicant is a governmental body, identify the city or town of such body followed by the relevant department, board or division.
- *Phone* - Unless otherwise indicated, the phone number provided should be the number where the applicant correspondent can be contacted during daytime business hours.
- *Contact Person* - Provide the name of the specific individual within the company whom DEEP may contact.

- *E-Mail* – Applicants must provide an accurate e-mail address when completing their application form. The e-mail address may be used for future correspondence from the DEEP to your business.

1. *Applicant Information* - Complete the information concerning the applicant.

The applicant must be either the owner or operator (check all that apply) of the equipment.

Co-Applicants - If there are any co-applicants, check the appropriate box and attach additional sheet(s) providing the required information.

Did the Applicant attend a Pre-Application Meeting with DEEP Air staff? – Indicate if the applicant attended a pre-application meeting. Enter the date of the meeting and the DEEP air staff who attended the meeting.

2. *Primary Contact for Departmental Correspondence and Inquiries* – If different than the applicant, enter the information of the individual authorized to act for the applicant during the processing of the permit application.
3. *Equipment Owner or Operator* - If different from the applicant, enter the information of the owner or operator of the equipment.
4. *Engineer or Consultant Employed or Retained to Assist in Preparing the Application* - Enter the information of any engineer or consultant employed or retained to assist in preparing the application.

Part III: Permit Modification Information

1. *Site Name and Location* - The location address should be the address of the property at which the proposed activity will take place. Include the street address and municipality. If the property does not have a street number, describe the location in terms of the distance and direction from the nearest intersection with another roadway. For example, “on River Street, approximately 1000 feet north of its intersection with Bear Swamp Road.”
2. *Existing Permit No.* - Enter the permit number of the permit to be modified.
3. *Description of Modification* - Include a description of the proposed modification, the basis for such modification, any proposed monitoring procedures, any increase in potential emissions resulting from the proposed

modification, and an identification of all regulatory, statutory, or otherwise applicable requirements that would become applicable as a result of such modification.

4. *Does the facility have a Title V Operating Permit?* – Indicate if the facility has a Title V Operating Permit. If “yes”, enter the Title V Operating Permit number.

Part IV: Attachments

Check the appropriate box by each attachment being submitted as verification that all applicable attachments have been submitted. Check all that apply.

- All minor modification applications must attach a marked up copy of the current permit noting proposed changes. Use redline to delete language and uppercase font to add proposed new language.
- If the source is being moved to another location on the premises, submit:
 - a Site Plan showing the exact location of the stack(s), the latitude and longitude of the stack(s), all boundary lines of the property and measurements, and the horizontal distance from the stack base to the nearest property line; and
 - a completed [CTMASC spreadsheet](#), or equivalent, to demonstrate compliance with RCSA section 22a-174-29, Hazardous Air Pollutants.
- If a burner is being replaced, submit:
 - *Fuel Burning Equipment Form* (DEEP-NSR-APP-202)
- If control equipment is being added, submit:
 - *Air Pollution Control Equipment Form* (DEEP-NSR-APP-210).
- If stack parameters are being changed, submit:
 - *Stack Parameters Form* (DEEP-NSR-APP-211)
- If a change is made to the operation of the source (e.g., production or fuel usage increase/decrease, etc.), resulting in changed emissions submit:
 - *Unit Emissions Form* (DEEP-NSR-APP-212)

- If allowable emissions in the current permit are based on older versions of AP-42 emission factors, submit:
 - *Unit Emissions Form* (DEEP-NSR-APP-212); and
 - Recalculate the emissions using the most current AP-42 emission factors.
- If the source was issued a permit to operate before March 1, 1986, compliance with RCSA section 22a-174-29 Tables 2 and 3 of the Hazardous Air Pollutants regulations shall be demonstrated, submit:
 - A completed [CTMASC spreadsheet](#), or equivalent, to demonstrate compliance with Tables 2 and 3 of the RCSA section 22a-174-29, Hazardous Air Pollutants.
- If allowable emissions for a pollutant, previously limited by a BACT/LAER determination are increased, submit:
 - *Analysis of Best Available Control Technology Form* (DEEP-NSR-APP-214a)
- If emissions for any pollutant are increased, submit:
 - *Ambient Air Quality Analysis Form* (DEEP-NSR-APP-218)
- If any parameter (e.g., hourly emissions, stack height, exhaust gas flow rate, property line distance), previously modeled, is changed, submit:
 - *Ambient Air Quality Analysis Form* (DEEP-NSR-APP-218)
- If the source is located at a Major Stationary Source and emissions from the premises will increase due to the minor modification, submit:
 - *Premises Information Form* (DEEP-NSR-APP-217); and
 - *Major Modification Determination Form* (DEEP-NSR-APP-213)

Part V: Applicant Certification

After the application has been completed it must be reviewed and signed by both an authorized representative and the individual(s) who actually prepared the application. By their signature, they certify that to the best of their knowledge and belief, the information contained in the application, including all attachments, is true, accurate and complete. ***The application will not be processed if it is not signed.***

Pursuant to RCSA section 22a-174-2a(a)(1), the certification of the application shall be signed by an authorized individual as follows:

- For an individual or sole proprietorship: by the individual or proprietor, respectively;
- For a corporation: by any officer in charge of a principal business function, an employee who performs similar policy or decision-making functions, or a duly authorized representative of such officer or employee;
- For a partnership: by a general partner;
- For a municipality: by a ranking elected official or person authorized as the principal executive officer by charter or resolution of the board of selectmen or town council or other governing body, or a duly authorized representative of such municipality;
- For a federal entity: by the principal executive officer, statutorily authorized official or by a federal employee or any other representative who has received legal delegation of authority;
- For a state entity: by the statutorily authorized official, ranking elected official or principal executive officer;
- For a limited liability company: by any duly authorized member, manager, officer, employee or representative;
- For a limited liability partnership: by any duly authorized limited partner, officer, employee or representative.

*A notice of permit application is **not** required for a permit minor modification application.*

Available Resources

Prior to submission of application, Applicants may contact the Air Permitting Engineer of the Day at DEEP.BAM.AirPermits@ct.gov or 860-424-4152 (8:30 AM - 4:30 PM, Monday through Friday).

After the application has been submitted, contact the permit engineer who has been assigned the application.

Below is a short list of resources, reference documents and guidelines which may be useful in preparing this permit application. Additional sources of information are available online at www.portal.ct.gov/DEEP/Air/Permits/Air-Permits.

For the subject permit application form, instructions and other required documents visit the DEEP website at: <https://portal.ct.gov/DEEP/Permits-and-Licenses/Air-Emissions-Permits-and-General-Permits>

Affirmative Action, Equal Employment Opportunity and Americans with Disabilities

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action/Equal Opportunity Employer that is committed to requirements of the Americans with Disabilities Act. Any person with a disability who may need information in an alternative format may contact the agency's ADA Coordinator at 860-424-3194, or at deep.hrmed@ct.gov. Any person with limited proficiency in English, who may need information in another language, may contact the agency's Title VI Coordinator at 860-424-3035, or at deep.aao@ct.gov. Any person with a hearing impairment may call the State of Connecticut relay number - 711. Discrimination complaints may be filed with DEEP's Title VI Coordinator. Requests for accommodations must be made at least two weeks prior to any agency hearing, program or event.
