

**Connecticut Interagency PFAS Task Force
Remediation Committee Meeting**
August 16, 2019

Welcome – Co-chairs Raymond Frigon, Assistant Director, DEEP Remediation Division
and Rob McCarthy, EnSafe

Ground rules

Committee and member introductions

Topics for discussion

1. Determine universe of potential sites (e.g., firefighting training areas, airports, landfills, industries that manufacture/use PFAS)
2. Evaluate background concentrations in our environment (surface water, groundwater, air, soil, biosolids, sewage—influent and treated effluent)
3. Evaluate cleanup options for environmental media
4. Cleanup standards and Significant Environmental Hazard Notice
5. Education, outreach, and communication
6. Additional topics suggested by committee members

Next steps

Closing remarks
