

## **Pre-Application Questionnaire**

**Please review every question and respond where applicable**. Your answers will help us identify which program staff should attend the meeting to best answer your questions and provide regulatory information.

Send any questions and the completed form to the Office of Innovative Partnerships and Planning: <a href="DEEP.OPPD@ct.gov">DEEP.OPPD@ct.gov</a>. A site plan or analytical results will make your Pre-Application Meeting more productive.

Please note: All records, paper or electronic, submitted to the Department of Energy and Environmental Protection are subject to disclosure under the Freedom of Information Act (FOIA) unless the records or portions thereof are exempt from disclosure pursuant to section 1-210 of the Connecticut General Statutes. Individuals or entities submitting records with this questionnaire must evaluate those records for any sensitive information prior to their submission and alert the Department if a redacted version has been submitted. The Department is obligated to comply fully with all requirements for the disclosure of records under FOIA.

## **Part I: Applicant Contact Information**

1.	Proposed Applicant Name:						
	Applicant Contact Person:						
	Phone:	Email:					
2.	Consultant Contact Person:						
	Phone:	Email:					
	Affiliation:						
3.	Applicant Type (check one):						
	individual federal agency	state agency municipality tribal					
	business entity						
4.	Applicant's relationship to the property at	which the proposed activity is to be located (select all					
	that apply):						
	site owner option holder	lessee					
	easement holder operator	other (specify):					
5.	Please suggest dates and times your tean	n is available to meet, beginning 2 weeks from the date					
	of submittal of this form:						

## Part II: Project Information

1.	Project Address (if known):							
	City/Town:							
	Lat/Long:							
2.	What are the projected time frames for construction and operation of this project, including							
	any estimated schedule of activities?							
3.	Do you plan to apply for any public funding?  If yes, check type:  Federal  State  If there is a state agency other than DEEP involved in the project and/or managing federal funds related to this project, please list the agency, and a project contact at that agency.							
4.	. Project Type: (check all that apply):							
	Existing Business Residential Municipal							
	□ New Business   □ Commercial/Industrial   □ State							
	☐ New Construction   ☐ Mixed Use   ☐ Federal							
	Other (please specify):							
5.	Type of Proposed Activity: (check all that apply):  Solar energy Brownfield redevelopment Wind energy Waste organics/composting Energy storage Manufacturing Other (please specify):							
	SIC Code (If applicable): and/or NAIC Code (If applicable):  Standard Industrial Classification Manual North American Industry Classification System (NAICS)							
6.	Project Description:							
7.	Description of the site as it currently exists and what changes would occur as a result of the project.							
8.	Extent of land area proposed to be disturbed (in acres):							

## Part III: Project Requirements

Check all requirements listed below that may be applicable to your project:							
	Project located in a <u>coastal area</u>						
	<i>If yes</i> , does your project account for <u>sea level rise</u> ?						
If yes, please specify:							
Project located within a <u>flood hazard area</u> ?							
Project located in an <u>aquifer protection area</u>							
	Project located in a CT DEEP Natural Diversity Database state listed species habitat						
	Project located in an Environmental Justice Community						
	Environmental remediation is needed at the site						
Property subject to the <u>Property Transfer Act</u>							
Project located on a <u>brownfield</u>							
Project requires hazardous materials management (e.g., removal of asbestos, PCB or le							
	Project located on state property or intersects with state-owned property						
Project requires Connecticut Environmental Policy Act (CEPA) review?							
	Project requires submittal to the Connecticut Siting Council? Date submitted:						
Please name any other agencies you already are, or anticipate needing coordination with (for example: DOT, DPH, DECD, BETP, PURA, DoAg, USACOE, USEPA, municipal authorities):							
	e. DOT, DETT, DECD, BETF, FORA, DOAG, OSACOE, OSEFA, Municipal authorities).						
	AFETY, WETLANDS, OR COASTAL						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention  If yes, will it be (check one): temporary or permanent  Constructing, altering, rebuilding, or substantially repairing any dam, dike, berm, or any						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention  If yes, will it be (check one): temporary or permanent  Constructing, altering, rebuilding, or substantially repairing any dam, dike, berm, or any other structure which impounds water above grade						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention  If yes, will it be (check one): temporary or permanent  Constructing, altering, rebuilding, or substantially repairing any dam, dike, berm, or any other structure which impounds water above grade  Detention or retention basins that exceed 3 acre-feet in volume						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention  If yes, will it be (check one): temporary or permanent  Constructing, altering, rebuilding, or substantially repairing any dam, dike, berm, or any other structure which impounds water above grade  Detention or retention basins that exceed 3 acre-feet in volume  If yes, are there any residential areas downgradient?  Alteration (e.g., excavating/dredging) of any tidal or inland wetlands, watercourses, flood						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention  If yes, will it be (check one): temporary or permanent  Constructing, altering, rebuilding, or substantially repairing any dam, dike, berm, or any other structure which impounds water above grade  Detention or retention basins that exceed 3 acre-feet in volume  If yes, are there any residential areas downgradient?  Alteration (e.g., excavating/dredging) of any tidal or inland wetlands, watercourses, flood plains or floodways						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention  If yes, will it be (check one): temporary or permanent  Constructing, altering, rebuilding, or substantially repairing any dam, dike, berm, or any other structure which impounds water above grade  Detention or retention basins that exceed 3 acre-feet in volume  If yes, are there any residential areas downgradient?  Alteration (e.g., excavating/dredging) of any tidal or inland wetlands, watercourses, flood plains or floodways  If yes, what is the extent of the area to be altered (in acres)?						
	AFETY, WETLANDS, OR COASTAL  Construction of a pond or surface water impoundment, including those used for sedimentation, stormwater retention/detention  If yes, will it be (check one): temporary or permanent  Constructing, altering, rebuilding, or substantially repairing any dam, dike, berm, or any other structure which impounds water above grade  Detention or retention basins that exceed 3 acre-feet in volume  If yes, are there any residential areas downgradient?  Alteration (e.g., excavating/dredging) of any tidal or inland wetlands, watercourses, flood plains or floodways  If yes, what is the extent of the area to be altered (in acres)?  If yes, will there be fill, dredging and/or excavation?						

AIR									
	Individual piece of equipment or a process which has the <b>potential to emit</b> 15 tons or more per year of any individual air pollutant or meet any other applicability requirement of <u>RCSA Section 22a-174-3a(a)</u> .								
	If yes, provide the total proposed annual emissions for the project (tpy):								
	PM <sub>10</sub> /PM <sub>2.5</sub> :	VOC:	CO:	SOx:	NOx	: HAPs:			
ENERG	<u> </u>								
	generating energy	or	storing e	energy					
	If yes, do you have an interconnection location identified?  Yes  No								
	If yes, how many megawatts are you expecting to generate or store?								
WASTE AND MATERIALS MANAGEMENT									
	☐ Management of wastes either generated ☐ on-site or ☐ off-site								
	If yes, what types of wastes will be managed? (Check all that apply)								
	Municipal Solid Waste Hazardous Wastes (RCRA) Recyclable Wastes								
	☐ Biomedical Wastes ☐ Radioactive Wastes ☐ Connecticut Regulated/Special Wastes								
	Other (please specify):								
	Storage of any liquids or gaseous fuels or chemicals at the site								
	If yes, describe substance and proposed storage (include above ground, underground, tank size, vapor pressure, etc.):								
	Use or storage of pesticides								
	Manufacturing, possession, use, or disposal of any radioactive materials (e.g., x-ray and materials testing equipment, etc.)								
CONSU	IMPTIVE WATER DI	VERSION (	select all that	apply)					
more combi excee any 2- If yes (lat/loi quant	rawal of groundwater from wells joined in one system ned maximum withdrawards 50,000 gallons of water thour period provide: the location of wing):  ity of water diverted (millings per day):	m whose al er during well(s)	or more wells join whose combined withdrawal exceed of water during a lf so, provide: the (lat/long):	eds 50,000 gallons ny 24 hour period e location of well(s) diverted (million		Transfer of more than 50,000 gallons of water in any 24 hour period from one water supply distribution system or service area to another such distribution system or service area, or installation of capacity to transfer such water  If so, provide: name of			
ganon			gallons per day):			distribution system(s)/service area(s):  quantity of water transferred (million gallons per day):			

WATER DISCHARGE								
	Discharges of wastewater (other than domestic sewage), including but not limited to, contact and non-contact cooling water, blowdown from heating and cooling equipment, process wastewaters, rinsewaters, floor drainage, or other wastewaters							
	<i>If yes,</i> identify below, listing projected daily volume in gallons per day (gpd) and proposed discharge location (i.e., surface water, sanitary sewer, groundwater).							
	Wastewater Type		Volume (gpd)	Discharge Locat	ion			
Ш	Utilization of a sanitary sewage disp	osal syst	em; <i>lf yes</i> , indicate	e method and volu	me (gpd):			
	Method	Volume (gpd)	Me	Method				
	Subsurface sewage treatment and disposal system		Privately ov works					
	Publicly owned treatment works		Other (plea					
ATTACHMENTS  If available and applicable please provide:								
If available and applicable, please provide:  A site plan showing:  the project's footprint;  the location of environmentally sensitive areas, e.g., coastal resources, aquifer protection zones, floodplains, tidal or inland wetlands, watercourses, etc.;  a notation of the scale used;  existing versus proposed conditions; and tidal elevations, including datum used (MLW or NAVD 1988)			For dredging projects, please provide the following:  1. plans showing the lowest predicted tide; 2. If dredged sediment will go upland, plans must show upland disposal areas, groundwater sources, dewatering areas. Please indicate if you have coordinated with the Remediation Division (860-424-3705) for upland disposal; and 3. If any previous dredging permits have					
<ul> <li>Photographs of the site at low tide and high tide (If tidal wetlands are present.         Photographs must be taken during the growing season).     </li> <li>Any previous authorizations/enforcement actions for the site.</li> <li>Any available analytical data.</li> </ul>			been issued, plan view showing previously authorized areas versus current proposed dredging footprints (This is important to determine if any area of the dredging project could be COP eligible).			5
